The cosmos are ruled by the letters

G-d moves through the **12** palaces throughout the year, starting in *Nissan* (Aries), the 1st month

Each Palace is built with **7** revolving letters (blocks) (*pe, resh, tav, bet, gimmel, dalet, caf*) with always a specific one crowning it,

crowning letter:

Nissan, Aries: 1st Month: *dalet*

Iyar, Taurus: 2nd:month:*pe*

Gemini: 3rd month: *resh*

Tamuz, Cancer: 4th month: *tav*

Av, Leo: 5th month: *caf*

Elul, Virgo: 6th month: *resh*

Tishrei, Libra 7th month: *pe*

8th month: *dalet*

Sagittarius 9th month: *gimmel*

Aquarius: 10th month: *bet*

Capricorn: 11th month; *bet*

Adar, Pisces:12th month:*gimmel*

The numerical sum of the 7 letters, called doubles, is 2016, tantalizingly close to **2018**, the year prophesied for the arrival of the *Mashiach*, the Messiah

The palaces are located around a circle and are divided into bands represented by the same crowning letters. When you put the months around the circle with Aquarius and Capricorn at the top (the winter solstice) and Cancer/Leo at the bottom, the banding becomes obvious

Bet----Bet

Gimmel---Gimmel

Dalet-----Dalet

Pe-----Pe

Resh-----Resh

Tav----Caf

Interestingly, the months that pair off are the:

1st and 8th = **9**

2nd and 7th = **9**

3rd and 6th = **9**

4th and 5th = **9**

10th and 11th = **21**

9th and 12th = **21**

21-09

The total numerical value of all the letters in the Torah is **2109826** and there are **2109** *gimmels* (each of the value 3) in the Torah

The bands further combine to form bonding relationships, such as the bottom band having the value 420, or 10 x **42** (*Mem-bet*)

the *Pe* and *Resh* bands combine to form *Pe-Resh* (Bull) and its numerical value is 280, as in the value of the special 5 final letters that control/represent judgment.

the *Pe* and *Dalet* bands combine to form *Pe-dalet* (redemption) with the value 84, as in 2 x 42 (the two drops from above, the 42 letters in the Name of G-d)

etc

The value of each of the 12 palace rings is 709 which is analogous to the value (708) of the upper 42 letters of the Name of G-d, plus the *kolel*.

Ringling the palaces are the 12 sequential letters (blocks) *he, vav, zayin chet. tet. yud, lamed, nun, samech, ayin, zadi, koof*

These match up with the 12 months and their crowning letters

Nissan, Aries: 1st Month: **dalet-he**

Iyar, Taurus: 2nd:month: **pe-vav**

Gemini: 3rd month: **resh-zayin**

Tamuz, Cancer: 4th month: **tav-chet**

Av, Leo: 5th month: **caf-tet**

Elul, Virgo: 6th month: **resh-yud**

Tishrei, Libra 7th month: **pe-lamed**

Cheshvan, Scorpio: 8th month: dalet-**nun**

Sagittarius 9th month: gimmel-**samech**

Aquarius: 10th month: bet-**ayin**

Capricorn: 11th month; bet-**zadi**

Adar, Pisces:12th month: gimmel-**koof**

In the center of these rings is the revolving ring (ball) of the 3 mother letters (Aleph-Mem-Shin)

When the Aleph lines up with the *Lamed* and *PE* of the month of *Tishrei*, we get *Aleph-Lamed-Pe* (ALP) or Aleph, the first, which is why Rosh Hashannah, the head of the year is the 1st of *Tishrei*, technically the 7th month.

If we assume that the ring of 12 letters is actually 12 rings of 12 letters, connecting to the palace ring at 12 specific points then there are a total of 12 x 7 letters plus 12 x 12 letters plus 3 letters (blocks) or a total of **231** letters (blocks), which is analogous to the **231** gates of wisdom, which is the number of connecting lines drawn between 22 points on a circle. The total value of these letters is 14420.
