# Part XVII Connecting the Dots Part 11b From the Coronavirus to the Secret Formula

**Author :** Meiliken

**Date :** 12-03-2020

## Two Viruses

By the way, the Chinese have just admitted that there were two different corona viruses spreading since the beginning, [just as our initial analysis of the numbers suggested](#) there would be, one far deadlier than the other. They are sticking to their batty story of the origin though—they do not really have a choice. They will never admit they created this monster in a lab.

The two viruses, which we have tracked since January and that probably have been around since November, continue to be evident in the country by country differentials in mortality rates. In the United States, they are evidenced by the far higher death rate in Washington and California (6.16%) versus the rest of the country (0.26%). It was, of course, exasperated by finding its way into a nursing home in Seattle where the death rate is staggering. As for other countries that have large data sets, we can clearly see the differing rates between Italy with over 12,000 cases at 6.4% and Iran at over 10,000 at 4.26% and South Korea on the other end of the spectrum with 7800 cases and a mortality rate of 0.88%. To be perfectly clear, both viruses are in all countries by now, and it is possible for people to get both of them, meaning getting one does not protect someone from getting the other. This comorbidity, at least how it pertains to individual counties is one reason we are seeing many counties, including Spain, France, Japan, the UK, Australia, and the US average in the 2-2.5% morbidity range. Also, to be quite clear, these are not just statistics, but actual people we are talking about. Our prayers need to go out to all of them and their families and communities.

Here is a [link to the study they did](#), showing the original **S** and the more **Lethel** mutation. [And a video about it here.](#)

## The Second Beginning

---

We just read this past Shabbat the **20<sup>th</sup>** Torah portion, the **78-80<sup>th</sup>** chapters of the Torah, which began with the words “**???? ???? (You must command)**” of numerical value **913**, just like the first word of the Torah, *Bereshit*. To serious students of Kabbalah or Torah technology that should set off alarms. To most people who read this portion every year, there is little of interest in the portion, as it is all about the clothing and ornaments of the *Cohanim* (high priests) in the *Mishkan*. For anyone that has not been following this series from its inception, you can find the [entire work here](#).

We know that the first couple words in every portion always have special technology built into them that serves as a core concept for the entire portion. In this case, the concept is “another beginning,” and/or a connection to the original beginning. So, what does this portion have to do such a high concept?

The complete gematria with the *kolel* of “**???? ???? (You must command)**” is **1000**, as in the realm and dimension of *Binah* hyperspace and the primordial *Alef(?)*. This is significant because this portion includes the keys to getting there, hidden among the ornaments of the High Priest.

In the middle of the portion we read about the breastplate (????) in the **112<sup>th</sup>** paragraph of Exodus, aligning it with the **112** Triplets that comprise the 4 Essential Elements (Forces) in our universe. The gematria and energy of the breastplate (????) is **363**, “*H’Moshiach*.” The key is that housed within it are the **42**-Letter Name and the **72** Triplets, and mounted on it are **12** jewels, representing the 12 Tribes, set into a specific 3 x 4 matrix. Like a computer dialed into Heaven, the breastplate (????) could get *Bnei Israel* (????? ??) the answer to any question. The combination of the **42**-Letter Name and the **72** Triplets was not only present at the time of Creation, but was also engraved on Moses’ staff that split the Red Sea into **12** dry pathways, one for each Tribe.

They are also available to us today.

Another word whose numerical value (**363**) is equal to “*H’Moshiach*,” is “Corona (??????),” as in the the virus, whose name is “crown” or a natural aura surrounding a luminous body. The term “Corona virus” is (???? ??????)” in Hebrew with a numerical value (**506**) equal to the first line of the **42**-Letter Name matrix and the **506** times the 14 Triplets in the **42**-Letter Name matrix are found in the Torah. And the ordinal value of “Corona virus (???? ??????)” is **187**, as in the **187** chapters in the Torah. Moreover, the original Chinese name for this coronavirus is SARS CoV – 2 (**2- ??? ????)** and with the *kolel* its numerical value is **358**, *Moshiach*.

---

Why the connections to *Moshiach*? Perhaps it has to do with the adage that we cannot see the Light unless there is darkness.

The appellations for the **42**-Letter Name and the **72** Triplets, as used in conjunction with the breastplate, are the *Urim* and *Thurmim* (???-?????????? ??????-?????????????), which have an odd resemblance to “The Heavens and the Earth” from *Bereshit* 1:1 (??? ??????????????, ?????? ??????????), substituting the word for day “*yom* (???)” for the letter “?” in (?????????) and the letter *Tav* (??) for the letter *Shin* (???) in (?????????????). The gematria value of the *Urim* and *Thurmim* (???-???????????? ??????-?????????????) is **1565**, as in the small gematria of *YHVH* (????), itself indicative of the **26** Triplets in the other two of the **4** Essentials Elements (Forces). When the **112** Triplets of the **4** Essentials Elements (Forces) come together anything is possible.

## The Sons of Man

The Zohar 5:30 for *parsha Noach* speaks about the ‘Sons of Adam (??? ???)’: “From the day that Adam transgressed his Master’s command, all succeeding generations were called ‘sons of Adam.’ But it was not said to praise him, as much as to say, “These are the sons of man who transgressed his Master’s command’.” The gematria of “*Bnei Adam* ‘Sons of Adam (??? ???)’” is **107**, as in the sum of the integers from **1** – **107** that equal **5778**, or **107** years for each of the **54** *parashot* (portions) of the Torah.

The Zohar continues, “But after Noach had appeared, all the descendants of Mankind are called after his name, ‘the generations of Noach.’ And this describes Noach in an honorable sense, because he secured for us permanent existence in the world, in contrast with ‘the generations of Adam,’ which describes us in a dishonorable sense, as he caused us to be driven out of this world by bringing death to all...[and in a later Torah] passage it is written: ‘Hashem came down to see the city and the tower that the children of Adam had built’ (*Bereshit* 11:50.)”

The distinction between “*Bnei Adam* ‘Sons of Adam (??? ???)’” of numerical value **107** and “*Bnei Noach* (?? ???)” of numerical value **120** is important because Adam’s lineage is a linear line of death carved out of spherical line. It is an illusion, yet a very convincing one, but more on the aspects and physics of time will follow in a later article. “*Bnei Noach* (?? ???)” on the other hand come with the blessings of G-d and **120** represents the age of Man. In Genesis 6:30, “My spirit will not continue to judge man forever, since he is nothing but flesh. His days shall be **120** years.”

“*Bnei Adam* (??? ???)” represents a concept of freedom/elevation lost and “*Bnei Noach* (?? ???)” represents the concept of physical life connected to Man. The numerical difference between them, (**120 -107**) = **13**, represents Love and Oneness as previously discussed. It also

represents the **13°** circular shift, which is equivalent to the **54**-unit linear shift between the basic split on the Alef-bet and the Phi(?) split, that we discussed much earlier in this series. Not coincidentally, that product of **107** and **54**, or **5778** equals Phi(?)<sup>18</sup>.

Then there is the phrase “the sons of Israel, *Bnei Israel* (????? ???)” of numerical value 603, which represents the Israelites and the **12** Tribes of Jacob, who received the name “Israel” at the River Jabok, of numerical value **112**, as in the **112** Triplets. *Bnei Israel* (????? ???)” represents the spiritual component of the “*Bnei Noach* (?? ???)” and is thus **5.025** times **120**.

The tree monikers, “*Bnei Adam* ‘Sons of Adam (??? ???),” “*Bnei Noach* (?? ???),” and “*Bnei Israel* (????? ???)” combine in a single equation to give us “The Torah,” in that **(603 + 120) – 107 = 616**, the gematria of “*H'Torah* (?????).”

$$(603 + 120) - 107 = 616$$

$$(Bnei Israel + Bnei Noach) - Bnei Adam = H'Torah$$

$$\left( \text{בני ישראל} \right) + \left( \text{בני נח} \right) - \left( \text{בני אדם} \right) = \left( \text{התורה} \right)$$

What is left at the end of the time limit for “*Bnei Adam* ‘Sons of Adam (??? ???),” is “The Torah.”

The initials of Adam, Noach, and Israel (???) spell the word *Ani*, meaning “I” or “I am”, and usually associated with G-d speaking, have a numerical value of **61**, the same as Covid-19, or **(42 + 19)**. This acronym (???) is also the middle (**37<sup>th</sup>**) Triplet of the **72** Triplets.

The initials of Adam, Noach, and Israel (???) also spell the word *Ayin* (??????), nothingness, as in *Ein Sof* (??? ???), meaning “no end”, “without an end,” and especially the “endless.” What is left at the end of the time limit?

“*Bnei Noach* (?? ???)” and “*Bnei Adam* (??? ???)” = **(120 + 107) = 227**, which is the numerical value of *Ein Sof* (??? ???), whose initials are (??) or **61**.

$$(120 + 107) = 227$$

$$(Bnei Noach + Bnei Adam) =$$

$$\left( \text{בני נח} \right) + \left( \text{בני אדם} \right) = \left( \text{אין סוף} \right)$$

“*Bnei Israel* (????? ???)” - “*Bnei Adam* (??? ???)” = **(603 – 107) = 496**, the numerical value of *Malchut*, the world of physicality, at the other end of *Ein Sof* (??? ???).

The final letters of Adam, Noach, and Israel (???) has a numerical value of **78**, and as the Arizal explains, regarding the Scroll of Esther, the numerical value of megillah (????) scroll is **78**, which is equal to three times the *YHVH* (????). It reveals the three levels of Light that is in *Chokmah*, *Binah* and *Da'at*. It is also the numerical value of “the Flood (????)” that begins with **42(??)**.

## The Secret Formula Grid

As we revealed earlier, the number **1143** stands out with regards to the **72** Triplets. The first row of the **72** Triplets, Triplets **1 – 8** sum to **1143**, leaving **8000** for the rest of the **64** Names, or on average **1000** each. Moreover, the average of the **8** columns or  $9143/8 = 1142.875$  or **1143** again.

1143	1143	1143	1143	1143	1143	1143	1143
כהת	אכא	כלה	מהש	עלם	סיט	ילי	והו
הקם	הרי	מבה	יזל	ההע	לאו	אלד	הזי
זזהו	מלה	ייי	זלך	פהל	לוו	כלי	לאו
ושר	לכב	אום	ריי	שאה	ירת	האא	נתה
ייו	רהע	זזעם	אזי	מזד	כוק	להוז	יזו
מיה	עשל	ערי	סאל	ילה	וול	מיכ	ההה
פוי	מבה	נית	ננא	עבם	הוזש	דזי	והו
מוזי	עזו	יהה	ומב	מצר	הרוז	ייל	זבם
בום	היי	יכמו	ראה	זזכו	איע	מזק	דמב

We know that the separate first row of the **72** Triplets has a value of **1143**, meaning it has an average value per Triplet of  $1143/8 = 142.875$ , which is exactly **1000** less than the average value for the **8** columns, or  $9143/8 = 1142.875$ . Most significantly, **1142.875** obviously rounds up to **1143**, which as the total of the **72** Triplets first row is necessarily a round (whole) number.

Thus, the total of the 1<sup>st</sup> row less the average of the first row = the average of the **8** columns – the average of the first row =  $1143 - 143 = 1000$ .

## A Bit About the Number 127

The number **127** plays prominently in the Torah, the *Megillat Esther*, and number theory. As it happens, the average of each of the **72** Triplets is nearly exactly **127**, or  $9143/72 = 126.986\dots$ . Then there are the **127** years of Sarah's life; the 7<sup>th</sup> Mersenne prime number; the **127** combinations of the **7** words of the Torah's first verse, etc.

We should also note that of those possible **127** combinations, each word was utilized **64** times. Can it possibly be coincidental that the numerical value **127** was utilized exactly **64** times in the Torah, indelibly tying the number **127** to **64**? Or that there is a perfect **8 x 8** or **64** Triplet square within the **72** Names, whose average Triplet is **127**. By the way, the middle Triplet of the **72** Triplets is the 36<sup>th</sup> Triplet whose numerical value is **125**, as in the  $8000/64$  average of the **64**

---

Triplet square, and the middle two triplets (32<sup>nd</sup> and 33<sup>rd</sup>) of the **64** Triplet square have a total value of **42**.

Just so we keep the multi-dimensionality of these Triplets in mind, it is of note that the **36<sup>th</sup>** Triplet of numerical value **125** is **5<sup>3</sup>** and **64** is **4<sup>3</sup>**, which the **72** Triplets or **216** letters is **6<sup>3</sup>**. And the second line of the **42**-Letter Name matrix is **729** or **9<sup>3</sup>**.

The number **127** is also the complete numerical value of *Elohim* (?????), the **3<sup>rd</sup>** word in the Torah and the Name of G-d that corresponds to the (**42**-Letter Name - **72** Triplet Name) axis of the **112** Triplets.

Apropos to the **72** Triplets derived from the **3** consecutive **72**-letter verses of the splitting of the Red Sea, the Log of **127** = **2.10380**, representing the **210** years the Israelites were in Egypt (*Mizra'im*) of numerical value **380**.

The number **127** is also the **31<sup>st</sup>** prime and the **6<sup>th</sup>** prime in the Primeth Recurrence series. Then when we extend the series to the **7<sup>th</sup>** level or **7<sup>th</sup>** prime in it, we have the number **709**, as it turns out is the **127<sup>th</sup>** overall prime, and is equivalent to the sum of the **7** Doubles (???????), which are part of the triple partition of the **22** letters that we learned about from Abraham in his *Sefer Yetzirah*.

There is also the **127**-unit shift from the odd/even split of the *Alef-bet* to the kabbalistic **1/3 – 2/3** split in it. And while the shift from the odd/even split to the Phi(?) split is **13<sup>o</sup>**, the ordinal value of the Torah's first **13** letters is once again **127**.

There is also the mention of the **127** provinces in the first verse of the *Megillat Esther*, and the complete value of the name *Haman* (???): **(95 + 32) = 127**. As an aside, another of the innumerable secrets in the *Megillat Esther* is that the wise trusted adviser to the King who suggested replacing Queen Vashti was Memucan, whose name has the same numerical value as Joseph, Pharaoh's trusted advisor. The incident occurred in the first chapter at the feast for the **7** princes in the **3<sup>rd</sup>** year of the king's reign.

Possibly most important of all is the ratio of the 4-sided square to the inscribed circle, which is **127.3%**

## The Secret Formula

והו	ילי	סיט	עלם	מהש	ללה	אכא	כהת
הזי	אלד	לאו	ההע	יזל	מבה	הרי	הקם
לאו	כלי	לזו	פהל	זלך	יזי	מלה	זזהו
נתה	האא	ירת	שאה	ריי	אום	לכב	ושר
יזזו	להזז	כוק	מנד	אני	זזעם	רהע	יזז
ההה	מיכ	וול	ילה	סאל	ערי	עשל	מיה
והו	דני	הזזש	עמם	ננא	זית	מבה	פוי
זמם	ייל	הרזז	מצר	ומב	יהה	עזו	מוזזי
דמב	מזק	איע	זזבו	ראה	יבמ	היי	מום

So, keeping in mind that the average value for the 8 columns is  $9143/8 = 1142.875$ , when we deduct the average value per Triplet ( $1143/8 = 142.875$ ) from the 8-column average we get  $(1142.875 - 142.875) = 1000$  exactly.

$$\begin{aligned} \sum\sqrt{(1 - 72 \text{ triplets})} &= 720.0349 \\ + \sum\sqrt{(1 - 9 \text{ rows})} &= 280.01882 \\ &= 1000.054 \end{aligned}$$

The value **1000** represents the highest level attainable and it appears to be built into this matrix every which way, including the sum of its square roots at **1000.054**.

Also keep in mind that the **72** Triplets are just one component of the **112** Triplets in the **4** Essential Elements of Creation. There are **40** other Triplets ( $112 - 72 = 40$ ) among the other **3** components.

Every element of the Torah is a clue. We know that there are **401,273** words, letters, verses, rows and columns in the Torah matrix, and that the number **1273** squares the circle. Given the hint of the **40** other Triplets, we can also see that  $(1273 - 1143) = 130$ , the value of Mt Sinai, and of *sulam*, ladder. Extrapolating, we can further see that when the area of the circle is **112**, as in the full **112** Triplets, the area of the square that circumscribes it is  $(1.273 \times 112) = 142.5760$  or **143** yet again. Given that basic relationship between the circle and the square and given the importance of the **112** Triplets, we get the equation:

---

$$1143 - (1.273 \times 112) = 1000.424$$

This formula tells us that the first row of the **72** Triplets, or alternatively the average of its columns (**1143**), less the square of a circle formed by the **112** Triplets equals **1000** or *Keter of Binah*, with the addition of **424**, *Moshiach Ben David*.

Besides just following the clues, why would we square the circle of the **112** Triplets? It goes back to our discussion of wells and towers, primordial male and female forces in harmony, how incommensurate primal forces need to interact to activate the inert fields. This happens on the level of *Binah*.

Squaring the circle of **112** Triplets leads to Freedom, elevation, and *Moshiach*.

As we know, **1000** is also *Alef* (?) and the **112** Triplets form the **4** branches of the *Alef* (?), and **1000.424** is thus **1.424** or **1424**, the numerical value of *Kadosh Kadoshim*, the “Holy of Holies.”

Furthermore, as we saw above, the complete gematria with the *kolel* of “???? ???? (You must command)” is also **1000**, which connected us to the Breastplate of the High Priest and the **4** Elements of Creation, most notably the **42**-Letter Name and the **72** Names.

As the Creator etches the blueprints of the Future Holy Temple onto the Temple Mount, it is all coming together at the right moment. G-d told Abraham, “The fourth generation will return here...”

We have been given all the tools and the ability to consciously align them. The window of opportunity was opened for us at the correct moment, yet with each passing day man walks further and further away, accusing the light and embracing the darkness. For anyone that has not been following this series from its inception, you can find the [entire work here](#).

Please take all necessary and proactive precautions, and use the 42-Letter Name. This pandemic can play itself out or it can stop on a dime. Regardless, who created these coronaviruses, the ultimate Creator can end it at any moment. B"H this tidal wave passes over us with mercy.
