
Further to Torah letters and flaming sword

Author : Meiliken

The **80** verses up to the flaming sword that separated Man from *Gan Eden* are all the verses in the first **3** chapters of the Torah. The **80** verses corresponds to the letter *Pe* of value **304805** and since there are **4805** *Pes* in the Torah, the split of the sword is between the **4805** and the **300,000** remaining letters. This dynamic between **3** and **8** is mirrored in the nearly **80,000** words in the Torah because, as discussed in *The Genesis Prayer*, there are exactly **80,000** - (**3 x 8**) or **.03%** words in the Torah.

And when we divide the exact number of letters in the Torah by the *milui* (spelled-out) value for the higher Name of G-d, *EhYeh* (EHYH), the Name used in "I am that I am", **151**, which is also the value of the word *mikve*, the all-important ritual cleansing bath, we get **304805/151 = 2018.576159**. And since we know that **2018** is the year **5778**, the year prophesied for the arrival of *H'Mashiach*, as explained in *The Divine Calendar*, we can surmise that **576159** might represent **5/9/5761** or the **9th** of *Av* (the 5th month of the Hebrew calendar), **5761 (2001)**. What that connection is we can't really say, but we know from *chazal* that the **9th** of *Av* is connected to *H'Mashiach*.

Moreover, the **159** in $304805/151 = 2018.576159$ is the small gematria value of the upper **42**-letter Name of G-d.
