<b>SPECIAL NOTE:</b>	<b>126</b>

**T**here is a calendar that exists and it's marked by explicit inferences and citations in the Torah<sup>1</sup>, also known as *The Five Books of Moses* or Pentateuch. On that calendar we're in the year 5768, which corresponds to the year 2008 in the Gregorian calendar followed in the Western cultures. This second calendar, designed by [Aloysius Lilius](#) and instituted by Pope Gregory XIII in 5342 of the Hebrew Calendar (HC) was based on Lilius' calculation of the birth year for Jesus Christ. As it turns out, and as will be explored in this paper, both calendars are necessary for unlocking a profound divine calendar. Like two sides of a zipper, the two calendars weave together a divine sequences of marked historic events that begin with the Biblical creation and birth of Adam and end with a predicted date for the arrival of *Mashiach*, the Messiah, just 10 years from now.

The dates utilized for these historic events, while not universally accepted, are commonly known and are easily derived from the numerical sequences of the Bible, beginning with the chronicles of Adam. In these chronicles the Bible clearly lays out the lifespan of each our forefathers and the years that they lived when they begot the next forefather in the line of Adam, thus affording us an undisputed chart of progression on which to place the subsequent events. For these calculations and for the more modern dates, we relied on the dates as given by the eminent Torah scholar Aryeh Kaplan and we've corroborated them with multiple sources. One more analytical method utilized, though sparingly, to help reveal the beauty in this divine calendar was the employment of the ancient science of gematria, in which each letter in the Hebrew alphabet has a *specific* numerical value and thus adding up the letters in a specific word gives that word a *specific* value; such as, the word for the number "seventy" has a numerical value of 422.

In essence, all the dates utilized in this revelatory analysis were given by the Bible and by historic notation, and the time between those dates were given by simple addition and subtraction. We make no abstract inferences, nor draw any religious or spiritual conclusions; we're only pointing out the facts as revealed by simple observation of the dating sequence. This book is also not a formal mathematical proof, which like all mathematical proofs would be full of strange symbols and unintelligible to nearly everyone on the planet and thus utterly useless to you. On the contrary, we've taken pains to present these revelations as simplistically as possible, so that the profundity of the over abundance of

---

facts has a chance to sink in. The profundity being that there has been a divinely influenced, if not controlled, timeline that began 5768 years ago and that is set to come to a specific and dramatic conclusion in the year 5778, just 10 years from now.

In our Western calendar that means the year 2018!

## CHAPTER 1 - G-D'S COVENANT

Regardless who we personally feel the Patriarchs may be—historic figures, mythical metaphors for certain archetypes of consciousness, embodiments of divine spiritual energy, or just fictional characters—they all do one thing and that is mark specific moments on a Biblical time-line and set them indelibly. The Torah, or Pentateuch, was very specific about its dates and numbers and purposely left no doubts as to when a specific Patriarch was born or died, or when he had his specific child of prominence. The Bible made sure we'd one day be able to take note of these specific dates. And it must have done it for a reason. If not, why waste its time; after all, as we'll explain later, every letter, word, verse, page, column, row and chapter was counted and calculated and built into its structure before it was ever written down.

One of the most well known numbers to the ancients sages, to Torah scholars, and to numerologists, spiritualists, and religionists is the number **26**, because that is the numerical value of the ineffable Name of G-d, the Tetragrammaton (יהוה-יהוה), and if you were to count all the generations from Adam to Moses you'd get a total of **26** generations. And since all the specific birth and death dates are also given for this prominent lineage, they can be lined by their overlapping lifetimes to form a foundation on which we can place all future Biblical/Historic events and from where we can begin our analysis.

The first clue given to us by the Bible to help us decipher the entire divine timeline comes from a verse in Exodus (*Shmot*<sup>3</sup> in the original Hebrew).

**Shmot 12:40** states:

שָׁנָה מֵאוֹת וָאַרְבַּע, שָׁנָה שְׁלִשִׁים--בְּמִצְרַיִם יָשְׁבוּ אֲשֶׁר, יִשְׂרָאֵל בְּנֵי וּמוֹשֶׁב.

"Now the time that the children of Israel dwelt in Egypt was four hundred and thirty years."

*WHY DOES THIS VERSE STAND OUT AND WHY IS IT SO SIGNIFICANT FOR US?*

---

<sup>3</sup> Shmot – Heb. שמות Means Names.

## THE DIVINE CALENDAR

What makes the verse special is that we know from other Biblical references and from countless scholars that the total exile in Egypt lasted only **210** years, not **430** as stated above, and that the famous Exodus from Egypt occurred in the year **2448**, so there's an obvious discrepancy and either the author of the Torah made a mistake, or He wanted to make a point. If the later were true, what Biblical event occurred 220 years earlier than the year 2238 HC when Jacob entered Egypt with the **70** members of his family?

The momentous event that occurred at that specific time was **G-d's Covenant with Abraham**. It was exactly Seventy (**70**) years after Abraham's birth in **1948** of the Hebrew calendar (HC) year that **G-d made a Covenant with Abraham**. The Hebrew year was **2018** HC, and through this singular event began the saga of the Israelites. From that moment on, G-d was with the Jews and anyone who accepted monotheism, but there were specific periods of exile, four of them, in which they were disconnected from Holy Land and Holy Temples, and this first of four exiles is sometimes referred to as the exile of Canaan and Egypt. The sages specifically connect the four (**4**) exiles with the 4 letters in the Tetragrammaton (יהוה).

### *SO IT BEGAN IN 2018 HC: WHEN WILL IT END?*

Be that as it may, and as will be explained below, it's been predicted by some of the sages of blessed memory that the final exile will end in **2018** CE. It began with G-d's Covenant with Abraham in **2018** HC and is supposed to end in **2018** CE with the beginning of new era of divine peace. If you think that's nonsense, or wishful thinking on their part, read on, and you'll understand why they were convinced. Let's begin with the odd coincidence that the Hebrew year of Abraham's birth, **1948** HC, **70** years before G-d's Covenant began, is similarly analogous to the Gregorian year that Israel was given statehood, **1948** CE, meaning that if the pattern repeats itself, **70** years from then, in **2018** CE we'll receive a new Covenant.

### *WHAT WAS G-D COVENANT?*

**In the Hebrew Year 2018, G-d made a Covenant with Abraham**, and as said in Genesis 12:2, "I will make of you a great nation ... and make your name great." And it continued in Genesis 13:14 "Lift up your eyes and look from the place where you are, northward and southward and eastward and westward, for all the land which you see I will give to you and to your descendants forever." And further in Genesis 15:5, "Look toward heaven and number the stars if you are able to number them ... So shall your descendants be" (c.f. 13:16; 18:18). Then in Genesis 15:18, "On that day the Lord made a covenant with Abram, saying, "to your descendants I give this land from the river of Egypt to the great river, the river Euphrates" (cf. 12:7;15:7;17:8).

## CHAPTER 2 - 666; NOT WHAT YOU THINK!

### *WHAT DOES THE DIVINE TIME LINE HAVE TO DO WITH 666?*

Since we now know that the total first exile period lasted **430** years, as quoted above from the Torah, and that the exile ended with the Exodus and the giving of the Torah that very same year, **2448** HC, we can juxtapose this date with the date that some of the <sup>4</sup>*Tzaddikim* (sages) have determined for the end of the final and present exile, **5778** (HC), which is the Hebrew equivalent to **2018** CE. What we find when we do is that there are **(5778 - 2448)**, or **3330** years between them and **3330** years turns out to be exactly **66.6** jubilee years, as specifically defined by the Torah as a **50** year period. This is significant for several reasons, one of them being that the Torah makes a definitive point of telling us repeatedly that a jubilee year is crucial in reckoning the progression of our time, and its reckoning began in the year **2448** HC.

### *WHAT DOES THE MESSIAH HAVE TO DO WITH 666?*

So if we count **66.6** jubilees years from the reception of the Torah in **2448** HC, we'd be, in essence, connecting the arrival of the Messiah with the **666** connection of the Apocalypse and the ends of days in *Revelations*, but we'll get deeper into the connection between **666** and the year **5778** later on in this paper, and indeed, before this paper is finished we'll decipher the famous verse about the so called number of the beast for you. Nevertheless, gematria<sup>5</sup> reveals another interesting connection between the year of the Exodus and the

---

<sup>4</sup> *Tzadik* – Hebrew (צדיק) for righteous person. A *tzaddik* is known for higher spiritual connection and ability to draw the Light of the Creator to the world.

<sup>5</sup> Gematria, or Gimatria, is the science of using the numerical value of letters to explain the energy represented by the letters, words, verses etc. See special article [here](#).

reception of the Torah on Mt Sinai, in **2448** HC, and the year of **5778** HC, in that the numerical value of <sup>6</sup>*Mashiach Ben David*, the phrase universally used by the sages to indicate the Messiah, is **424** and the ratio between these two prominent dates is **2448/5778 = .424**

---

<sup>6</sup> *Mashiach Ben David* – Heb. משיח־בן־דוד – means Messiah son of David. This term has the numerical value of 424.

## CHAPTER 3 - THE FINAL PEACE

HC	1948	2018	2448	2928	3338	3408	3760	3830	5708	5778										
GC	-1812	-1742	-1312	-832	-422	-352	0	70	1948	2018										

### WHY DOES THE DIVINE CALENDAR HINGE ON PEACE?

So if the saga of the Israelites began with the Covenant of Abraham in **2018** (HC) and ends with the year of Divine Peace in **5778** HC, isn't it interesting that **5778 - 2018 = 3760**, and that **3760 = 10 x 376** the numerical value of the Hebrew word *Shalom*, which mean peace and can also mean completion, as in terms of the final redemption, but even more concretely, **3760** HC is the year "0" CE, which is either the year Jesus Christ was born, or the year **Aloyius Lilius** thought he was when he was divinely inspired to formulate a new Western calendar. And it's only because **3760** was chosen to be the pivotal starting point of the Gregorian calendar that **5778** (HC) also works out to be **2018** CE. The year "0" is also considered the year "1" as there is no actual Year "0," but that doesn't change either our calculations or the point that this was a pivotal fulcrum point in both our civilization and our calendars.

If Lilius had chosen a year later or a year earlier we'd have nothing to write about here because there would be no divine calendar revealed. And isn't it odd that he chose **3760** which equals **10 x 376**, considering that the majority of the peoples of the world are descended from Esau, Jacob's brother, and that Esau has the numerical value of **376**.

### Is there a Deeper Connection to 376 and Peace?

The Patriarch Abraham wrote an amazing yet cryptic book, about 3700 years ago called the *Sefer Yetzirah*, *The Book of Formation*. In that book he delineates a **10** dimensional structure of the universe not so unlike the theories proposed by our modern physicists and he describes the forces of energy that compose and filter through those dimensions and what they connect to in our world. He further explains that the Hebrew letters are directly tied to these energy sources and as such can serve as divine clues to the upper level energies that influence and control our existence. It's for this very reason that gematria works; it's a way to read the underlying energy behind a word, object, name, or concept. And since English, or any other language for that matter, is a derivative translation the true energy behind the concept is often disguised and adulterated beyond recognition.

Of the 22 Hebrew letters, or building blocks as Abraham refers to them, **3** he singles out as "mothers". These are the *Alef*, the *Shin* and the *Mem*, and when we add their gematria value to their ordinal value—their location within the Hebrew alphabet—they sum to **376**. For more about these **3** primordial letters and how they existed before the actual creation, please see our article on the **70** times G-d called out to Moses.

Chapter Summary

Exodus (end of 1<sup>st</sup> Exile) = **2448** HC

First Exile period = **430** yrs

G-d's Covenant with Abraham = **2018** HC

First Exile Began = **2018** HC

End of Exile, Revelation of the Light of the Creator and Divine Peace = **5778** HC

$$5778 - 2448 = 3330 \text{ yrs}$$

Jubilee yr = **50** yrs

$$3330/50 = 66.6$$

$$2448/5778 = .424$$

**424** = numerical value of <sup>7</sup>Mashiach Ben David, the Messiah.

$$3330 + 430 = 3760$$

$$3760 - 430 = 3330$$

$$5778 \text{ (HC)} = 2018 \text{ CE}$$

$$5778 - 2018 = 3760$$

$$3760 \text{ (HC)} = "0" \text{ CE}$$

$$3760 = 10 \times 376$$

**376** = numerical value of Esau

## CHAPTER 4 - THE HOLY TEMPLES

### The Divine Calendar and the Holy Temples

	Abraham Born	Covenant and Exile Begins	Exodus/Torah given	First Temple built	First Temple destroyed	Second Temple Built	Gregorian Calendar	Second Temple	Israel receives Statehood	Year of Divine Peace
HC	1948	2018	2448	2928	3338	3408	3760	3830	5708	5778
GC	-1812	-1742	-1312	-832	-422	-352	0	70	1948	2018

*WHAT PART DO THE HOLY TEMPLES PLAY IN G-D'S GRAND SCHEME?*

*IT STARTS WITH DAVID*

There were two Holy Temples in the history of the Israelites, both located on the same spot called the Temple Mount in Jerusalem, a very specific place of Biblical and spiritual significance to the Patriarchs a thousand years before they were built. The First Temple was planned by King David and funded by the people through his doing. King David was born in **2854** (**906** BCE) and died **70** years later. His son, King Solomon, the greatest of all the Israeli Kings was born 12 years before his father David died; he actually built the First Temple at the age of 16 in **2928** (**832** BCE). The gematria value for the Hebrew word seventy, **70**, (שבעים) is **422** and while the First Temple stood for **410** Years, the Second Temple stood for **422** Years.

Together, both Temples stood for **832** Years, which is obviously analogous to the year the First Temple was built, **832** BCE. If you think someone—other than a divine force—planned it that way, you have to realize that no one lived that long, no group was in power over the entire period, and the destruction of the Temples—coincidentally on the very same day (the 9<sup>th</sup> of Av, the fifth month in the Hebrew calendar) was at the hands of two different conquering armies

separate by hundreds of years. So really, we have two choices here: to rack it all up to coincidence, or to divine intervention and planning.

If we're still a bit skeptical, the challenge is to remain so over the rest of this book; and if on the other hand, we already realize that none of this could be coincidental, we have to begin asking ourselves, why and what it all means.

### *2928 YEARS OF EXILE AND THE YEAR 2928 HC*

Moreover, since there are **3760** years from the beginning of the exile in Canaan in **2018** (HC) to the arrival of Mashiach in **5778** (HC), and since the Holy Temples jointly stood for **832** Years, there are **2928** years that the Jews were not connected to the Temples since the exile began, once again analogous to the year the First Temple was built, **2928** (HC).

As mentioned earlier, the only reason this can work out this way is that the year **3760** HC was chosen to begin the Western or Christian calendar and that somehow both Temples stood for the same number of years as the date when they were first built.

### *IT CONNECTS TO THE FLOOD*

Now, to make matters stranger yet, since the Flood occurred in **1656** HC and since Moses died in **2488** HC then there are **2488 - 1656**, or **832** years between these two other most significant events, the period that concerns nearly the entire Torah.

### *IT'S ALL ABOUT 70*

But it gets even more profound and unbelievable, in that since the First Temple was destroyed in **3338** HC, and the Second Temple was built in **3408** HC, there are **3408 - 3338**, or **70** years between the destruction of the First Temple and the building of the Second Temple. These **70** years comprise the Exile in Babylon that was ended by Ezra, The Scribe, who returned the Jews to Israel and who arranged for the Second Temple to be built. These **70** years also compare to the date **70** CE when the Second Temple was actually destroyed and to the numerical value for the word "seventy" (**70**), which is **422** as in the **422** years

that the Second Temple stood and the date 422 BCE when the First Temple was destroyed. Take a moment to reflect on that. There's no mathematical slight of hand that could line up these dates or lengths of times; this is just the way history played out.

### Chapter Summary

The First Temple was destroyed in 3338 HC.

$$3338 = 422 \text{ BCE}$$

The Second Temple was built in 352 BCE.

The Second Temple was destroyed in 70 CE.

$$352 \text{ BCE to } 70 \text{ CE} = 422 \text{ years.}$$

The numerical value of the word for 70 in Hebrew (שבעים) is 422.

King David lived for 70 years.

Israeli Statehood in 5708 HC

End of Exile, Divine Peace year 5778 HC

$$5778 - 5708 = 70 \text{ years}$$

Abraham born in **1948** HC

Israeli Statehood in **1948** CE

G-d's Covenant with Abraham = **2018** HC

**2018 - 1948 = 70** years from Abraham's birth to Covenant with G-d

**2018 - 1948 = 70** years from Israeli Statehood to Messiah

End of Exile, Divine Peace year = **2018** CE

## CHAPTER 5 - IS THERE A DEEPER MEANING?

### *WHY DID THE TEMPLES STAND FOR EXACTLY 25% OF THE 3330 YEARS?*

Since the Torah was given to us in the year **2448** and the revelation of the light of the Creator is predicted by the Divine Calendar to be in **5778** HC then there are **5778 – 2448**, or **3330** years from the giving of the Torah to **5778** HC, which means that the **832** years of the Temple's collective presence is almost exactly  $1/4$  (.2499%) of the **3330** years from the giving of the Torah to **5778**. Could this be coincidence as well? Or could there be a spiritual reason or deeper understanding why the Temples had to stand for exactly  $1/4$  of the **3330** year time period from the Reception of the Torah to the year **5778** HC?

### **The 32 Paths of Wisdom**

The  $1/4$  ratio is significant because the Tetragrammaton, the ineffable **4**-letter Name of G-d, has a numerical value of **26** and the ratio of those **832** Temple years to **26**, or **832/26**, is exactly **32**, as in the **32** Paths of Wisdom that, according to Abraham in his book the *Sefer Yetzirah*, or *Book of Formation*, form the structure of the universe, as discussed in depth in our paper about the **70** times G-d called out to Moses, the most numerous phrase in the Torah.

The **32** paths are the structural links between the **10** dimensions (ספירות *sefirot*, or concentric spheres as Abraham described them). They also corresponded to the **32** apexes on a 5-dimensional hypercube, but for a clearer and contextual understanding of that we'll refer you to the just mentioned paper.

### **The Essence of the Number**

Nevertheless, when we subtract the **832** years of the Temples' existence from the total **5778**-year period, we get **5778 – 832**, or **4946** years, and it just so happens that the square root of **4946 = 70.32**, a wonderfully graphic link between **70** and **32**. We are talking straight math here, no gimmicks. And though it may seem surprising to us square roots—as the essential source or

fingerprint a number—were often used in ancient gematria to help determine the spiritual component to a name, word, or object. In other words, they were believed to help reveal the soul of a number, and thus of the object that it represented. Our modern scientists believe that everything is made up of energy, so did the ancient sages, only they felt that that energy could be quantified in numbers and revealed by deciphering them through gematria. One of the greatest sages, R' Chaim Vital of blessed memory, said that all the Torah light is spread through squaring.

### **3330 Years of History Come Down to a Single Letter**

This result is far more remarkable than the numerically graphic combination of **70** and **32** because there are exactly **7032** letter “ד” (*Dalets*) in the Torah, and the letter *dalet* is the 4<sup>th</sup> in the Hebrew alphabet and has the numerical value **4**, as in  $\frac{1}{4}$  of the **3330** year time period. This is illustrative of how upper (spiritual) world energy is reflected in the letter of the Hebrew alphabet.

### **The 4 Exiles and the 70 Nations**

The sages tell us “ד”, *dalet* is the feminine form of the word “דל” *dal*, or poor, referring to the state of exile, and that there were **4** historic exiles for the Jews, including the present one, that is supposed to end with the coming of the Messiah (*משיח*). These **4** exiles include the Egyptian, Greek, Babylonian, and Roman, the present one, and according to The <sup>8</sup>*Zohar*, *The Book of Splendor*, written circa 140 CE at the beginning of the Diaspora, in the present exile, the Jews have been dispersed to **70** nations, all derivative of the **4** earlier ones.

---

<sup>8</sup> The Zohar is the main writing of Kabbalah, By [Rabbi Shimon Bar Yochai](#). Written circa 140 CE.

## Chapter Summary

The First Temple stood for **410** Years.

The Second Temple stood for **422** Years.

The total both Temples stood = **410 + 422 = 832** Years.

The First Temple was constructed in **2928** HC.

**3760** (HC) = "0" CE

**3760 - 2928 = 832** Years

**2928** HC = **832** BCE

Flood Occurred = **1656** HC

Moses Died = **2488** HC

**2488 - 1656 = 832** years

The Final Redemption = **5778**

**5778** HC = **2018** CE

Covenant of Abraham = **2018** HC

**5778 - 2018 = 3760**

**3760 - 832 = 2928** years of exile from the Temples

**5778 - 832 = 4946**

**4946 - 2928 = 2018**

$\sqrt{4946} = 70.32$

**832/26 = 32**

**26** = Value of The **Tetragrammaton**

**26 x 32 = 832**

Letters in the **Tetragrammaton** = **4**

The # of the letter "ד" *Dalets* in the Torah = **7032**

The letter *Dalet* = **4**

The number of exiles = **4**

The Nations of current exile = **70**

## CHAPTER 6 - HOW DOES THE HISTORY OF THE MIDDLE EAST FIT IN?

### 408; WHAT CAN IT MEAN?

#### Greece

Whether this is coincidence or not is hard to say, but Phillip II of Macedonia brought all of the Greek States under his power in **338 BCE**, which is **3422 HC**, and that is **408** years before the deconstruction of the Second Temple. Now, while the First Temple was destroyed in **3338 HC**, or **422 BCE**, and the Second Temple was built in **3408**, and as shall be explained shortly the number **408** plays a *most* significant role in the design of the Torah.

#### The 8 Kings of Edom

For the moment, let's just note that **408** is also equivalent to **8 \* 51** and while **8** is the common factor in all the divine dates and also representative of the **8** Kings of Edom referred to in *Genesis*, **51** is the numerical value for Edom, the ancient Hebrew word for the land of Christianity.

#### Ishmael and the Arab Reign

Speaking of the number **4**, if we divide the **832** years of the Temples physical existence by **4**, it gives us **832/4 = 208**, which is the numerical value of Isaac (the Patriarch), Abraham's son. Born in **2048**, exactly **400** years before the Torah was given in **2448**, Isaac was the 21<sup>st</sup> in the line of Adam.

Before Isaac was born, Abraham had a son with Hagar, his wife's handmaiden. They were eventually cast out, but Ishmael was also blessed to become a Great nation and was the precursor to all the Arabs. Ishmael lived **137** years. With the fall of Cyprus, all the Mid-east was subdued by the Arabs in **648 CE**, which corresponds to **4408 HC** and to **28 A.H.** in the Islamic Calendar.

This date is significant for many reasons. Firstly, they all end in **8**, as with so many (almost all) of our remarkable divine dates, but more of that later. Secondly, **28** is one of the very few key core Torah numbers, but more of that later as well. Thirdly, **4408** HC is exactly **1000** years after **3408** HC, when the Second Temple was built. And fourthly, **137** times **10** is **1370** years—ten years for each year of Ishmael’s life—and adding the **1370** years to the year **4408** HC gives us **5778** HC, or alternatively adding it to **648** CE gives us **2018** CE, with **2018** HC being the year of the Covenant of Abraham and Abraham being the father to both Isaac and Ishmael.

And as if to reinforce this issue, the Torah tells us explicitly that Abraham was **137** at the timing of the Binding of Isaac. To the sages, **137** is one of the most well-known numbers as it is the numerical value of the word Kabbalah, “קבלה” meaning “To receive.” And for whatever reasons two of the **26** forefathers of Moses in the lineage of Adam lived for **137** years, Levi and Amram, Moses’ father. The number **137** is also interwoven into the Torah’s very first verse, but for that and all the beauty and the other divine benevolence built into that verse, it’s best to see *The Genesis Prayer*.

The Torah made a point of telling us that Isaac was circumcised on the **8<sup>th</sup>** day and separately that Ishmael was circumcised when he was **13**. According to the great sage, Rabbi Isaac Luria, **8** and **13** are the two numbers connected to “מזל”<sup>9</sup> *Mazal*, fortune. A quick aside here is that the numerical value of *mazal* is **77** as in **5778**.

Nevertheless, it says in the *Zohar*—written over 1800 years ago—that the Arabs merited reigning over the land of Israel for **100** years for every 1 of those **13** in the merit of Ishmael’s circumcision. If the *Zohar* is correct then the Arabs should have reigned over the land of Israel for **1300** years, and exactly **1300** years after **648** CE was the year **1948** CE, when Israel received statehood and the land returned to the Jews. And, of course, **1948** HC was when Abraham was born. In the merit of Abraham, the land of Israel was returned to the Jews and Israel became a state in **1948** CE, ending the **1300**-year period of Arab control over the land.

---

<sup>9</sup> The root of the Hebrew word means ‘Pouring’

One other interesting thing about **648** is that it is the square root of **42**, or in mathematical notation  $\sqrt{42} = 6.480\dots$

Temples Stood = **832** years

**832/4 = 208**, Isaac (the Patriarch)

Isaac Born = **2048** HC

Torah received = **2448** HC

End of First Exile = **2448** HC

**2448** HC - **2048** HC = **400**.

Ishmael Lived = **137** years.

Arabs all descended from Ishmael

Mid-east Controlled by the Arabs = **648** CE = **4408** HC = **28** A.H.

Second Temple Built = **3408** HC

**4408** HC - **3408** HC = **1000** years

**137** x **10** = **1370** years

**1370** years + **4408** HC = **5778**

Mashiach to Arrive = **5778**

**648** CE + **1370** years = **2018** CE

Messiah to Arrive = **2018** CE

Covenant of Abraham = **2018** HC

Abraham = Father to both Isaac and Ishmael (Jews, Christians, Arabs)

Abraham at Binding of Isaac = **137 years old**

Levi Lived = **137**

Amram, Moses' father, Lived = **137**

Isaac Circumcised = **8<sup>th</sup>** day

Ishmael Circumcised = **13<sup>th</sup>** year.

**8** and **13** = The two numbers connected to מזל, *Mazal*, fortune

$$13 \times 100 = 1300 \text{ years}$$

$$1300 \text{ years} + 648 \text{ CE} = 1948 \text{ CE}$$

Israel Received Statehood = 1948 CE

Arab reign of Israel ended = 1948 CE

Abraham Born. = 1948 HC

$$\sqrt{42} = 6.480\dots$$

## CHAPTER 7 - THE COVENANT / BRIT ברית

**I**nterestingly enough, when we divide the year the Torah was given (the year the first exile ended), **2448** by **4**, we get  $2448/4 = 612$ , the numerical value of the Hebrew word ברית (*Brit*), meaning Covenant.

	Abraham Born	Covenant and Exile Begins	Exodus/Torah Given	First Temple Built	First Temple Destroyed	Second Temple Built	Gregorian Calendar	Second Temple	Israel receives Statehood	Divine Peace Date
HC	1948	2018	2448	2928	3338	3408	3760	3830	5708	5778
GC	- 1812	- 1742	- 1312	-832	-422	-352	0	70	1948	2018

And while this may be just a coincidence, the Gregorian calendar years for all the main Biblical dates through the destruction of the First Temple sums to  $(1812 + 1742 + 1312 + 832 + 422) = 6120$ , or **10** times **612**, and **612**, as mentioned above, is the numerical value for the Hebrew word *Brit*, Covenant in English.

*Brit* is the same word for covenant as in the Covenant of Abraham etc. and as in the “ברית־מילה” (*Brit Mila*), the process of circumcision and covenant that started with Abraham and that occurs on the **8<sup>th</sup>** day of a male child’s birth.

### WHY IS THIS WORD IMPORTANT?

The *brit*, Covenant word is significant whenever it’s used because it directly replies a removal of negativity, which is exactly the reason for a *brit mila* (circumcision). It’s also significant that it happens on the **8<sup>th</sup>** day or year, because it signifies that a cycle, in the case of a circumcision the cycle of **7** days, has passed. The Torah repeatedly teaches us to count in cycles of **7**’s and that when we reach the **8<sup>th</sup>** we’ve cycled through a level of maturity and are ready to

remove any negativity that we brought into it or that we accumulated during that cycle.

The sages have even said that in the final years leading up to the Final Redemption there will be one final cycle and it will culminate in the 8<sup>th</sup> year and they specifically said that that is analogous to the *brit* of the *Mashiach*.

**2448/4 = 612**, *Brit*, ברית, Covenant

Abraham born = **1812** BCE

Covenant of Abraham = **1742** BCE

Torah Given = **1312** BCE

First Temple Built = **832** BCE

First Temple Destroyed = **422** BCE

**(1812 + 1742 + 1312 + 832 + 422) = 6120**

**6120 = 612 x 10**

## CHAPTER 9 - FRACTALS

### HOW DOES THE DESTRUCTION OF THE FIRST TEMPLE AND YEAR 5778?

The First Temple was destroyed in 3338 HC, which just so happens to be 422 BCE, a very possible allusion to King David's 70 year lifespan, but 3338 is also the fractal result of multiplying 5778 by itself .5778. Since I probably just lost you, I'll rephrase that. In the most simplest terms, when we say something is fractal, either mathematically or in the natural world that mathematics reflects, we mean that no matter from what magnitude we examine something, it always looks the same. So rather than expanding the number outwards by squaring it, 5778<sup>2</sup> we are taking it down a few magnifications by dividing 5778<sup>2</sup> by 10000, and what we get when we do is 3338, as in 3338 HC, the year the First Temple was destroyed.

Another way to understand this is that the square root of 3338 is 57.78. Indeed, the entire structure of this divine calendar is fractal in nature, because from whatever perspective we come at it, or examine it, the same numbers, dates and connections keep coming up. Whether we put the divine calendar under a magnifying glass or a microscope it always looks the same. A perfect example is how the dating of the destruction of First Temple in 422 BCE leads us to the construction of the Second Temple 70 years later in 352 BCE and was destroyed 422 years after that in 70 CE, and 422 in turn is the numerical value of seventy (70), and so on.

The First Temple destroyed in 3338 HC

*Mashiach* Predicted to arrive in 5778 HC

$$\sqrt{3338} = 57.78$$

$$5778 \times 5778 = 33385284$$

### The Torah, 2448 HC, the Messiah, and 5778 HC

The above described phenomenon also means the year 3338 HC is 57.78% of the year 5778 HC, and it just so happens that the year of the exodus from Egypt

and the giving of the Torah, **2448** HC is **42.4%** of the year **5778** HC, and **424** is the numerical value of “משיח־בן־דוד” *Mashiach Ben David*, the Messiah. Yet another perfect example of how the proportions between the dates are just as fractal in nature as the dates themselves, all designed to give the same message, no matter what our perspective. Does any of this give you chills?

Predicted New Era of Light and Peace = **5778** HC

First Temple Destroyed = **3338** HC

Exodus from Egypt, Reception of Torah = **2448** HC

**3338** HC is **57.78%** of the year **5778**

**2448** HC is **42.4%** of the year **5778** HC

**424** = numerical value for “משיח־בן־דוד”, *Mashiach Ben David*, ‘Messiah, the son of David’

### **480 Years, the Midpoint between the Torah and the Temples**

Since the exodus from the first exile in Egypt occurred earlier in the same year that the Torah was given, both occurred in the year **2448** HC, and the First Temple was built in **2928** HC, there are **2928 - 2448** or **480** years elapsed between them. And coincidentally or not, since the Second Temple was built in **3408** there are **3408 - 2928**, or **480** years, elapsed between the building of the two Temples as well.

This means that the first Temple was built at the midpoint date between the giving of the Torah and the construction of the Second Temple. Do you think anyone planned that? Do you honestly think King David and his 16 year old son, King Solomon decided, “Hey, it’s been **480** years since we received the Torah and the Second Temple will be built **480** years from now, wouldn’t it be cool if we built the First one now. I bet it’ll blow their minds 2850 years from now.” Or do you think when Ezra led the Jews out of the Babylonian exile and back to Jerusalem and built the Second Temple what *we’d* think about his cool timing 2370 years later was paramount on his mind?

## 480 and the Messiah

The period of **480** years is significant on at least two other counts as well. Firstly, when we divide the predicted year of the Messiah by it, we get **2018/480 = 4.2042**, a instantly recognizable allusion to the **42**-letter Name of G-d, the understanding of which the sages say will bring about the final redemption (גאולה *geula*).

And secondly, the Gregorian calendar year **480** CE is the Hebrew year **4240** HC, and that is equivalent to **10** times the numerical value of the Hebrew phrase "במשיח" "Messiah, son of David". To the ancient sages, the number **10** also represents a level of completion, in that they believed the universe exists in **10** dimensions (*sefirot*). Similarly, to the modern physicist, the number **10** also represents the total number of dimensions that our universe is comprised of. Of course, it also represents the base-**10** mathematics in which all our calculations and thought processing is done.

## From the 5 Books of Moses to the 42 Letter Name

And whether this is coincidence or not, the sum value of the **5** original Hebrew Names (בראשית-שמות-ויקרא-במדבר-דברים) (*Bereshit=Genesis, Shmot=Exodus, Vaikra=Leviticus, Bamidbar = Numbers, and Devarim=Deuteronomy* ) for the **5** individual Books of Moses, the Torah, is **2480**, and since the numerical value of the name Abraham is **248**, it's also **10** times **248**, Abraham.

The number **2480** is also the value of the sum of the last letter on each of the **7** lines of the **42**-letter Name of G-d matrix.

אבג יתץ  
 קרע שטן  
 נגד יכש  
 בטר צתג  
 חקב טנע  
 יגל פזק  
 שקו צית

*FROM THE 5 BOOKS OF MOSES TO THE 42 LETTER NAME TO PI*

One more quick aside is that if we add up the numerical value of the first letter of each of the 5 Names of the 5 Books, as the sages were apt to do, they add up to **314**, as in Pi (3.1415926358...), but for a very in depth discussion and analysis of how Pi and Phi connect to **5778**, etc you should read our Book *There's Nothing Random About the Universe*, or for a similarly deep review of how they relate to the Torah, the Torah's first verse and the 42-letter Name of G-d and how you can get the most out of that understanding, we suggest you read *The Genesis Prayer*.

*AND TO NOAH*

There is one more significant Biblical use of the **480**-year period and that is that Noah was **480** years old when he was instructed to build the Ark. It either took him **120** years or he sailed as soon as the waters rose at the end of **120** years, which is the length of Moses' lifetime, a foreshadowing perhaps?

The First exile ended in **2448** HC.

The Torah was given in **2448** HC.

The First Temple was built in **2928** HC.

**2928 - 2448 = 480** years.

The Second Temple was built in **3408** HC.

**3408 - 2928 = 480** years.

The First Temple was destroyed in **3338** HC.

$$3408 - 70 = 3338.$$

The Covenant of Abraham was given in **2018**HC.

The Messiah is predicted to arrive in **2018** CE.

$$2018/480 = 4.2042$$

**42** = Letters in the **42**-letter Name of G-d associated with the final redemption

$$480 \text{ CE} = 4240 \text{ HC}$$

**4240** = **10** x **424**, the value of "משיח־בן־דוד" *Mashiach Ben David*, the Messiah.

**10** = # of sefirot (dimensions) according to ancient sages

**10** = # dimensions, according modern physicists (String Theory)

**248** = value of Abraham

**2480** = value sum of names of 5 books of Moses

$$2480 = 10 \times 248$$

**2480** = sum of the last letter on each of the 7 lines of the **42**-letter Name.

**480** = Noah's age when told to Build the Ark

**314** = value sum of 1<sup>st</sup> letter of names of 5 books of Moses

$$314 = \text{Pi}$$

CHAPTER 10 - THE NUMBER SEVENTY (70) “שבעים”

**Adam and David**

Of course, the 70-year intervals with the Temples, and King David and Abraham’s lives aren’t the only Biblical connections to the number 70. Adam lived 930 years and it’s said in the <sup>10</sup>Midrash that he was supposed to live to 1000, but that he gave up 70 years for the sake of David, who he foresaw was to come. Now that seems farfetched, except in the light, of course, of what now appears to be a predestined divine calendar in which the significant historic dates had been laid out and scheduled in advance.

**The Birth of Abraham**

<sup>10</sup> Refers to a compilation of Midrashic teachings, in the form of legal, exegetical or homiletical commentaries on the Tanakh (Jewish Bible).

## THE DIVINE CALENDAR

Yet another connection to Abraham and **70** began with his father, Terach, who was born in **1878** HC, **70** years before he fathered Abraham, and yet another one is found with the **70,000** babies that were killed in Nimrod's desperate search to destroy Abraham at birth. Then **70** years later, G-d made his Covenant with Abraham.

Another prophetic way to view Terach and his divinely intended birth **70** years before his son, Abraham's in the year **1878** HC is to juxtapose it with the time span between the Second Temple being destroyed in **70** CE and Israel becoming a nation in **1948** CE: And what we get is **1948** CE - **70** CE = **1878** Years.

### The Exile Period

Then 220 years after that, there were the **70** Israelites of Jacob's family that entered Egypt to begin the **210** year exile there, and **210**, of course, is **70** x **3**. Then shortly after receiving the Torah, Moses chose **70** Elders to receive it from him. And according to the *Zohar, the Book of Splendor* written circa 140 CE, in the current exile there are **70** nations under the **70** Ministering Princes.

**2018 - 1948 = 70** years from Abraham's birth to Covenant with G-d

**King David conceived the First Temple**

King David lived for **70** years

**70** Israelites entered Egypt to begin the exile there in **2238**

The Exodus from Egypt occurred in **2448**

**2448 - 2238 = 210 = 3 x 70** years

Moses chose **70** Elders to receive it from him.

The Second Temple was built in **3408**.HC

The First Temple was destroyed in **3338** HC

**3408 - 3338 = 70** years

## The Core Torah Numbers 28 and 42

Two of the very few core numbers that the Torah was constructed around are **28** and **42** and since we discuss these at length in the book *The Genesis Prayer* and in other papers of ours, for this discussion, we only want to point out that Moses was born in **2368** HC and that Abraham was born in **1948** HC and that the time span between their births is **2368 - 1948**, or **420** years.

Also, the sum of **28** and **42** is **70**. Of course, **42** is  $6 \times 7$  and **28** is  $4 \times 7$ , but **28** is also the numbers of letters in the first verse of the Torah where the **42**-Letter Name is derived and even though there are **7** words in that first verse, **28** is the sum of the positive integers through **7**, or  $7+6+5+4+3+2+1$ . But even more important is that **28** is the numerical value of the Hebrew words for power and for unification—the all-important spiritual process, of which the sages say is our main purpose on earth.

And notice how many of our key historic and Biblical dates begin and end with **2** and **8** as in **28**, even Moses' birth date, **2368**. There's much more on the significance of the number **28** as a core Torah number in other papers of ours, including *The Genesis Prayer* and of how it relates through Pi to **5778**, in *There's Nothing Random About the Universe*, so we won't get distracted with it here.

## CHAPTER 11 – SIX GENERATIONS OF 70 YEARS EACH

HOW DO THE GENERATIONS CONNECT TO PI (3.14159265358...)?

Since Moses was born in **2368** HC and Abraham was born in **1948** HC there were (**2368 – 1948**), or **420** years between their births, and since Moses was the **26<sup>th</sup>** in the line of Adam, and Abraham was the **20<sup>th</sup>**, there were **6** generations between the two forefathers, and **420** divided by **6**, or **420/6**, equals **70** years, meaning that there were exactly **70** years per generation on average for these critical last **6** generations.

Do we think that **420** or **10** times **42** Year was accidental? Or is there a reason that each of those significant generations lasted exactly **70** years on average, and not 69, or 71?

The obvious references here are to the Tetragrammaton, which has the numerical value of **26**, connected to Moses, who was the **26<sup>th</sup>** in the line of Adam, and then to the **42**-Letter Name of G-d through the **420** years that separated *the* two most prominent Biblical figures.

### **Abraham and Moses, the Torah's Two Most Prominent Men**

Moses' death in **2488** HC is distinctive in and of itself in that the **248** figure in the date **2488** is a reflection of Abraham, whose name has the numerical value **248**, the same as the word for mercy or grace in Hebrew, which Abraham personified.

And when we subtract Abraham's death date from Moses' we get (**2488 – 2123**), or **365**, which just so happens to be both the lifespan of Enoch, the **7<sup>th</sup>** in the lineage of Adam, and the man purported by the sages to have become the archangel **Metatron**<sup>11</sup>, but also the number of days in our calendar year, 365

---

<sup>11</sup> Hebrew. מטטרון. Enoch transformed to angel by G-d. Genesis 5:24

days. Moreover, the combination of **248** and **365** in same equation is further reflected in the **613** precepts (*mitzvot*) listed in the Torah, **248** proactive precepts and **365** responsive ones. Is there a hidden message here?

### What's in a Name?

While the numerical value of the name Abraham, **248**, forms a geometrical progression in the order of (2, 4, 8), or ( $2^1, 2^2, 2^3$ ), the numerical value of the name Moses, **345**, not only forms the simple mathematical progression (3, 4, 5), it also forms the simplest and smallest and most unique Pythagorean triangle<sup>12</sup>, the 3, 4, 5 one, one whose area is 6, whose two legs add up to 7, whose shorter leg and hypotenuse add up to 8, and whose longer leg and hypotenuse add up to 9.

Another relationship found between these seemingly dissimilar number that represent the Names of our two most distinguished Patriarchs, is laid bare by examining their square roots:

The square root of Abraham's name =  $\sqrt{248} = 15.748\dots$

The square root of Moses' name =  $\sqrt{345} = 18.574\dots$

Not only are the resultant numbers of their square roots transpositions of one another (15.748 to 18.574), but also the different between the two (18.574 - 15.748) is **2.82616**. And as we've already said, **28** is a core and key Torah number, **26** is the Tetragrammaton, but what makes this resultant difference between their two names even more interesting is that **616** is both the numerical value of "The Torah" (*H'Torah*) and also the exact number of times the pure name Moses appears in the Torah.

### Counting the 73 Generations to Mashiach

---

<sup>12</sup> To be a Pythagorean triangle all three sides of a right triangle must be whole numbers, not so easy to do, since they must also satisfy the formula  $x^2 + y^2 = z^2$  whereby z is the hypotenuse and x and y are the base and height of the triangle.

Moses passed away in the Year **2488** HC and the divine date of Peace, the final redemption, is predicted to be in **5778**, so the difference between these dates, (**5778** – **2488**), equals **3290** years, which, if we use **70** years as the length of a generation in the post-Abrahamic period, as per our calculation above, we see that **3290** years is equivalent to (**3290/70**), or exactly **47** generations.

And the significance of this is that since Moses is the **26<sup>th</sup>** generation in the direct lineage from Adam, and that since it's been predicted that the divine world peace is to begin in the year **5778** HC, which works out to be exactly **47** generations later, there are **26 + 47**, or **73** generations in the line of Adam to year **5778** HC.

Now, just like the number **28**, the number **73** is another one of those few core key Torah numbers, so much so that the very first verse of the Torah—one multiply associated with the mathematical constant **Pi**—has a total numerical value of **2701**, which just happens to be the sum of all the positive integers through **73**, (i.e. **73 + 72 + 71 + 70...**). This is also explained in depth in *The Genesis Prayer* so we won't go much further with it here, except to say that this equation and these same key core numbers play an integral part of underlying coding built into the infamous verse in Revelations about the secret of **666**, which we'll explain before this book is through. We will give you a hint: that verse begins with "Here is Wisdom."

## Wisdom and Pi

To the ancient sages the number **73** had deeper significance in that it is the numerical value of the **9<sup>th</sup> sefirot** (dimension), which is called "חכמה" *Chochma* (wisdom), and it just so happens that there is a primordial equation such that the number **9** divided by the numerical string given by the **42**-letter Name of G-d (.123049...) when translated using small gematria<sub>(0)</sub>, equals **73.141594**, which is really **70** plus the numerical constant **Pi** (3.14159265..) to within an astounding level of accuracy—even by NASA's standards:

$$9/.123049... = 73.141594 = 70 + \text{Pi} (3.141593)$$

The 9<sup>th</sup> Sefirot = Wisdom

Wisdom = 73

There are 73 Generations from Adam to Mashiach

### 9 Specific Divine Dates and Pi

According to the sages, the 9<sup>th</sup> *sefirot* (dimension) is called *Chochma* (wisdom) whose numerical value is 73. And while we've shown many Biblical and historic dates to be divinely inspired, there are 9 specific divine dates connected to year 5778 and the Holy Temples:

$$1948 + 2018 + 2448 + 2928 + 3338 + 3408 + 3830 + 5708 + 5778 =$$

**31404**

The 9 specific divine dates add up to 31404, and 31404 is remarkably similar to the mathematical constant Pi: 3.1415, but there are much more significant connections to Pi and year 5778, enough to fill a whole other book. So we wrote that book too. *There's Nothing Random About the Universe* goes far further that any of us could have imagined into understanding how the universe works and who makes it work.

### *1948, Pi AND THE 10 COMMANDMENTS*

To see just one example of how these 9 dates are connected to Pi, we have only to look at the first date, which in spiritual terms is the initial construct and is considered the seed level energy of the equation, its highest and purest point so to speak. So it just so happens that the year Abraham was born, 1948 HC is also the year that Israel received statehood, 1948 CE, but when divide 1948 by Pi, we get  $1948/3.14159265358 = 620.0\dots$  and 620 is the numerical value of "כתר" *Keter*, the highest of the 10 *sefirot*, or dimensions. According to the ancient sages and also according to the *Sefer Yetzirah*, the *Book of Formation* written by Abraham 3700 years ago, *Keter*, is the dimension closest to G-d.

Is this coincidence, maybe, and maybe it's also coincidence that the 10 Commandments in their original Hebrew contain the letter "י" (*yud*) 62 times

and the numerical value of *yud* is **10**, so once again **62 x 10** equals **620**, the value of “כתר” (*Keter*).

### Number Theory, Pi and G-d

And just in case, we really do believe these connections to **Pi** are coincidental, we might consider this: number theory allows us to break up a string of numbers into its component parts, and if we break up the first 12 digits of the mathematical constant **Pi (314159265358)** into triplets as is often done in Hebrew—like the 14 triplets in the **42**-Letter Name of G-d, the 72 triplets Name of G-d, and the three letter roots of most Hebrew words—we get **314, 159, 265, and 358**. The applying the ancient mathematical system of gematria to see possible energy sources these numbers relate to, we see that: **314** is the value of the archangel Metatron and of the Name of G-d *Shadai*, the one that all Jews put on their doorposts; **159** is the small gematria value of the upper **42**-letter Name of G-d; **265** is the combination of the Tetragrammaton (יהויה) (**26**) and the pronounceable version of it, “אֲדֹנָיִי” *Adonai* (**65**); **358** is value of the word Messiah (משיח) *Mashiach*); and that the sum of the two middle components (**159 + 265**) equals **424**, the value of the Messiah again, this time as the full name (“משיח־בן־דוד” *Mashiach Ben David*).

### Primordial Proportions

We’ll see shortly how the equation **5/8** is at the core of the Torah, but as it just so happens that **265** is exactly **5/8** of **424**, in other words **265/424 = 5/8**, and consequently **159** is exactly **3/8** of **424**. Does it strike anyone as odd that the first **12** digits in **Pi** would do this? I mean, Pi is a primordial constant based on a physical property of nature and there’s nothing manmade about it.

### An Even Cooler Picture of G-d

So if Man didn’t invent Pi, and we *know* he didn’t, would a Godless nature just fall into place, fall into just the right exact, repetitive and fractal proportions? Since numbers are reflections of the underlying energies of the universe, someone could argue that it might. And would or could Man tune into these energies and unwittingly create his civilization and history to match them,

overpoweringly driven to build and destroy Temples, to found nations, leave nations, embrace religion, etc along a cosmic continuum that mandates such actions? It could happen. But then the real question is could this natural cosmic force get cute and build obvious puzzles and messages into the primordial constants. That I'd argue it couldn't do. See for yourself. This is just one of many.

If Pi just happened to unfold along a cosmic energy fault that naturally spewed out a few known Names of G-d and in perfect harmonic proportion right at the beginning where anyone could find it, then it's odd that the last digit in these four consecutive 3-digit numbers sums up to  $(4 + 9 + 5 + 8) = 26$ , the value of the Tetragrammaton. And it's odder yet that since the first digits in the series sum to  $(3 + 1 + 2 + 3) = 9$  and the second digits in the series sum to  $(1 + 5 + 6 + 5) = 17$ , we have the first set (9) plus second set (17) equaling the third set (26), which is the value of the Tetragrammaton in standard gematria. But what's even more astonishing is that the second digits in the series is (1,5,6,5), which numerically spells out the Tetragrammaton in *small gematria*, 1565 (YHVH-ייהוה).

**Smoking gun?** You decide. We have free choice, and though we're seemingly bound by the natural laws of the universe, we're not completely controlled by them either. You can decide to believe in a divine Creator or Creative Force, Light Force, anything you're comfortable calling it, or not. Either way, the divine calendar is real and the clock is ticking. Many of us didn't need a divine calendar to tell us that, and I congratulate you, but the divine calendar and the revelations in *There's Nothing Random About the Universe* are for the rest of us knew need to know more, need constant reinforcement, need to see things for our own eyes. It's true, we didn't need a smoking gun, but once you read what's in Pi and in Phi and how they integrally connect to the year 5778, you won't need any more proof either.

### Love Thy Neighbor...

By the way, there was a lot more going on in those 3 digit sets than we explained in this book, but since we cover it in *There's Nothing Random About the Universe*, why do it twice. Nevertheless there is one very important concept that get revealed when we take the predicted year for the final redemption 5778 and subtract the third digit set from above, 4958 to give us (5778 -

**4958**) equals **820**. And **820**, as we'll get into later, is the value of the phrase that the famous sage Hillel told us encapsulates the entire Torah, the one paraphrased as "Love thy Neighbor as thyself." "וְאָהַבְתָּ לְרֵעֶךָ כְּמוֹךָ".

## Chapter Summary

NUMBER THEORY BREAKS PI DOWN TO 314, 159,  
265, AND 358  
Pi = 3.14159265358

**314** = numerical value of the Name of G-d "שִׁדְיִי" *Shadai*, and archangel Metatron "מִטְטִירוֹן".

**159** is the small gematria value of the upper **42-letter Name** of G-d

**265** represents the Tetragrammaton יהוה (26) and אֲדֹנָי *Adonai* (65)

**358** is value of the Hebrew word for Messiah (מְשִׁיחַ)

**159 + 265 = 424**, the value of the Messiah, son of David, (מְשִׁיחַ בֶּן־דָּוִד *Mashiach Ben David*).

$$265/424 = 5/8$$

$$159/424 = 3/8$$

The Tetragrammaton יהוה = **26**

$$(4 + 9 + 5 + 8) = 26$$

$$(3+1+2+3) = 9$$

$$(1+5+6+5) = 17$$

$$9 + 17 = 26$$

Year of beginning new era of peace and divine presence = **5778**

$$5778 - 4958 = 820$$

**820** = "Love thy Neighbor as thyself." וְאָהַבְתָּ לְרֵעֶךָ כְּמוֹךָ

## CHAPTER 12 - WHY 70?

**W**e've previously dedicated an entire paper to this question, as we explored in depth the phrase "G-d spoke to Moses, saying..." and its repetition more than any other in the Torah, exactly 70 times, and where in hyperspace 70, the realm of *Da'at*, or knowledge, exists, but that's very advanced and takes a deep understanding of the sages' writings to grasp. Nevertheless, for the purposes of this book, perhaps the answer is simple.

*HOW CAN THE NATURAL LOG OF THE NUMBER SAY SO MUCH?*

The natural log<sup>13</sup>—a system inherent in mathematics—of the number 70, or in mathematical notation, LN (70), equals 4.2484... and as we've pointed out already: the number 42 in 4.2484 corresponds to the 42-letter Name of G-d, which is associated with the final redemption; the 424 in 4.2484 corresponds to the numerical value of the Hebrew phrase "משיח בן דוד" "*Mashiach Ben David*," "Messiah son of David"; and the 248 in 4.2484 corresponds to the numerical value of Abraham and also of the Name of the 4<sup>th</sup> Book of the Torah, *Bamidbar*, commonly known as "Numbers," the Book that lists the 42 places the Israelites journeyed to in the Wilderness on their way from the darkness of Egypt to the Promised Land; and finally, the 84 in 4.2484 is representative, according to the sages, of the Hebrew word, "פד" *Pad*, meaning redemption, and of the unification of the upper and lower 42-letter Names together (42 + 42 = 84).

So was the divine calendar's redundant time frame of 70 years just coincidence? Or do our mathematics and physics reflect some higher spiritual/cosmic

---

<sup>13</sup> The **logarithm** of a given number to a given base is the power (exponent) to which that base needs to be raised in order to get the number. For example the logarithm of 100 to the common base 10, as in our base 10 mathematics, is 2, because 10 raised to a power of 2 is 100. The **natural log** on the other hand is when the chosen base is the irrational constant *e*, which is 2.718281828459... In other words LN (70) = log<sub>*e*</sub>(70); therefore the natural logarithm of a number *x* is the power to which *e* would have to be raised to equal *x* and in this specific case it is the power to which *e* would have to be raised to equal 70.

equation that ties our lives and history to the year **5778** of Divine Peace? To the Messiah, **424**? To the **42**-Letter Name of G-d? And to Abraham?

If you tried reading the footnote on logarithms, you know that getting from **70** to **4.2484** meant doing a mathematical function utilizing yet another primordial and irrational constant, this time *e*, whose value is 2.718281828459... Simple for a computer. Not so easy 4000 years ago.

### **LN (70) – It gets better!**

The connection between the number **70** goes even deeper into the Israelite consciousness, as the sum of the values of all the **22 letters of the Hebrew alphabet when spelled out is 4248** and as we've just shown, LN (**70**) = **4.2484**.

$$\text{LN (70) = 4.2484 = Sum of the 22 Hebrew Letters}$$

### **Innate Power in the Hebrew Letters**

In other words, the use of the Hebrew alphabet can connect us to the place of **70**, *Da'at*, or *knowledge*, redemption, and the continuous flow of light to the world. That's not to say that the use of Hebrew alone will bring us to that state, but that there is an innate energy (as numbers are only measures of specific levels of energy) in the letters.

As you can see there was a purpose in choosing **70** to play such a prominent roles in our history and in the Bible. And there was a purpose in disconnecting the majority of the people from the Hebrew language during the Tower of Babel incident and creating **70** languages for them. And just like that, there is a purpose in us being able to finally comprehend the connections that were at one time at people's fingertips. It's time for us to reconnect. Of the final **70** years of the **73<sup>rd</sup>** generation from **1948** CE to **2018** CE we have only 10 left.

### Abraham and the 22 Hebrew Letters

Of course, Abraham wrote the *Sefer Yetzirah*, which described the technology involved in utilizing the 22 Hebrew letters, but 3700 years later we're still learning how to decipher it. Nevertheless, he was connected to the letters in multiple ways, none of which we can fully comprehend, but when pointed out to us, at least we can appreciate them, and that's half the battle.

Speaking of half: half of **4248** is **2124**, which is the year after Abraham died; or conversely, the first year of the post-Abraham world.

Moreover, we've seen that the first verse of the Torah was designed specifically to have a numerical value equal to the sum of the positive integers through **73**, so we should ask what is the sum of the positive integers through **70**?

It's **2485**. Once again the core Torah number **248**, representing Abraham, appears and this time in a number, **2485**, so reminiscent of the sum of the Names of the **5** Books of Moses: **2480**. What does it all mean?

## CHAPTER 13 - WHY IS THE NUMBER 8 SPECIAL?

As we explained earlier, **5778** HC was predicted as the Divine Date of Peace, which is just another way of saying, the Final Redemption, but let's be clear, all the indications from all the revelations point to the Messiah and to Peace. In the year **2448** HC 600,000 Israelites accompanied by 3 million members of other nation left Egypt and received the Torah at Mt Sinai later in the year. The difference between these two profound dates (**5778** HC - **2448** HC) is **3330** years, or exactly **66.6** jubilee years, each of which has a time span of **50** years.

### *8 AND THE SPIRITUAL WORLD*

We also know that the First Temple was destroyed in **3338**, and that (**3338** - **3330**) = **8**, which could very well represent the final **8** years that the sages say are the necessary time frame for the final transformation that the world will go through, and which they liken to the *brit* (covenant) on the **8<sup>th</sup>** day of a male child's life, when his connection to negativity is removed.

According to the Maharal and in accordance with a long list of other sages, "Whenever we find the number **8** used, it is in reference to something that brings one into the spiritual realm;" it's going one above the limitations of physicality. The **7** states (*sefirot*) that lead from the **3** upper dimensions of the divine spiritual world down to our physical one are processing zones, rungs on a **7** step ladder.

### *HOW IS THE TORAH STRUCTURED TO TAP INTO THAT UPPER WORLD, BEYOND PHYSICALITY?*

If innately connects to the spiritual world, perhaps this is the reason that the original and every authentic hand scribed Torah scroll is exactly (**80,000** - **3 x 8**) words long; and has exactly **5<sup>8</sup>** words, verses and letter in it; and has exactly (**600,000** - **408**) composite letters in it; has exactly **2<sup>10</sup>** or **8 x 128** unique word values in it, contributing to a total gematria value for the entire Torah of **21009826**, or most tellingly, **2626228 x 8** ; and they all have **5845** verses, **187** chapters, and **304805** letters, written in **248** columns on **80** pages of velum.

*HOW ARE THE DIVINE DATES STRUCTURED TO TAP INTO THAT UPPER WORLD, BEYOND PHYSICALITY?*

As you've probably noticed already, all the dates in the Hebrew calendar side of the divine date schematic include the number **8**, and that all but one of them end with the number **8**, but there are other significant Biblical dates that fall into that category as well:

**Divine Dates End in Eight in the Hebrew Calendar**

1878	Terach Born
1948	Abraham Born
2018	Exile Saga begins
2048	Isaac Born
2108	Jacob Born
2228	Isaac Dies
2368	Moses Born
2448	Exodus, Torah Given
2488	Moses Dies, Israelites end the Promised Land
2928	First Temple Built
3338	First Temple Destroyed
3408	Second Temple Built
3830	Second Temple Destroyed
5708	Israel becomes a Nation
5778	Mashiach Arrives

**The Utilization of 8 to Connect Above Doesn't Stop There.**

The birth and death dates for the Patriarchs Isaac (*Ytzack*) and Jacob and Moses also end in **8**. Isaac was born in 204**8** and died **180** years later in 222**8**, and Jacob, his son, was born 60 years after Jacob in 210**8**, while Moses was born in 236**8**, lived 120 years and died in 24**88**, the same year the Israelites entered the Promised Land

And while there appears to be a sub-pattern in the 60, 120 and 180-year time spans, the Torah makes distinct note that Moses was **80** and Aaron **83** when they appeared before Pharaoh to demand the Israelites release from Exile in 244**8**.

And while, as previously explained, the sum of the numerical values of the names of the 5 individual Books of Moses is **2480**, when we add **8** to it, we get **2480 + 8 = 2488**, the year Moses passed away.

### FROM THE COVENANT OF ABRAHAM TO THE BIRTH OF MOSES

Interestingly enough, if we note, as we had previously, that during the crucial period between the Covenant of Abraham and Moses' birth, all the dates begin with **2** and end with **8**, forming the core Torah number **28**, we can sum up the numbers sandwiched between them, 01 + 04 + 10 + 22 + 36 to equal **73**. Odd, isn't it that this coincides with the **28** letters in the Torah's first verse, which numerically sum to the equivalent of all the positive integers through **73**. There must be some connection?

--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

*IN THE LINEAGE OF ADAM*

Even the numerical values of the Patriarchs' names end in **8**: Abraham's name has a value of **248**; Isaac's has a value of **208**; Jacob's has a value of **182**; Noah's has a value of **58**; and the Matriarch Rachel's has a value of **238**, which is the reverse of **832**, as in the year the First Temple was built, etc. And while **832** divided by **4**, or **832/4** equals **208**, the numerical value of Isaac. Leah, Rachel's sister, on the other hand has the numerical value of **36**, and if we divide @08 for Isaac, by 36 for Leah, we get the equation **208/36 = 5.778**. And when we insert the **36** between the **2** and the **8** and get **2368**, the year Moses was born.

*ADAM AND EVE SPAWNED 8*

And since the Hebrew numerical value of Adam is **45** and Eve is **19** as given by the spellings of their respective names, together they sum to **45 + 19 = 64**, or **8** times **8**, in other words, **8<sup>2</sup>**. So the ultimate precursors to Man combine together to generate **8 x 8**.

And from them, **26** generations later came Moses. If we sum up all the square roots of all the integers though **64**, we get **345.130**, and oddly enough **345** is the numerical value for Moses, and **130** is the numerical value for Sinai. Go Figure!

We've spoken briefly of the **5**-dimensional hypercube and how it connects to **32**, the Tree-of-Life, and the **10** dimensions, but even simpler to grasp is that **8 = 2<sup>3</sup>**, which expresses a cube having **2** units of measure per side.

ABRAHAM, FATHER OF ALL RELIGIONS

And Abraham, who was 20<sup>th</sup> in the lineage from Adam and Eve and born in the 20<sup>th</sup> century of the Hebrew calendar, had 8 sons: Isaac, who continued and fathered the Judeo-Christian lineage; Ishmael, who fathered the Arab and eventual Islamic lineage; and 6 other sons, who Abraham sent out with spiritual gifts to the East and who in turn fathered their own vast spiritual movements. One obvious one is the Brahmins—the ones closest to G-d—who come from the earliest of the Vedic period in the Hindu civilization. Seeing as Abraham's 8 sons were fathered by his 2 wives, we once again see the 2-8 relationship highlighted by the Torah.

**The Numerical value of the Patriarchs' Names**

$$Adam = 45$$

$$Eve = 19$$

$$Adam + Eve = 45 + 19 = 64 = 8 \times 8 = 8^2$$

$$Abraham = 248$$

$$Isaac = 208$$

$$Jacob = 182$$

$$Noah = 58$$

$$Rachel = 238$$

$$832/4 = 208$$

$$208/36 = 5.778$$

## CHAPTER 14 - THE 10<sup>TH</sup> GENERATION

### WHAT PART DOES NOAH (58) PLAY IN ALL THIS?

**T**he Great Flood, another significant historical/Biblical event probably dried up in the year 1658 and the numerical value for Noah (*Noach*) is 58. Noah was the 10<sup>th</sup> in the line of Adam, and to the sages that itself represented a completion, as they viewed the universe has having 10 concentric dimensions (*sefirot*, or spheres).

### The 16 Generations from Noah to Moses

And since Moses was the 26<sup>th</sup> in the line of Adam and 26 is the value of the Tetragrammaton, Moses represented yet another completion in said lineage. Between the two completion points there are 16, or (2 x 8), forefathers, who comprise the line of Adam from Noah through Moses, and of them 9 have birth and/or death dates in years ending in 8: Shem, Noah's son, was born in 1558 and died in 2158; followed by Arpachshad, who was born in 1658 and lived 438 years; then there was Terach and the three Patriarchs, Abraham, Isaac, and Jacob; and then Kenath, 24<sup>th</sup> in the line of Adam, who died in 2348; and Amram, Moses' father, who died in 2398; and finally Moses, 26<sup>th</sup> in the lineage, who was born in 2368 and passed away in 2488.

**Other Biblical Dates Ending in 8**

There are many other significant Biblical dates that adhere to this pattern: Sarah, the Matriarch, was born in 1958 HC; Abraham and Ishmael were circumcised in 2048 HC; Sodom and Gomorrah were destroyed in 2048; the Binding of Isaac took place in 2084, the same year that Sarah died, and both 2048 and 2084 are permutations of 2480, as is 0248, the numerical value of Abraham; Esau was born in 2108; and 1000 years after the Egyptian exile ended in 2448, Ezra, the Scribe, the man who led the Jews out of the Babylonian exile and initiated the building of the Second Temple, died in 3448.

### 1600 Years Later, King Solomon was Born

And King Solomon, son of King David and the greatest of all Israeli Kings, and the one who actually built the First Temple after his father had laid the groundwork for it, was born in 848 BC, when he was 16 years old. The number 848 is not only exactly 1600 less than 2448, the year of the exodus and the giving of the Torah, but it is also twice 424, the numerical value of *Mashiach Ben David*, the Messiah, Son of David.

### 666, Solomon and Ezra

We should also mention that the number 666 is mentioned only 3 times in the Hebrew Bible. In Ezra 2:13, and in 1 Kings 10:14 and 1 Chronicles 9:13. In the later two citations it refers to the 666 talents of gold raised annually for King Solomon. And  $3 \times 666 = 1998$ . And while 1998 is 20 years before the year 2018, it's 50 years, exactly one jubilee year after 1948 when Israel received Statehood. It's also when I first learned of the Divine Calendar and the date of the Final Redemption in 5778. And the jubilee connection is not to be dismissed, as  $50 \times 66.6 = 3330$  and  $3330 + 2448 = 5778$ .

### *THE 14 GENERATIONS FROM ABRAHAM TO DAVID ON THE WAY TO MASHIACH*

And while the numerical value of the name David is 14, there are 14 direct generations in the lineage from Abraham to King David. As the Christian Bible makes note, the 14 generations from Abraham to David is 1/3 of 42.

## The Torah's Secret About Noah

Now Noah ,or *Noach* in Hebrew, whose numerical value is **58**, is interesting because the first verse in the Torah's <sup>14</sup>second portion, which is aptly titled *Noach*, starts with an **8**-word, **26**-letter phrase that says "These are the generations of *Noach*, *Noach* was a righteous man [צַדִּיק *tzaddik*], was complete."

## The Timing Within the Final Calendar Year

The numerical value of this phrase is **2017**, as in the start of the Hebrew year **5778**. Since the Hebrew and Western calendars aren't aligned, the Hebrew one being a self-correcting cyclical lunar one and the Western Calendar being a solar one, they overlap with the start of the Hebrew calendar beginning in Sept/Oct. It's odd though if you think about it because **October** is the 10<sup>th</sup> Gregorian month, yet the **8<sup>th</sup>** Hebrew month always begins in it and Oct is Latin for **8**. The same holds true for November and the **9<sup>th</sup>** Hebrew month and December and the **10<sup>th</sup>** Hebrew month. The reason for this is probably because the Roman calendar originally began in the Hebrew month of Nissan, more or less March, the same as the Hebrew Calendar astrologically speaking. In 153 BCE the start of the Roman calendar was arbitrarily moved to January 1<sup>st</sup> to allow the Roman Consuls time for elections.

The astrological energy cycle, as first delineated by Abraham, the Father of Astrology, in his *Sefer Yetzirah*, the Book of Formations, begins each year in the March/April period, yet the official start of Hebrew calendar was aligned with the energy present on Rosh Hashanah at the beginning of the 7<sup>th</sup> Hebrew Month (in September). It is partially because of this that some of the sages say *Mashiach* will arrive in the **8<sup>th</sup>** month, once again introducing the concept of **8** being spiritual, being 1 above the physicality of the cycle of **7**, which is not

---

<sup>14</sup> The Torah is read on every Saturday's (Shabbat) service. Each week a different portion is read so every year, on the eight day of Sukkoth the last portion of the Torah is read and then immediately they roll back the scroll to the beginning to read the first part of the first portion of the Torah, Genesis 1. The reason is to create continuation and close the circle. (Connect to the divine Pi). If they stop at the end of the Torah scroll it is like making a line that has beginning and end.

dissimilar from the musical term of going up and **octave** versus the **7** musical notes. And note that light is broken down into the **7** colors of the spectrum.

So it's entirely possible that the final redemption happens in the end of **2017**. Indeed, the 6<sup>th</sup> word in the Torah and also the 2<sup>nd</sup> most numerous word in the Torah is *V'Et*. It appears **828** times and has a numerical value of 407. The square root of 407 is **20.17424**. We already know that the technology of connecting to *Mashiach* through this word is hardwired throughout the Torah and that every time this word comes up in the weekly Torah readings we can make that specific connection. And we also already know that, as discussed in *The Genesis Prayer*, the total occurrences of the Torah's 4<sup>th</sup> word and its most numerous word, *Et*, taken together with its 2<sup>nd</sup> most numerous word, *V'Et*, is **3450**, or **10** times the numerical value of Moses, **345**, and that that's no coincidence either.

Nevertheless, alternatively **2017** could signify exactly **5778** if the <sup>15</sup>*kolel* (1) is added to it to make **2018**, as is common and standard practice in gematria.

### Back to The Torah's Secret About Noah

It's been noted by many of the greatest sages that the Torah has **70** faces of hidden meanings, and one of the methods utilized by those sages to interpret the hidden meanings is to look at the first letters in a particular verse and see if they form a particular acronym, or if their combined numerical value is telling in some way. In this particular **8**-word phrase the sum of the numerical values of the first letters of each of the **8** words is exactly **1000**, which to the kabbalistic sages represented the total completion of the **10** sefirot, as it's **10 x 10 x 10**, or **10<sup>3</sup>**. In their **10** dimensional structure of the universe, each of the **10** dimensions has **10** sub-dimensions and each of those **10** more sub-dimension. Moreover, they call the level of **1000**, כתר *Keter*, the crowning dimension closest to G-d.

This makes perfect sense since *Noach* was the **10<sup>th</sup>** in the line of Adam, and indeed the whole lineage of Adam pivots on his existence, seeing as everyone else was destroyed—at least metaphorically. One final allusion hidden in this

---

<sup>15</sup> Kolel – Hebrew. כולל, the one that hold the rest in it.

phrase ties *Noach* to Moses in that the Torah makes a point of telling us that Moses prayed to G-d **515** times to be allowed to enter the land of Israel, which according to the sages would have brought about the final redemption right then and there, and as it happens, the words in the above quoted *Noach* verse “righteous man” have the numerical value of **515**.

So not only does *Noach*, through whom Biblically life began anew, have a numerical value of **58**, so reminiscent of the numerical value of the word *Mashiach*, **358**, but **58** is a key Torah construct, which we’ll touch upon below and into which we delve into in great length in other papers.

Moreover, the year **5778** begins and ends with **5** and **8**, with <sup>16</sup>**77**, the value of the word for “מזל” *Mazal* (luck/fortune) sandwiched in between. This might be meaningless, accept, as we discuss in yet another paper, the first **8** words of the Torah have a combined numerical value of 3003, which is equivalent to the sum of all the positive integers through **77** (i.e. **77**+76+75+74...) and is also the **77<sup>th</sup>** triangular number. There are furthermore, while there are precisely **77** word values utilized in the Torah only once, there are exactly **77** consecutive duplicated words in the Torah. One of those duplicated words is “*Noach Noach*,” found in the center of the verse we’re discussing.

What does this mean? Probably that *Noach* was an early incarnation of the Messiah? Or not? At any rate, it’s another piece in the puzzle. Likewise Moses, which is why we can connect to both Moses and the *Mashiach* every time we read/hear *V’et* in the Torah.

---

<sup>16</sup> We find connection to 77 and the Flood (Noach) in Psalms 29, which talks about 7 voices of G-d (קול) and ends with 2 verses relates to the future.

29:10 “יְהוָה, לַמְּבֹול יָשָׁב; וַיֵּשֶׁב יְהוָה, מֶלֶךְ לְעוֹלָם” “The LORD sat enthroned at the flood; yea, the LORD **sitteth** as King for ever”. Then

29:11. יְהוָה--עֲזָרָה לְעַמּוֹ יִתֵּן; יְהוָה, יְבַרֵךְ אֶת-עַמּוֹ בְּשָׁלוֹם.  
“The LORD will give strength (=עז=77) unto His people; the LORD will bless his people with peace (=שלום=376 and 376 x 10 = 3760 = year 0. 3760 years from 1948 HC to 1948CE, the year that begins the 70 years process to 5778).”

## CHAPTER 15 - KING DAVID, 8<sup>TH</sup> SON OF JESSE

### *HOW DO THE 3 HOLIDAYS OF 8 DAYS DURATION FIT IN?*

**O**ther critical events that are specified in the Bible and in history that are connected to the number **8** include Chanukah, where the light of miracles lasts for **8** days, as do the annual holidays of Passover and Sukkoth, which also last for **8** days. The sages describe these cosmic events as not so much as celebrations of bygone traditions, but as very specific and real annual cosmic windows of opportunity. In other words, their annual reoccurrence at specific times of year and their **8**-day duration is mandated by the structure of the universe and not as a remembrance of Biblical events. And so too it might have been with the birth of King David in **2854**, when he was the **8<sup>th</sup>** son of Jesse, which is of further significance because according to the sages the Messiah must be in the line of David and is known as *Mashiach Ben David*, the "Messiah, Son of David."

Yet again, King David, most beloved of all the Israeli Kings and Biblical personalities for his pureness and humility, has to pass through the cycle of **7**, had to be the **8<sup>th</sup>** son, to shed the negativity and connect directly with the Spiritual realm. Perhaps this is why he lived **70** years. For in the **8<sup>th</sup>** decade after his fortuitous birth, David's son, King Solomon built the First Temple at the young age of **16**.

### *THE 8 DAYS AND 666*

That there are **3** ancient holiday periods of **8**-day durations may be analogous to the **8 x 3** words that the Torah is shy of a perfect **80,000**. There are exactly **79,976** words in the Torah, which is equivalent to **24** or **8 x 3** words less than **80,000**.

That is speculation, but it may be meaningful since the collective **24** days of the **3** holidays in relation to the entire year are equivalent to **24/365** or extremely close to **6.66%** of the calendar year. This holds true for both the Hebrew lunar and the Western solar year, off by only **8** hours over the full **24**-day period from a perfect **6.66%**.

## Chapter Summary

### 3 Holidays of 8 Days

Chanukah = 8 days

Passover = 8 days

Sukkoth = 8 days

3 Holidays = 24 days

There are 79,976 words in the Torah

$$80,000 - 79,976 = 24$$

$$24 = 3 \times 8$$

$$24 = .03\% \times 80,000.$$

80,000 - .03% = words in the Torah

$$24/365 = .065753 = \text{approx } 6.66\%$$

## CHAPTER 16 - HOW DOES EIGHT (8) TIE INTO 5778

**E**ven the **430** years of exile that the Torah made a distinct point of telling us about is equivalent to **422 + 8**, and since **422** is the numerical value for the word שבועים “seventy” then the equation **430 = “422” + 8** can be construed as **70 + 8** or **78**. The great sage, the *Arizal*, explained that **78** is **3 x 26**, and while **26** represents the Tetragrammaton, **3** always represents balance, as in the **3**-column structure of the Tree-of-Life (a code word for the arrangement of the **10** dimensions). It’s the very same structure as our everyday physics, as evidenced by the electron, proton, and neutron arrangement in the atoms. Moreover, the *Arizal* goes on to explain that **78** is the numerical value for the Aramaic word מזל *mazal*, (fortune or fortuitous destiny), and as is obvious, it’s also integral to the year **5778**.

Moreover, when we take the year predicted for the arrival of the Messiah **5778** and subtract **3338**, the year of the destruction of the First Temple, we get **5778 - 3338 = 3330** years, which is not only equivalent to **66.6** jubilee years (**50** year intervals as defined by the Torah), but we also see that **3338 - 3330 = 8** years.

And since the square root of **3330** is **57.70** and the square root of **3338** is **57.78**, the difference between their square roots (**57.78 - 57.70**) is once again: **.08**

**Chapter Summary**

$$5778 - 3338 = 3330 \text{ years}$$

$$3330 \text{ years} = 66.6 \text{ jubilee years (50 year intervals)}$$

$$3338 - 3330 = 8 \text{ years}$$

$$\sqrt{3338} = 57.78$$

$$\sqrt{3330} = 57.70$$

$$57.78 - 57.70 = 08.$$

## CHAPTER 17 – HOW IS THE ENTIRE TORAH CONSTRUCTED AROUND 58?

### AARON AND THE MESSIAH

**T**he name Aaron, as in Moses' brother Aaron, has a numerical value of **256**, which is the same as "הארון" "The Ark of the Covenant," and also as the Name of the 5<sup>th</sup> of the 5 Books of Moses, דברים *Devarim* (Deuteronomy.) And in simple mathematical notation it is also  $2^8$ , or 2 raised to the power of **8**. But if you think this latest connection to **8** is a stretch, consider this, as explained in detail in *The Genesis Prayer*, the collective total number of words, verses, and letters (the **3** principal elements) in the Torah (the 5 Books of Moses) add up to exactly  $5^8$ , or 5 raised to the power of **8**. Moreover,  $5^8$  when written as number is **390,625**, and the inverse of 390,625 or  $1/390625$ , times  $10^8 = 2^8$ , or **256**, which brings us back to Aaron and the "The Ark of the Covenant." And note, as we discuss in yet another paper, the only times the word for Messiah, משיח *Mashiach*, appears in the Torah is in conjunction with Aaron, the High Priest.

### THE EVER ASTONISHING TORAH

Through mathematics, Number Theory, and gematria we can combine ancient and modern wisdom to reveal even more about this divine schematic taking form for us. When we look at the number **390,625**, we can see the numerical string **390** followed by **625**. As it turns out **390** is the numerical value for Heaven (שמים *Shamayim*), the 5<sup>th</sup> word in the Torah, and **625** is the numerical value for "The Crown" (הכתר *H'Keter*), associated with the highest dimension, the one closest to divinity.

And considering the relevancy of connecting **5** and **8** together it's perhaps more beautiful and significant that the square root of  $5^8$  (the sum of all the words, verses, and letters in the Torah) is also **625**, and that the number **.625** in fractional form is  $5/8$ .

Take a moment to let that sink in.

The Torah is the size of a small novel, hand scribed in a most exhausting manner that takes an experienced scribe a year and a half to write and a single slip or mistake invalidates the entire Torah. Think about that. Think about the utter perfection in keeping track of 400,000 separate elements and making them all line up. Think about that when we add the various gematria ciphers, whoever conceived the Torah had to keep track, manage and manipulate of over a million separate elements and make them line up precisely to tell a story on multiple levels and to convey hidden, concise and repetitive messages for us one day to find. Think how those million plus elements are all invisibly wired together like a computer chip by a technology that we're only beginning to grasp.

Who could have done that back then? Who, now? Who else could have done it? Then, as you'll see when you read *There's Nothing Random About the Universe*, who could have tied it into the primordial constants and manipulated them as well?

*WHAT DO THE 5845 VERSES AND 670 PARAGRAPHS OF THE TORAH HAVE TO DO WITH UNDERSTANDING?*

Furthermore, the number of verses in the Torah is **5845**, **58** being the value of Noah and **45** of Adam, the **10<sup>th</sup>** and **1<sup>st</sup>** generations in the line of Man. And **5845/8 = 730.625**. And what was **73**? **The total number of generations from Adam to Mashiach in 5778**. And what is **73** the numerical value of? **Wisdom**. And what is **.625**? **5/8**

And something that we haven't yet explained. The number **73** is the numerical value of the 9<sup>th</sup> *sefira* (dimension) of *Chochma* (Wisdom). The 8<sup>th</sup> *sefira* (dimension) is called *Binah* (Understanding) and the numerical value of *Binah* is **67**. Remember when we said that the 27 Hebrew Letters can be broken down into their constituent parts and the total of the alphabet then expands to **50**. Well the **8<sup>th</sup>** letter in the Hebrew Alphabet has the value **8** and is called *Chet* (ח) and when written properly it's comprised of narrowly bridging a letter *vav* (ו) with a letter *tzion* (צ). Since the letter *vav* has the numerical value of **6** and the letter *tzion* has the numerical value of **7**, the small gematria spelled out by the two of them together is **67**, the same as *Binah*, the **8<sup>th</sup>** dimension. And in keeping with the beautiful symmetry with which the Torah was designed those **5845** verses are divided into **670** paragraphs, yet another allusion to *Binah* (Understanding).

There is so much more here with just the **5845** verse; we're only scratching the surface, but since the concept is very important we'll say one more thing about the letter *Chet* (ח) of both numerical and ordinal value **8**. By the way the ordinal value of a number is nothing more than its position within the alphabet. According to the sages, the important thing to note is that whenever we sever our negativity whether it's over the **8** day holiday periods, at a *Brit mila*, or whenever we choose to, we are circumcising that narrow bridge in the *Chet* (ח) and creating a *Hey* (ה), which for reasons too deep to go into here, connects us to *Binah* and the spiritual realm automatically<sup>17</sup>. This is interesting because the letter *Hey* (ה) has a numerical value of **5** and because of all the connections we've just seen linking the **5** and the **8** together.

Keep in mind that the letters are all about energy and the sages refer to them as black fire written in white fire. They don't see them as simple words on a page and it's becoming obvious that we shouldn't wither.

Keep in mind that the Torah was hand-scribed on vellum 3300 years ago without computers, calculators, or pads and pens, so no matter whether one believes it to be divinely composed, inspired, or created by aliens, whoever did it had to have far superior computational and compositional powers than man even today. If you think there is anything simple about all this imbedded technology, try to compose a 3-page paper keeping track of all the myriad elements and the numerical value of each letter and word without a word processor, computer or word counting software, let alone one purposefully written on a scroll **248** columns long by **42** rows deep on **80** pieces of vellum.

And finally, let's not forget for what it's worth that **5778** is the **58<sup>th</sup>** century.

---

<sup>17</sup> For all the observant Jews who might be reading this, according to the Ari Hakodesh this is the process of severing the negativity in the *chametz* (which begins with *chet*) and connecting to *Matza* (which is spelled the same except with a *hey*) during the 8 days of *Pesach*.

The though this is just simple math, it's still pretty cool:

$$5/7 \times 7/8 = .625 = 5/8$$

### Chapter Summary

Aaron = 256

הארון, "The Ark of the Covenant" = 256

דברים, Devarim (Deuteronomy) = 256

$$256 = 2^8$$

The words, verses, and letters = the 3 principal elements in the Torah

The Torah = The 5 Books of Moses

The words, verses, and letters =  $5^8$

משיח, Mashiach = 358

$$5^8 = 390,625$$

$$1/390625 \times 10^8 = 2^8$$

$$2^8 = 256$$

390 = Heaven, שמים (*Shamayim*)

Heaven (*Shamayim*) = 5<sup>th</sup> Word in the Torah

625 = "The Crown" הכתר (*H'Keter*),

$$\sqrt{5^8} = 625$$

$$.625 = 5/8.$$

The number of verses in the Torah = 5845.

$$5845/8 = 730.625$$

73 = Chochma/Wisdom

5778 is the 58<sup>th</sup> century

$$5/7 \times 7/8 = .625 = 5/8$$

## CHAPTER 18 - NEGATIVE SPACE

### *WHAT'S THE RELATIONSHIP BETWEEN THE TETRAGRAMMATON AND 5778?*

The Tetragrammaton is more than just a Name of G-d; it's a huge technological device that we don't know how to use. No offense to the guys in the Geico commercials, but it's like giving a super computer to a caveman. He's got no idea how to use it, turn it on, plug it in, nor even a live socket to plug it into. Of course, we don't have to go that far back, even 100 years would do. We've made great strides technologically speaking in the past hundred years and especially in the past few decades. But still, if you're super commuter didn't have Windows, or a laymen's manual how many of us would know what to do with it? And even then, would we really get the most of it? It's the same with the Tetragrammaton and the more accessible 42-Letter Name. That's why we need the sages to show us what to do?

The Tetragrammaton has a numerical value of **26**, and if we divide the year predicted for the arrival of *Mashiach* by **26**, in essence by the Name of G-d, we get  $(5778/26) = 222.2^+$ , and for what it's worth  $(8000 - 5778) = 2222$ , and of course,  $2+2+2+2= 8$

The oft predicted 6<sup>th</sup> millennium equals 6000 yrs and  $(6000 - 222) = 5778$ , and  $2 \times 2 \times 2 = 8$ . And for what it's worth,  $222 = 666/3$  or  $666 \times .333$

And consequently  $(5778/22) = 262.6^+$ , establishing at least a mathematical relationship between the **22** letters of the Hebrew Alphabet and the Tetragrammaton of numerical

### *WHAT IS WHITE FIRE?*

It's said that the Torah is black fire written on white fire and in that white fire are the secrets. Moreover, there is a tradition within ancient Kabbalah gematria, modern Number Theory, and also the art world to value and examine not only positive space but the negative space around it as well, thus **222** is the negative spatial value of **5778** within the framework of the **6** millennia (6000), and likewise the year **5778** within the framework of **10,000** years is  $10,000 - 5778 = 4222$ , yielding us a number quite reminiscent of the value of the word

“seventy” (422). And through this same methodology we also see that **6666 – 5778 = 888**, the luckiest of all numbers in Chinese numerology. As we discuss in *The Genesis Prayer*, the meditative 42-letter Name Matrix can be divided into 3 columns, or 3 pairings of 2 per line for its full 7 lines. And the sum of the numerical values of 14 letters of the right column is **888**.

אב	גי	תן
קר	עש	טן
נג	די	כש
בט	רצ	תג
חק	בט	נע
יג	לפ	זק
שק	וצ	ית

*WHAT IS THE SECRET OF THE WHITE FIRE?*

And following this tradition, we also see that **8000 – 3760 = 4240**, or **10** times the numerical value of *Mashiach Ben David* (424), which is obviously significant because the year **3760** is the year the entire Western Calendar hinges on. And it thus follows that **800 – 376**, the value of Esau, of peace, and of completion is **424** as well, meaning that like all the examples above, **424** is the complimentary number to **376** with respect to **800** and thus to **8**, which can be represented as **8.00**.

**Chapter Summary**

The Tetragrammaton = <b>26</b>
New era of divine peace to begin = <b>5778</b>
<b>(5778/22) = 262.6+</b>

$$5778/26 = 222.2^+$$

$$8000 - 5778 = 2222$$

$$2+2+2+2=8$$

6<sup>th</sup> millennium = 6000 yrs

$$6000 - 222 = 5778$$

$$2 \times 2 \times 2 = 8.$$

$$222 = 666/3 \text{ or } 666 \times .333$$

$$10,000 - 5778 = 4222$$

The word seventy, שבעים = 422

$$6666 - 5778 = 888$$

The Pivotal Year "0" = 3760 HC

$$8000 - 3760 = 4240$$

$$4240 = 10 \times 424$$

משיח־בן־דוד, *Mashiach Ben David* = 424

$$800 - 376 = 424$$

## CHAPTER 19 - WHY 8?

**M**athematicians will tell you that when you turn the number **8** on its side you get the symbol for infinity, but the *tzaddikim* (ancient sages) have always spoken about the mystical meaning of the **8** Biblical Kings of Edom in terms of the global *tikkun*<sup>18</sup>(correction) and that they represented all the fallen holy sparks of the primordial universe, which need to be recaptured and rectified in order to bring about the final redemption. Indeed, the entire reason for the 4 periods of exile was to capture those sparks that had been scattered throughout the planet and metaphysically bring them back to the Holy Land and to holiness.

Why **8**? Why was there a period of exactly **880** years from Abraham's birth to the building of the First Temple by King Solomon? Why does the Torah have exactly (**80,000** – 3 x **8**) words in it? Why does the number of words, letters, and verses in the Torah add up to exactly 5<sup>8</sup>? Why do Chanukah, Sukkoth, and Passover have to last for **8** days? And why are there only **31** times in which the number **8** is utilized in the whole Torah, with **31** being the numerical value for the Name *El*, G-d, and **8** x **31** being **248**, the numerical value for Abraham, and for the Book of Numbers?

And why is it that when we subtract, **422**, the value of the word seventy (**70**), from that first Biblical clue, the **430** years of exile, we get **430** – **422** = **8**.

## CHAPTER 20 - ARE THEY ANY DIVINE COINCIDENCES THAT CAN BLOW OUR MINDS?

---

<sup>18</sup> Tikkun – Heb. תיקון – The kabbalistic term for the process of correcting the soul on individual levels, generation level and for all generations from Adam to Mashiach. The world was created “flawed” so we can work to correct it and be creators like G-d. Read more [here](#).

**N**ow, the existence of all these divine interrelated dates is extraordinary, but the divine coincidence of how they further interrelate is astounding! Mind-blowing!

As stated earlier, the ratio given by the year the Torah was given to us divided by the year **5778**, or  $(2448/5778) = .424$ , which is the numerical value of *Mashiach Ben David*, the Messiah, and that's pretty telling in and of itself, but the dual juxtaposed Biblical/Historic calendars reveal even more synergies.

	Terach born	Abraham Born	God's. Covenant and	Exodus/ Torah given	First temple Built	First temple Destroyed	Second Temple Built	Gregorian Calendar	Second Temple	Israel receives Statehood	Divine Peace Date
HC	1878	1948	2018	2448	<b>2928</b>	3338	3408	3760	3830	5708	5778
GC		- 1812	- 1742	- <b>1312</b>	-832	-422	-352	0	70	1948	2018

$$1312 + 2928 = 4240$$

For example, when we take that same year as above, but instead utilize its Gregorian calendar equivalent, or **1312** BCE, and then add that with the following significant *Hebrew* date in our divine calendar list, **2928** HC, which is the date the First Temple was built, we get  $(1312 + 2928) = 4240$ , or **10** times **424**.

To the ancient sages an equation like this indicates the presence of the Messiah in all **10 sefirot** (the kabalistic and also quantum physical dimensions). It's also pretty weird, wild even, you have to admit.

It's very important to note that this isn't some illusionary math game; these are fixed historical dates following Talmudic traditions and fixed numerical values of established Biblical phrases that by all right should not be mathematically related in any way whatsoever.

THE DIVINE CALENDAR

	Terach born	Abraham Born	God's. Covenant and	Exodus/Torah given	First Temple Built	First Temple Destroyed	Second Temple Built	Gregorian Calendar	Second Temple	Israel receives Statehood	Divine Peace Date
HC	1878	1948	2018	2448	2928	3338	<b>3408</b>	3760	3830	5708	5778
GC		- 1812	- 1742	- 1312	<b>-832</b>	-422	-352	0	70	1948	2018

$$832 + 3408 = 4240$$

One equation is coincidence, two extraordinary and a little scary, but the list goes on, and on. For example, continuing in the same fashion along our Divine time line, we can take that the same year the First Temple was built, but this time in the Gregorian calendar, **832** BCE, and this time sum it with the Hebrew year that the Second Temple was built, **3408** HC, to get **(832 + 3408) = 4240**, once again **10** times **424**, and once again indicating the presence of the Messiah in all **10 sefirot** dimensions).

	Terach born	Abraham Born	God's. Covenant	Exodus/Torah Given	First Temple Built	First Temple Destroyed	Second Temple Built	Gregorian Calendar	Second Temple	Israel receives Statehood	Divine Peace Date
HC	1878	1948	2018	<b>2448</b>	2928	3338	3408	3760	3830	5708	5778
GC		- 1812	- <b>1742</b>	- 1312	-832	-422	-352	0	70	1948	2018

$$1742 + 2448 + 50 = 4240$$

**50 = 1 Jubilee Year (the *kolel*)**

Yet another seemingly divine equation derived from the calendars and using the same methodology above is found by taking the Gregorian date for the Covenant of Abraham, **1742 BCE**, with the following significant Hebrew date in our divine list, **2448**, the date of the Exodus and the giving of the Torah, and then add the **50** jubilee years that are used to count down the time to the arrival of the Messiah, and we get **(1742 + 2448 + 50) = 4240**, once again **10** times **424**, indicating the presence of the Messiah in all **10 sefirot** (dimensions).

And speaking of **10**, there was exactly **10** jubilee years between the birth of Abraham in **1948** and the end of the first exile in **2448**, or in mathematical terms, **(2448 - 1948) = 500 = exactly 10 Jubilee years**.

	Terach born	Abraham Born	God's Covenant and	Exodus/Torah given	First Temple Built	First Temple Destroyed	Second Temple Built	Gregorian Calendar	Second Temple	Israel receives Statehood	Divine Peace Date
HC	1878	1948	<b>2018</b>	2448	2928	3338	3408	3760	3830	5708	5778
GC		- 1812	- 1742	- <b>1312</b>	-832	-422	-352	0	70	1948	2018

**1312 + 2018 = 3330**

**66.6 x 50 = 3330**

**2448 + 3330 = 5778**

And just in case we were to think that the adding of the jubilee year was a stretch, we should note that when we add the Gregorian year for the Exodus, **1312 BCE** with the prior significant date in the Hebrew calendar, the date that the exile began, **2018**, we get **(1312 + 2018) = 3330**, which, as we've shown above is **66.6 x 50**, or **66.6** jubilee years. And when we add the **3330** years to the Hebrew Calendar Year equivalent to **1312 BCE**, we get **(2448 + 3330) = 5778**.

THE DIVINE CALENDAR

Moreover, since 2018 is the Gregorian Equivalent to 5778 it doesn't seem so coincidental that the year 2018 = (666 x 3 + 6.66 x 3). So is it a coincidence?

	Terach born	Abraham Born	God's. Covenant and	Exodus/Torah given	First Temple Built	First Temple Destroyed	Second Temple Built	Gregorian Calendar	Second Temple	Israel receives Statehood	Divine Peace Date
HC	1878	1948	2018	2448	2928	3338	3408	3760	3830	5708	5778
GC		-1812	-1742	-1312	-832	-422	-352	0	70	1948	2018

**422 + 3408 = 3830**

Of course, this strange phenomenon that occurs when we add the subsequent divine dates in the alternating calendars doesn't stop there. Yet another divine coincidence occurs when we take the year of the First Temple was destroyed in the Gregorian calendar, 422 BCE, and add it to the following significant Hebrew date in our divine list, 3408 HC, the date the Second Temple was built, to get (422 + 3408) = 3830, the Hebrew year the Second Temple was destroyed.

	Terach born	Abraham Born	God's. Covenant and	Exodus/Torah given	First Temple Built	First Temple Destroyed	Second Temple Built	Gregorian Calendar	Second Temple	Israel receives Statehood	Divine Peace Date
HC	1878	1948	2018	2448	2928	3338	3408	3760	3830	5708	5778
GC		-1812	-1742	-1312	-832	-422	-352	0	70	1948	2018

**1812 + 2018 = 3830**

## THE DIVINE CALENDAR

---

Then amazingly this same phenomenon continues when we take the year Abraham was born in the Gregorian calendar, **1812 BCE**, and add it to the following significant Hebrew date in our divine list, **2018 HC**, which is the year of the Covenant, to get **(1812 + 2018) = 3830**, which is yet again the year Second Temple was destroyed in the Hebrew Calendar.

	Terach born	Abraham Born	God's Covenant and	Exodus/Torah given	First Temple Built	First Temple Destroyed	Second Temple Built	Gregorian Calendar	Second Temple	Israel receives Statehood	Divine Peace Date
HC	1878	1948	2018	2448	2928	3338	3408	3760	<b>3830</b>	5708	5778
GC		-1812	-1742	-1312	-832	-422	-352	0	70	<b>1948</b>	2018

$$3830 + 1948 = 5778$$

And then when we take the Hebrew year for the destruction of the Second Temple, **3830 HC**, and add it to the next significant divine date in the Gregorian calendar, **1948**, the Year Israel received Statehood, we get **(3830 + 1948) = 5778**, the calculated date for the final redemption.

	Terach born	Abraham Born	God's Covenant and	Exodus/Torah given	First Temple Built	First Temple Destroyed	Second Temple Built	Gregorian Calendar	Second Temple	Israel receives Statehood	Divine Peace Date
HC	1878	1948	2018	2448	2928	3338	3408	3760	3820	<b>5708</b>	5778
GC		-1812	-1742	-1312	-832	-422	-352	0	<b>70</b>	1948	2018

$$70 + 5708 = 5778$$

## THE DIVINE CALENDAR

---

And so as would appear obvious by now, the fact that Israel became a nation **70** years before **5778** adheres to this same phenomenal pattern as all the other divine dates. When we take the date of the destruction of the Second Temple, **70** CE, and add it to the next significant divine date in the Hebrew calendar, **5708**, the year Israel received statehood, we get **(70 + 5708) = 5778**, the year predicted for the arrival of the Messiah and the end of the final exile, the final redemption.

	Terach born	Abraham Born	God's Covenant and	Exodus/Torah given	First Temple Built	First Temple Destroyed	Second Temple Built	Gregorian Calendar	Second Temple	Israel receives Statehood	Divine Peace Date
HC	1878	1948	<b>2018</b>	2448	2928	3338	3408	3760	3830	5708	5778
GC		<b>-1812</b>	-1742	-1312	-832	-422	-352	0	70	1948	2018

$$1882 + 1948 = 3830$$

And one final dating match-up that conforms to this divine pattern is found when we take the date Terach, Abraham's father, was born in the Gregorian calendar, **1882** BCE and add it with the next significant divine date in the Hebrew calendar, **1948**, the date of Abraham's birth, to get **(1882 + 1948) = 3830**, the year the Second Temple was destroyed, yet again.

Could these all be coincidental? Mathematicians can answer that and the answer is NO. Given the inflexibility in choosing these dates for the divine calendar and their relationship to one another in Biblical meaning and Historical context, this phenomenon is statistically **impossible**.

One similar match-up occurs when we add the date Moses was born **1392** BCE with the date King **David** was born, **2854** HC, and get **(1392 + 2854) = 4246**. We might be inclined to think that adding the **6** years to the exact figure of **4240**, which we've gotten in several of the previous equations was pushing it, but then again, Abraham died in the year **2123** HC and **2123** is exactly one half of **4246**. In other words, **2 x 2123 = 4246**, so while we can't pretend to understand everything, there *are* reasons for things working out the way they do.

Through this one equation, Abraham, Moses and David are all connected; Moses' birth date, David's birth date, and the date of Abraham's passing. And their 3 initials are *Alef, Dalet, Mem*, which in Hebrew spells **ADAM**. Go figure!

One of the major tenets of spirituality as explained fully in *The Genesis Prayer* is that of letting go, letting go of the idea that everything needs an explanation, that we can find one in our physical world. When we accept that we can't control the universe the universe stops trying to show us that. The more we can let go the more miracles and divinity we'll see in the world around us.

## CHAPTER 21 - KING DAVID AND THE MESSIAH

### IT'S A VERY DIVINE PLAN. KING DAVID'S BIRTH MARKS ISRAEL'S STATEHOOD

**T**he year when Israel was declared a State, **5708** HC, is exactly twice, the year that King **David** was born, or **2 x 2854** HC, and of course, King David is the David referred to in the title, *Mashiach Ben David*. Pause. With so many dates being hurled at you at the speed of the cosmos, it's easy to miss very significant events and to pass them off casually. What we're saying here is that the birth of King David marked the absolute midpoint from Adam (Creation) to the founding of the State of Israel, which only happened as a result of WW II, the Holocaust, guerilla warfare, a few peoples dynamic personas, and a reluctant vote in spite of vehement Arab opposition by a fledgling United Nations. The Nation whose Flag carries the *Magen David*, the shield of David, officially became a state after thousands of years, on a date precisely double King David's birth year.

### KING DAVID'S BIRTH MARKS ISRAEL'S STATEHOOD AND ABRAHAM'S BIRTH

Now, since these two dates aren't linked in any way except divinely, how astonishing is it that **2854** HC is equivalent to **906** BCE and that **2854 - 906 = 1948**, the year Israel became a State in the Gregorian calendar. Let's pause again. Adding those two dates gives us **3760**; that happens automatically. There's no magic there. Once **3760** HC was chose as year "0" or "1" the math will work like that for all the juxtaposed BCE dates. But subtracting them as we've just done; there's no reason whatsoever that they should equate to anything other than pure chance. Now if we'd listed 200 different significant dates on our divine calendar then there would be a 1 in 20 chance of hitting one of them, but we didn't. We only listed around 10 significant dates in total. And since the date **1948** was not only the year that Abraham was born in the Hebrew Calendar, but the matching Gregorian date to the one we'd just revealed in the equation just before it, the date Israel became a nation, the odds of this happening naturally are staggering. And the chance of any group of men organizing history to fall out this way is nil. There is only way this could happen.

And if all this isn't sufficiently extraordinary, we must also consider that the year **-906 BCE** is exactly half of **-1812 BCE**, which once again is the year Abraham was born, but this time in the Gregorian calendar.

**King David was born in 2854 HC**

$$2 \times 2854 \text{ HC} = 5708 \text{ HC}$$

**Israel Received Statehood in 5708 HC**

$$5708 \text{ HC} = 1948 \text{ CE}$$

$$2854 \text{ HC} = 906 \text{ BCE}$$

$$2854 - 906 = 1948$$

$$2 \times 906 \text{ BCE} = 1812 \text{ BCE}$$

$$1812 \text{ BCE} = 1948 \text{ BCE}$$

**Abraham was born in 1948 BCE**

### KING DAVID'S BIRTH AND THE 42 LETTER NAME

So it's probably not a coincidence that **906** is the value of the seventh and final **6** letter sequence "שק־צִיִת" of the **42**-letter Name of G-d, the line which according to the sages is specifically associated with <sup>19</sup>**David**.

Since, according to the sages of blessed memory, the **42**-Letter Name (the *Ana B'koach*, also known as the Genesis Prayer) is a ladder to the spiritual world and its **7** lines connecting to and representing the **7** lower *sefirot* (dimensions), when we factor in their **10** sub-dimensions per line, we see that the **42**-Letter Name actually traverses **70** dimensions of time and space and spirit.

So taking all this into account, one may surely conclude that **David's** lifespan of **70** years and Abraham's age at the time of his Covenant with G-d, also **70** years, are both part of a divine plan in which **70** is added to either **5708** HC and/or **1948** CE to get the year **5778** HC or **2018** CE, respectively, the year that their mutual descendent is predicted to become the Messiah.

---

<sup>19</sup> David represent the 7<sup>th</sup> sefirah of Malchut.

### **King David's Life and Death Marked the Arrival of the Messiah**

Another very potent way of looking at this is that when we add the year King **David** was born, **2854**, with the year he died, **2924**, we get **2854 + 2924 = 5778**, meaning that the coming of the Messiah, *Mashiach Ben David*, is completely marked by the life of King **David** from start to finish, and moreover that it also marks the midpoint from Adam to the Messiah.

King **David** was born in **2854**

King **David** died in **2924**

$$2854 + 2924 = 5778$$

### **King David's Life and Death Marked the G-d's Covenant with Abraham**

And if all that isn't astonishing enough, the year King **David** was born, **906 BCE**, when added to **836 BCE**, the year he died, gives us **906 + 836 = 1742 BCE**, which is the year the first exile began, the year of the Covenant of Abraham, **2018 HC**.

King **David** was born in **906 BCE**

King **David** died in **836 BCE**

$$906 + 836 = 1742 \text{ BCE}$$

$$1742 \text{ BCE} = 2018 \text{ HC}$$

### **King David's Life and Death Marked the Destruction of the second Temple**

Furthermore, if we take **906 BCE**, the year King David was born in the Gregorian calendar, plus **2924**, the year he died in the Hebrew calendar, we get **906 + 2924 = 3830**, once and yet again the year the Second Temple was destroyed.

And this destruction marked the beginning of the final exile, which is supposed to last **1948** years, the same amount of time the world had to wait for Abraham to come into it.

King **David** was born in **906 BCE**

King **David** died in **2924 HC**

$$906 + 2924 = 3830 \text{ HC}$$

The Second Temple was Destroyed in **3830 HC**

King David's birth date of **2854** is telling for yet one more reason. The square root ( $\sqrt{2854}$ ) of **2854** is **53.42284156...** and while **53 x 8 = 424**, the numerical value of *Mashiach Ben David*; **422** is the numerical value of the **70** years David lived, etc; and **84** is the numerical value of "redemption"—also the union of the upper and lower **42**-Letter Names; and the number **156** reflects the numerical value of "Joseph," the Patriarch.

To be clear there's much speculation about when David was born, the First Temple was constructed, and about Solomon's reign. We chose to use Talmudic sources for our dates and to ignore the hundred other dates given by sources, whom to varying degrees aren't quite sure David even existed and which don't fit the facts of what we do know from the sages, the Talmud, the Mishna, and the Torah. If God had a plan, would he hide it in the carbon dating of a shard of pottery or in something a little more substantial?

Terach was an idol worshipper. Terach was King Nimrod's idol maker. Abraham was G-d chosen one from before his birth. Therefore G-d chose Abraham, the man who shattered the idols for all time, to be born unto Terach. Therefore G-d also chose Terach. We can learn two from this and from Terach, one the greatest good can come from anywhere, even the greatest idol worshipper. And two, since Terach protected his son from Nimrod, who killed 70,000 children in pursuit of Abraham, and since Terach eventually changed his idol-worshipping ways to Abraham's monotheistic ones, we see that anyone can.

We can further note from the numerical value of his name 608 in standard gematria and 428 in small gematria, that he too was marked to become part of the divine plan. The combination of 42 and 28 makes it pretty obvious by now. And like all the other divine dates, his birth year ends in 8: 1878.

And like the rest of the divine calendar, his birth date is fully integrated into the divine formula. We can see yet another spark of divinity when we subtract the date of the destruction of the Second Temple, 3830 HC, from the date Israel became a State, 5708 HC, and get (5708 - 3830) = 1878 HC the Year Terach, Abraham's father, was born.

TERACH AND THE YEAR OF 5778

There are **3900** hundred years from Terach's birth in **1878** to **5778**, and **39** is a substantial number to the sages for several reasons. First of all, **39** is the numerical value of "G-d is One" a phrase jam-packed with meaning. It's funny that it should be associated with the father of the man who fathered monotheism for the world. And secondly **39** is the numerical value of the Hebrew word *tal*, meaning dew, but dew as a spiritual sustenance, the very dew that the sages say would be associated with the time of *Mashiach* and the resurrection of the dead. It's said that the sages could lecture one year alone on the meaning of *tal*, *ל* and the number **39**. And moreover, the not-unrelated value **390** is that of *שמים*, *Shama'im*, Heaven.

### Nimrod and Evil

Even events not so wondrous, like the destruction of the First Temple in **3338** end in eight (**8**) if they are of Biblical significance and/or of the Divine calendar for one reason or another.

Nimrod, the evil King who tried to prevent Abraham's birth was born in **1908** HC and he became King in **1938** HC, **10** years before Abraham's birth. He also began his **40**-year war with Yefeth in **1938** HC and consequently ended it in **1978** HC, **40** years before G-d Covenant with Abraham's in **2018** HC.

If there's a real connection here, we can't say for sure, but since the divine calendar seems to be palindromic in that the beginning significant dates are reflected in the ending ones **3760** years later, then we could conclude that the evil Nimrod becoming King in **1938** HC is reflected in the Nazi perpetration in **1938** CE of Kristallnacht in Germany and Austria that began the holocaust. As for his birth in **1908** HC, it marks the giant explosion of the Tunguska asteroid over Siberia in **1908** CE.

## Chapter Summary

Israel Receives Statehood = **5708** HC

Second Temple Destroyed = **3830** HC

**5708 - 3830 = 1878** HC

**1878** HC = Terach's Birth

## CHAPTER 23 - THE PIVOTAL YEAR 3760

### *DOES THE DIVINE CALENDAR UTILIZE SQUARE ROOTS?*

**W**e've spoken about the square root of **3338**, the year the First Temple was destroyed, being the **57.78**, the predicted year of the Messiah, but there are other equally astonishing roots derived from this small set of divine dates. With all that we've seen so far, if the divine calendar integrates simple calculations between the dates with square roots no less, what does this tell us about the calendar's origins?

One such example is found by taking the truncated square root of the product of the Gregorian year Abraham was born, **1812 BCE** multiplied by the same year in the Hebrew Calendar, **1948 HC**, to end up with **1878**, the year Terach, his father was born. By truncated we mean that we're severing the whole number component from the decimal places, which are irrelevant here anyway as we're speaking about whole years.

**Abraham was born in 1812 BCE**

**1812 BCE = 1948 HC**

**$\sqrt{(1812 \times 1948)} = 1878$**

**Terach was born in 1878**

Likewise, we can take the truncated square root of the product of the year Terach was born **1882 BCE** multiplied by the year of the Covenant, **2018 HC**, and we get  $\sqrt{(1882 \times 2018)} = 1948$ , which is the year Abraham was born in the Hebrew Calendar.

All three of these dates are separated by **70** years each and within these interlocking formulas (equations) their placement has been jumbled, meaning the chosen dates must have been known before hand, meaning it was all part of some grand plan. Whose?

**Terach was born 1882 BCE**

**G-d's Covenant with Abraham was in 2018 HC**

$$\sqrt{(1882 \times 2018)} = 1948$$

**Abraham was born in 1948 HC**

But even more amazing is the date that appears when we take the truncated square root of the product of the year that the first exile ended, the year we received the Torah, **2448 HC** and multiply it by the year the final exile is slated to end, **5778**, and we get  $\sqrt{(2448 \times 5778)} = 3760$ , the year both calendars pivot on, the year Jesus was thought to have been born when the Gregorian calendar was devised.

**The Torah was received in 2448 HC**

**The Final Redemption is to occur in 5778**

$$\sqrt{(2448 \times 5778)} = 3760$$

**The Gregorian calendar began in 3760**

And while there were **480** years between the end of the first exile and the building of the First Temple, and again another **480** years between the building of the First Temple and building of the Second one, there is also **480** years separating **3760** and **4240**. And we know what **424** indicated!

## Chapter Summary

Abraham Born = **1812** BCE = **1948** HC

$\sqrt{(1812 \times 1948)} = 1878$  HC truncated

Terach Born = **1878** HC.

Terach Born = **1882** BCE

Terach = Abraham's Father

Covenant of Abraham = **2018** HC

$\sqrt{(1882 \times 2018)} = 1948$

Abraham Born = **1948** HC.

First Exile Ended = **2448** HC

Final Exile Supposed to End = **5778** HC

$\sqrt{(2448 \times 5778)} = 3760$ , HC truncated

Jesus Born. = **3760**, HC

**3760** HC = **0** CE

First Exile Ended = **2448** HC

First Temple Built = **2928** HC

**2928** HC - **2448** HC = **480** years

Second Temple Built = **3408** HC

**3408** HC - **2928** HC = **480** years

Jesus Born/ Gregorian Calendar Begin = **3760** HC

משיח-בן-דוד *Mashiach Ben David* = **424**

**10** x **424** = **4240**

**4240** HC - **3760** HC = **480** years

## CHAPTER 24 - WHY 5778?

### *HOW DID THE SAGES COME UP WITH 5778?*

There is an academic debate about when Jesus was born and when the Gregorian calendar should have begun, but it's irrelevant because if these dates were all parts of a divine plan and a calendar then whatever the starting year [Aloysius Lilius](#) came up with was divinely inspired.

As for Jesus' birth date, scholars give anywhere from 4 BCE to 6 CE, making his life span anywhere from 27 to 37 years, rather than the more typically acknowledged **33** years, which better fits the divine plan unfolding before us.

And indeed, the year Pope Gregory XIII instituted the calendar was **5342** of the Hebrew Calendar, **8** years after the birth of the *Arizal*, Rabbi Isaac Luria, one of the greatest sages, whose death at the age of **38**, marked the beginning of the final **666.666** period for the *tzaddikim*. And isn't it odd that he was born in the **42<sup>nd</sup>** year of the **53<sup>rd</sup>** century and that  $53 \times 8 = 424$ , the numerical value of "משיח־בן־דוד" *Mashiach Ben David*?

Pay close attention because this is how the righteous sages have calculated the year of the final redemption to be **5778**. We've already seen that there is a divine plan and calendar that leads to that very same year over and over again, so let's see why they determined it to be so.

We know that **3** is the number for balance and that the final redemption is the ultimate balanced state in our universe. The number **3** signifies the **3** Patriarchs (Abraham, Isaac and Jacob) and the primordial energy states that they represent. The number **3** signifies the **3**-column structure of the Tree-of-Life. And **3** signifies the **3** major religions descended from Abraham.

Based on ancient prophecy that the Messiah would arrive in the 6<sup>th</sup> millennium, they determined that there was a total of **6000** years, which they divided into **3** periods of 2000 years each. Before I go on, with all that we've seen of a divine calendar and a divine plan can any of us really doubt that these extremely righteous and saintly individuals could have received this prophecy and understanding by divine inspiration?

Ok, so the first two periods of 2000 years passed well and good, bringing us 4000 years deep into the prophecy, which is 4000/6000 or 2/3 of the way through it. It's important to note that 2/3 is the same as **.666666**.

Now we're in the final 2000-year period, which they further broke up into periods of **666.666** years each, or exactly 1/3 of 2000 years.

As it turns out, when you start counting from the birth of Adam, 2/3 of the way through that last 2000-year period, or (**.666666** x 2000), we get the year 5334, when the *Arizal*, Rabbi Isaac Luria, was born. To understand the importance of the *Arizal* in the minds of the sages and in the divine plan, you should know that none of the revelations I'm sharing with you today, or in *The Genesis Prayer*, or in *There's Nothing Random About the Universe* would have been possible with the works and teachings of the *Arizal*.

That leaves one last period of **666.666** years and just as they had twice before, they took 2/3 of the remaining period for a 3<sup>rd</sup> time and got **666.666** x **.666666**, 444.444 years. And adding these 444.444 years to 5334 gave them **5778**. Since they rounded the figures off in their heads the decimal places are irrelevant.

## Chapter Summary

The *Arizal*, Rabbi Isaac Luria Born = **5334**

Gregorian Calendar Instituted = **5342**

**5342** = 42<sup>nd</sup> year of the 53<sup>rd</sup> century

**5342 - 5334 = 8 years**

The *Arizal*, Rabbi Isaac Luria Died in **5372**

**5372 - 5334 = 38 years**

**6 Millennia from Adam to Mashiach**

**6000 x .6666666 = 4000**

**6000 - 4000 = 2000**

**2000 x .666666 = 1333.33**

**4000 + 1333.33 = the year of 5334**

**5334 + 666.666 x .666666 = 5778.**

**53 x 8 = 424**

משיח־בן־דוד *Mashiach Ben David* = **424**

## CHAPTER 25 - WHAT DO THE JUBILEE YEARS HAVE TO DO WITH THE DIVINE PLAN?

### THE FLOOD

As for the Flood in **1656**, arguably a pivotal point in any divine calendar, it occurred exactly **12** jubilee years (**50** year intervals) after Noah was born in **1056**—the Bible makes a point in telling us specifically this. The Flood, therefore occurred **33** jubilee years plus **6** regular year after Adam, which in mathematical terms looks like  $33 \times 50 + 6 \text{ years} = 1656$ .

This date for the flood is also **16** jubilee years before the Exodus, which occurred precisely **66.6** jubilee years before the predicted time for the Messiah.

### The Exodus and 3760

Thus the Exodus, which the *tzaddikim* have always said occurred when the Israelites reached the **49<sup>th</sup>** Gate of negativity during their exile in Egypt, actually occurred at the **49<sup>th</sup>** jubilee year after Adam.

Simple calculations show that The Exodus occurred **26.26** jubilee years before the pivotal year **3760**.

And the pivotal year **3760** occurred **42** jubilee years after the Flood, and **40** jubilee years before the final redemption in **5778**. Can **42** and **40** jubilee years together be represented by **4240**?

So analyzing this further we see that Noah was born **21**, or **42/2**, jubilee years after Adam.

Also since we know the Flood occurred **33** jubilee years after Adam, we'd be remiss if we didn't ask if this could correspond to Jesus' supposed **33**-year lifespan, which began in **3760**.

### King David

As for King David, he was born in **2854** HC, almost exactly **36** jubilee years after the Noah (**1056** HC) and just about **18** jubilee years before **3760** HC and consequently Jesus; therefore, David was actually born precisely  $\frac{2}{3}$  of the way between Noah and Jesus and  $\frac{2}{3}$  in decimal form is **.666**

### Noah and the Exodus

Moreover, since the Exodus from Egypt occurred in **2448** HC and since Noah was born in **1056** HC there were (**2448** HC - **1056** HC) , or **1392** years between Noah and the Exodus , and this works out to **28** jubilee years.

We're seeing the same core Torah and Divine Calendar numbers over and over again: **26, 28, 42, 33, 40, 666...**

Furthermore, since Moses was born in the Year **1392** BCE, it further means that Moses was also born **28** jubilee years before Jesus. So not only are **42** and **28** two of the very few core numbers that the Torah was constructed around, but the number **40**, as in the **40** jubilee years from Jesus to the Messiah, always represents maturity and completion in the Bible.

Specific examples of the **40** year, or sometimes **40** day, periods of maturation and completion in the Bible include: Moses being summoned by God at the age of **40**; **40** years passing before he stood in front of Pharaoh again; his spending **40** days and **40** nights with the Creator on Mt. Sinai; and his living another **40** years; and his recital of the Book of *Deuteronomy*, the last Book of the Torah in **40** days; the Flood raining for **40** days and **40** nights; the Israelites wandering in the desert for **40** years; Isaac's age (**40**) when he married Rebecca; Esau's age (**40**) when he married Judith; the spies searching of the land for **40** days; Joshua's age (**40**) when he took over from Moses; Solomon's reign of **40** years; David's reign of **40** years; and Eli's reign of **40** years. Also, according to the Christian Bible, Jesus spent **40** days in the desert and rested for **40** hours in his tomb. Furthermore, Mohammed received his first revelation at the age of **40**; and Buddha began his mission at the age of **40**.

And if there is any precedent for **40** Jubilee years it might be found in the number of chapters of the first two books of the Torah, since a jubilee year is **50**

years long and there are **50** chapters in Genesis and there are **40** chapters in Exodus.

And since Noah, who was the only *tzaddik* of his generation according to the Bible, was born **21**, or **42/2**, jubilee years plus **6** regular years after Adam, and the Flood itself occurred **33** jubilee years plus **6** regular years after Adam, it might just be coincidence that the Mayan calendar which shows the end of time in the year 2012, is off from our divine one by exactly **6** years, as in the **6** days of Creation.

## Chapter Summary

Jubilee year = **50** years

Adam Born = **0** HC

Noah Born = **1056** HC

**1056** HC = **21** Jubilee years + **6** regular years

**21** = **42/2**

**42** = Core Torah Number

The Flood Occurred = **1656** HC

**1656** HC - **1056** HC = **600** = **12** Jubilee years

**1656** HC = **33** Jubilee years + **6** regular years

Adam to Flood = **33** Jubilee years

Jesus Lived = **33** years

The Exodus Occurred = **2448** HC

**2448** HC - **1656** HC = **800** - **8** Years = approx **16** Jubilee years

Flood to Exodus = **16** Jubilee years

Adam to Exodus = **33** + **16** = **49** Jubilee years

Israelites were at the **49<sup>th</sup>** gate of negativity

**2448** HC - **1056** HC = **1392** years = approx **28** Jubilee Years

**28** = Core Torah Number

Moses Born = **1392** BCE

Moses to Jesus = **28** Jubilee years

Jesus Born = **3760** HC

**3760** - **2448** = **1312** yeas = **26.26** Jubilee Years

The Tetragrammaton = **26**.

**3760** HC = **0** CE

Flood to Jesus = **16** + **26** = **42** Jubilee years

Messiah to Arrive = **5778** HC

**5778** HC - **3760** HC = **2018** = approx **40** Jubilee years

Jesus to Messiah = **40** Jubilee years

**40** years = Biblical Period of Maturity and Completion

## CHAPTER 25 - WHY WAS THE FIRST EXILE 430 YEARS?

As for the **430** years of exile that began the Israelite saga, the *Arizal* explained that the **430** years is **5** times **86**, and **86** is the value of the Name *Elohim*, which has **5** letters, and which signifies the divine cause and effect judgment of the natural world. The Bible makes a point of stating that Pharaoh knew *Elohim*, but not *Adonai* (the Tetragrammaton), the divinity that encompassed all. *Elohim* is also the 3<sup>rd</sup> word in the Bible. And perhaps there is some meaning to **430** being **6** years more than **424**, the value of *Mashiach Ben David*.

This is all a big perhaps, but as we explain in greater depth in *There's Nothing Random About the Universe*, the primordial mathematical constant that controls the natural shaping of spirals, from the stars in the galaxy to the petals on our flowers, and to the growth of our populations is called Phi. And Phi is not only integral to the design of the Torah, and is not only uniquely connected to the number **5778**, but is based on the square root of the number **5**. It is exactly  $(1 + \sqrt{5})/2$  if you must know, but what connects phi to **430** and the number **6** is that  $5778/(6 \times \text{Phi}) = 430.6666\dots$  **How's that for a tight and meaningful connection?**

$$5778/(6 \times \text{Phi}) = 430.6666\dots$$

Again why this was designed this way, we can't say. We only know that it is. Perhaps it's a puzzle we're meant to solve. Perhaps, it's only meant for us to take notice of. Or perhaps the dates and numbers are designed to work with invisible energies frequencies and that these frequencies guide what is to happen on these dates. Who can know for sure?

## CHAPTER 26 - WHAT DOES 666 HAVE TO DO WITH THE MESSIAH?

One final and not insignificant note, we know that the final redemption is predicted to arrival in the year **5778**, which is **66.6** jubilee years after the end of the first exile. We also learned the method the *tzaddikim* (sages) used to predict the arrival of the Messiah and the final redemption. It was based on dividing up the **6** millennia into periods of **666.666** years with the start of the final period marked by the death of the *Arizal* in 5372 HC, and since the whole schematic is based on a pattern of **2/3**, which is **.666666**, they calculated that the Messiah would arrive two-thirds, or **.666666**, of the way through this final **666.666** year period, in the year **5778**.

So now knowing this, we must further note that Jesus died at the age of **33**, or to the month, **.666** jubilee years after his birth, and regardless of anyone's religious or spiritual beliefs or non-beliefs, it was on his birth that the Gregorian calendar was intended to be based, and without it, without both calendars we'd be unable to decipher this divine one.

Whatever this divine intent means,  $666/33 = 20.18$ , as in the year **2018** CE, which is the year **5778** HC, and the logarithm of **2018**, or  $\text{Log}(2018) = 3.30$

### 666, Logarithms, and year 5778

The above connections to **666** are only part of the story. There are **26** direct generations in lineage from Adam to Moses, and we know exactly how long each of them lived according to the Torah, which the sages say existed before creation and the scientists and scholars tell us existed for the past **3330** years or so. Nevertheless, if we list all **26** generations and take the logarithm of each and then sum up these **26** irrational numbers, we get exactly **66.661199...** or **66.66.12**, a numerical pictograph of **666** and **612**, the numerical value of "Covenant, or *Brit*."

What are the odds of that? Really. If the Torah were divinely designed, then there's no issue. Of course the same force that created all our mathematics could have designed this specific set of **26** interlocking numbers that ended in the year **2488** HC to be anything that He wanted it to, but if we want to design a scenario where Man could have created this chart **3330** years ago, then we have a problem. You see, John Napier only began developing the concept of logarithms around 400 years ago.

Ironically, or maybe not coincidentally at all, John Napier wrote a book about the mathematics of the Book of Revelations, but what he wasn't privy to was that there were **600,000** Israelites at Mount Sinai when the Torah was given and when the 27, or **3<sup>3</sup>**, Hebrew letters of the Hebrew alphabet are broken down into their component parts they expand to **50** letters, which makes the number of actual letters in the Torah climb from 304805 to exactly (**600,000 - 408**.)

Now, there are many reasons why the Torah was designed to be **408** letters shy of the perfect **600,000**, one of them being that **408 x 6 = 2448** and **2448** HC was the year the Torah was given to us, but what ties this all together so utterly perfectly is that the log of **600,000** is **5.778**.

$$\text{LOG}(600,000) = 5.778.$$

The other oddity to notice about the above generational chart is that the sum of the **26** square roots, again **26** irrational numbers, also works out to **535.814805...**, with **358** being the numerical value for *Mashiach*, the Messiah, and **814** being the numerical value of the phrase, "You must love your neighbor as (you love) yourself," and **805** being the numerical value of "The Rainbow" which was G-d's Covenant with the Earth following the Flood.

Of further note is that not only does the cumulative sum of the **26** square roots connect to *Mashiach*, but the cumulative sums of the first 17 do so as well. They sum to **424.666**, a not so subtle connection to *Mashiach Ben David* (**424**) and **666**.

Also, you may have observed that the numerical sequence or string **5358** is found at the **9<sup>th</sup>** position in the mathematical constant Pi: 3.1415926**5358**, right after the number **26** representing both the Tetragrammaton and the **26** generations, whose square roots summed to **5358**, and that the number **26** immediately follows the number **9**.

Now someone might say that there existed in the days of Moses a genius capable of doing square roots and logarithms and he somehow contrived to create a **26**-generation chart where the dates end in **8**'s and the logs sum to **66.6612** and square roots sum to **535.814805** and that he knew that out of the **304805** letters in the Torah, there would be exactly **4805** letter *Pe*'s, each of value **80**, and moreover, that he convinced Moses to let him write this section of Genesis, but did he also create Pi, which is really nothing more than a mathematical result of curving a line into a circle and thus existed at the dawn of creation? Do we really think that this is logical reasoning? That this is plausible?

### THE 7 PLANETS IN ABRAHAM'S ASTROLOGY

Now whether you think this is relevant or not is up to you, but in the *Sefer Yetzirah, The Book of Formation*, written 3700 years ago, the Patriarch Abraham describes the first system of astrology based on the energy of 7 planets and the Hebrew letters and how these energies effect our lives. The numerical value of the names of those 7 planets including an additional 7 for the *kolel* representing those planets—a device consistently used by the sages in their spiritual calculations and equations—total exactly **1260**, as in the **12600** total years in the life spans of the **26** generations.

Now each of those planets is represented and in a sense controlled by the underlying energy of a specific Hebrew Letter. Abraham explained that there were 22 Hebrew letters, or building blocks in his words, and that there were **7** doubles. These **7** doubles refer to the ones that relate to the **7** planets and he breaks these down into the first three (*Bet, Gimmel* and *Dalet*) and the second four (*Caf, Pe, Resh, and Tav*), and it just so happens that the total of the spelled out names of the **7** letters totals 2016 and if we add 2 for the *kolel* of the 2 groupings we get **2018**.

### The 26 Generations and the 42-Letter Name

There are also numerous reasons why **12600** is significant, but for this paper, we'll only note that **12,600** is **42 x 300**, with **300** being the numerical value of several key Names of G-d in various forms of gematria, and also to "Son of Abraham" and **126** being the total number of meditative elements in the **42**-Letter Name. You can see *The Genesis Prayer* for details on this, but the **42** letters

are specifically arranged in a matrix, or mandala, of 7 rows of 6 letters each, and those 6 letters can be taken in either pairs, triplets, or as an entire 6-letter line, and when you add up all the variations they sum to **126**.

Nevertheless, I guess we'd be remiss if we didn't share that the number **1260** comes up in two forms in the Book of Revelations. Since **1260** days is **42** months, we find these references in Revelation 11:2 "**42** months"; in Revelation 11:3 "**1260** days"; in Revelation 12:6 "**1260** days"; and in Revelation 13:5 "forty-two (**42**) months." Why this connection? Why this bringing together of the beginning and the end?

### Backwards and Forwards

And **535.8** plus **42** equals **577.8**! Just thought we'd throw that out.

We can't pretend to know for sure, but wouldn't it be phenomenal if the designer of this **26** generational timeline could make it work backwards as well?

And so it does. If we take the cumulative sum of the logarithms of the individual life spans of all the generations, starting with Moses and climbing up through the ranks until we end with Kenen, **22** generations earlier in the lineage and the **4<sup>th</sup>** Generation in the line of Adam, we get **57.78**.

**So the Saga of the Jews began in the Hebrew calendar year 2018 with the Covenant of Abraham and will end with *Mashiach* (the Messiah) in 2018 in the Gregorian calendar and it's obvious both calendars were preordained from the beginning and that both are needed to reveal the prediction, not one without the other.**

## Chapter Summary

The Torah = **304805** Letters

The Torah = (**80,000** – **3 x 8**) Words

The **27** Hebrew letters Break down = **50** Component Letters

The Torah = **600,000** – **408** Component Letters

**60%** of the verses in the Torah begin with the letter *Vav*

The value of *Vav* = **6**

**408 x 6 = 2448**

The Torah Given = **2448** HC

The log of **600,000** = **5.778**.

Messiah Prediction = **5778**

Generations from Adam to Moses = **26**

The Tetragrammaton = **26**

Sum of the Logarithms of the **26** life spans = **66.6612**

“Covenant, or *Brit*” = **612**

Sum of the Square roots of the **26** life spans = **535.814805**

Books of Moses = **5**

Love thy neighbor = **814**

Letter *Pes* in Torah = **4805**

Total Letters in Torah = **304805**

Letter *Pe* Value = **80**

*Mashiach*, Messiah = **358**

Sum of the Square roots of the **26** life spans = **535.814805**

**Pi** = 3.14159265358

**At the 9<sup>th</sup> digit in Pi = 5358**

**Pi = 3.14159265358**

Generations from Adam to Moses = **26**

**Pi = 3.14159265358**

Number Preceding **26 = 9**

**535.8 + 42 = 577.8**

Messiah Prediction = **5778**

Sum of Square Roots of First 17 Generations = **424.666**

*Mashiach Ben David* = **424**

Good = *Tov* = **17**

## CHAPTER 27 - THE NUMBER 42

**W**e've covered how the number **42** is integrated into this divine schematic and haven't even scratched the surface of how and what the sages knew about the Genesis Prayer and the meditations that surround it, nor its inherent power to change events, nor its derivations from the first **42** letters of the Torah, its connections to several of our most cherished mathematical and physical constants, nor its constant connection to *Mashiach*, but given that, it is also apparent that the **42**-Letter Name of G-d must play *some* integral part in the arrival of the Messiah.

And one more mathematical proof of that is found with the help of knowing that the small gematria value of the **42**-letter Name of G-d is **173**, and that there exists a simple equation whereby  $10^6$ , or **1,000,000**, when divided by **5778**, the year predicted for the Messiah, is **173**; and in equation form it is  $1,000,000/5778 = 173.0$ . Nevertheless, it's deeper than this pretty telling demonstration of the interconnectedness between **173** representing the **42**-Letter Name and **5778**, in that the actual number revealed by the equation is **173.0702665..**, and this number resonates with significant numerical values.

$$10^6/5778 = 173.0702665..$$

**173 = the sg value of the 42-Letter Name**

When we utilize ancient gematria and modern Number Theory to break down **173.0702665** into its component parts, as we did with the mathematical constant **Pi**, we get first the **42**-Letter Name of G-d represented by **173**, then the **70** Nations, then the Tetragrammaton (**26**), then *Adonai* (**65**), and if want to interpret these numbers as the sages would have, we get the following narrative: the **42**-Letter Name of G-d (**173**) uniting the **70** Nations under G-d (represented by the Tetragrammaton, of value **26** above, and under G-d in our world and lives (*Adonai* of value **65**). Oh, and conversely  $10^6/173.0702665 = 5778.00000$ .

$$10^6/173.0702665 = 5778.00000.$$

We can, of course, interpret these things any way we want, depending on what we'd prefer to happen in **5778**, but the numbers themselves won't change, the historic dates will be immutable, the Tetragrammaton will always be

represented by the value **26**, and the **42**-letter Name will always have **42** letters and have a small gematria value of **173**, and **70** will always be a number, and a **70** year time span will always be indelibly engraved on our collective calendar of specific momentous Biblical and historic events.

## CHAPTER 28 - ARE THERE ANY OTHER MODERN EVENTS ON THE CALENDAR?

There are probably thousands of other historic events, big and small, that fall along this cosmic or divine timeline and it's not the purpose of this paper to dig them all up, but we will give one example that occurred more recently and that fits the mold. It's little known and less remembered that on the dawn of Israel receiving statehood the Arab league drafted a law in response to the partitioning of Palestine to systematically eliminate and annihilate the Jews in the Middle East. Under this pressure, as the United Nations statistics show, **856,000** Jews abandoned their homes in the Arab nations and settled in Israel in **1948** CE, completing a saga that begin **3760** years earlier with the birth of Abraham in **1948**HC. The **856,000** Jews are equivalent to **107** times **8000** Jews, and the sum of all the positive integers through **107** is **5778**.

One of the major tenets of spirituality is that we can't see the big picture and therefore don't know the why and wherefore of an event until much later. Now that we've got a guideline and scaffolding to our history, we can put the pieces together and examine the unfolding picture of the past, near and distant. We can't change that picture anymore to suit our tastes, but we can change ourselves; that's the meaning of having free will.

## CHAPTER 29 - REVELATIONS

## WORLD POPULATION GROWTH IN 5778

**O**ne final note. There exists a formula for world population growth such that  $N = (1.789477965^{57785} \cdot 10^{11}) / (2026.87752 - t)^{.99}$ , which has described the world population accurately for the last 2000 years. And when we plug in the year  $t = 2018.05778$  (or more precisely 2018.0577770005), we get the world population in 2018 CE at exactly 2073600000 people. And while 207 is “Light” in ancient gematria, the square root of 2073600000 is 144,000, which is the number of people that the Book of Revelations says will be saved. Is this too a coincidence? Who knows? Is it also a coincidence that 2018 CE is the year 1440 AH (Islamic Calendar)?

We have no grand finale or summation because we’re not trying to make a point, only to point out that there are things beyond our control afoot in the universe and have been since before we, as a race, as a species, obtained consciousness. We’re not trying to prove the universe was created 5768 years ago and that there are 10 years left for us to countdown, only that for some reason, there exists a 5778 year long calendar and all the significant and calculable Biblical and historic events fall precisely on that calendar such that they are all integral, and are all integrated to the numbers 424, representing *Mashiach Ben David*, and to 666 and that this all points to some divine plan. What that plan is, how it will unfold, is for us to witness, as it is almost upon us. After 5778 of waiting, finally in will occur in our lifetime. It’s interesting that it falls to us, the 73rd generation, the generation of *Chochma* (wisdom), the first generation able to use science and mathematics to reveal these spiritual insights, the first one able to see the entire divine calendar laid out for them from beginning to end.

**If you’re asking yourself “what’s next?” or what you’re supposed to do with this new and potent knowledge, all the sages throughout history all have the same answer: Leviticus 19:18 “You must love your neighbor as (you love) yourself, I am G-d.” So you know the answer to that question, as we all have for 3330 years. The knowledge, as the love, is for spreading.**

42 IN PI

We'd like to add, though, just one final note for the skeptics. We've already shown the profound and astonishing relationship between the number **73** and **Pi** (3.14159265358...), the number **9**, and the **42**-letter Name, so to those of you still not convinced, please note that the longest repetitive sequence found in **Pi** for the trillions and trillions of digits our supercomputers have been able to calculate **Pi** is **9** digits long, and that the number **4242424** (actually **242424242**) is found deep within the numerical string of **Pi** at precisely digit # **242424**.

And if you recall, *Chochma*, meaning Wisdom, is the **9<sup>th</sup>** of the **10 sefirot** (dimensions) and its numerical value is **73**. This is indeed the Generation of Wisdom, and Wisdom is the key to what the next **10** years will bring. Let it be the Messiah, *Mashiach Ben David*, **424**.

The full numerical value of the above-cited phrase about unconditional love is **820** and in base-9 mathematics, the number **666** converts to **820**. Go figure!

### In Base-9 Mathematics 666 converts to 820

**820 is the value of "You must love your neighbor as (you love) yourself, I am G-d."**

### DANIEL 12:7 "TIME, TIMES AND HALF A TIME"

There has been much speculation for centuries about what was meant in the visions of Daniel in the Book of Daniel, and many scholars have noted that in its original Hebrew it can be computed as one year, two years, and half a year, or **42** months, but we're going to ignore that and address another aspect of the vision here.

In Daniel 12:7 Daniel is describing his vision about the end of days and he relates "Then I heard a man dressed in linen, who was above the water of the river, swear by the Ever-Living One as he lifted his right hand and his left hand to heaven: For a time, times, and half a time...[these things shall be fulfilled]. The specific verse "For a time, times, and half a time" doesn't exactly translate from its original Hebrew this way, but be that as it may, when we utilize simple gematria to decipher the verse, we see that the sum of the numerical value of the

letters in the verse up to the final letter of the verse, which is the letter *yud* and which has the value of **10**, is **424**, *Mashiach Ben David*, the Messiah. Thus the verse becomes *Mashiach Ben David* ushering in the Tree of Life, represented by the unified **10** *sefirot* (dimension).

## ARMAGEDDON

**One last word about the number 70; it's the numerical value of the original Hebrew name for Armageddon, *Gog v'Magog*.**

## CHAPTER 30 - WHAT'S THE HIDDEN EQUATION?

**In Base-9 Mathematics 666 converts to 820**

**820 is the value of "You must love your neighbor as (you love) yourself, I am G-d."**

666 divided by 424 or  $666/424$  is **1.5708** and not only is that reminiscent of **5708**, the year Israel received statehood, but it's also almost exactly one half of Pi,  $3.141509/2$

$$666/Mashiach Ben David = \text{Pi}/2$$

**or is it**

**The 42-Letter Name/ *Mashiach Ben David* = Pi/2**

Is this some primordial equation? Who can say?

Let's look at this equation again:

**The 42-Letter Name/ *Mashiach Ben David* = Pi/2**

If we apply simple algebra, we get

$$2 \times (\text{The 42 Letter Name}) / \text{Mashiach Ben David} = \text{Pi}$$

and then

$$2 \times (\text{The 42 Letter Name}) = \text{Mashiach Ben David} \times \text{Pi}$$

And since we know that there is an upper and lower **42**-Letter Name and that as the sages have explained to us, together they equal **84**, the numerical value of *Pad*, meaning redemption it all makes sense.

As further explained by the sages, by taking actions in our world and utilizing the **42 Letter Name**, also known as *The Genesis Prayer (Ana B'koach* in Hebrew) properly we automatically activate the upper **42** letters of the Name of G-d, which is really the first **3** expansions of the Tetragrammaton:

יוד-הי-ויו-הי

יוד-ויו-דלת-הי-יוד-ויו-יוד-ויו-הי-יוד

There's no way we can access that name directly, nor could we comprehend what it's all about, but the access happens automatically if we have love in our heart and openness in our mind and we use, recite, meditate on the **42** letters of the Genesis Prayer (*Ana B'koach*, which emanates from the first verse in the Bible. It's that simple and has been since the dawn of creation.

What the hidden message that this is telling us is that love, awe, and openness to the Creator together with the gift of the **42**-Letter Name will bring about the Messiah, and as for when and wherefore, the secrets are

hidden within Pi, right beneath the surface, which is why we're simultaneously releasing the book *There's Nothing Random About the Universe*. It's not for nothing that modern and ancient technologies are coming together at this moment in time.

$$666/42 = 15.9$$

**159 is the small gematria of the Upper 42-Letter Name**

**424 is the value of *Mashiach Ben David***

**It takes 66 iterations to get from 1000, *Keter* to our level (1)**

**There are 66 letters in this verse**

$$(1000 - 424) = 1.73$$

**173 is the small gematria of the lower 42-Letter Name**

**The Final Redemption is destined to happen in 5778**

$$1000/577.8 = 1.730$$

**You decide!**
