
A Direct Progression from the Beginning to the End.

It all started with the [42 Letter Name of G-d](#). And it's all [supposed to end \(shift\) in 5778](#).

HC.

The **42** Letters are officially and primordially represented by and guided by the energy of the Hebrew letters **Mem-Bet (MB)** of numerical value **42**. The ordinal value, or placement value within the Hebrew alphabet, of these two letters is 13 for **Mem** and 2 for **Bet**, which are the 13th and the 2nd letters of the Hebrew alphabet and together are **15**. Thus the complete value of the **Mem-Bet (MB)** is **42** plus **15**, or **57**.

The number **42** is always represented by **Mem-Bet (MB)** because that is the simplest way to write **42** in Hebrew and it is how they count in Hebrew and always has been. Likewise, **57** is represented by the two letters **Nun-Zayin (NTz)**, which individually have values of 50 and 7 respectively, and ordinal values of 14 and 7 respectively. When we sum their values and their ordinal values together, we get a complete value of **57 + 21 = 78**.

Thus we go from **42** in the beginning to **57-78** in the end. Proportionately **42** is to **57** as **57** is to **78**, all about **73%** of one another. While **73** is the numerical value of the word *chochma* in Hebrew, meaning both Wisdom and the 2nd highest *sefira* (dimension) to G-d, we know that the first verse of the Torah, the one from which the [42-Letter Name of G-d is derived](#), has a total numerical value equivalent to the sum of all the integers through **73**. This is Wisdom. It is Light, and **42 x 57 x 78** is very close to the speed of Light,

There are many reason the year **5778 (2018 CE)** was chosen as the date for the final redemption and Moshiach (the messiah) and we've written about many of them. The one given above isn't much of a reason, as it is just another example of an increasingly more obvious divine plan that incorporates the secrets of the Torah, the Hebrew alphabet, and our base-10 math system. The Wisdom glows wherever we shine our flashlights, all we need to do is switch them on.

Illuminating the digits in **42, 57, and 78** we get **4+2+5+7+7+8 = 33** and **42 +57 +78 +**

33 = 210, as in the **210 years** the Israelites where in exile in Egypt, and as in the height of [the Great Pyramid in Giza in both number of levels \(210\) and mir cubits \(210\)](#). [That Pyramid, which is also call Joseph's Pyramid is just about 5778 inches high.](#)

And if you are fond of the divine beauty in design, please note that the proportion of 33 to 42 or $33/42$ is .7857142, and unscrambling the 3 double-digit numbers we began this discussion with, we get **1, 42, 57, and 78**. G-d is One.

L'ag b'omer is the **33rd** day of the Omer, let's all connect that day to Rabbi Shimon, the author of the *Zohar* and to the energy of Moshiach consciousness.
