The connection between the *lulav* and tree of life is further strengthened in that the full gematria value of the 4 species together is **(610+277+68+69) = 1024** and **1024** is **32 squared**. R'Chaim Vittal of blessed memory tells us that all Torah light is spread by squaring, and that there are **32** connections within the 10 *sefirot* (dimensions) and the 3-column structure of the tree-of-life, forming the **32** Paths of Wisdom. And not by coincidence, there are **1024** different word values in the entire Torah.
