The Ketoret and the Plague

Did Rabbi Shimon warn us about the Corona virus nearly 2000 years ago and more importantly, did he also give us an antidote?

Zohar 12:468: *It is a standing decree before the Holy One, blessed be He that whoever looks at and reads every day the section of the preparation of the ketoret, he is protected from all things evil and sorcery in the world, from mishap, from evil thoughts, from harsh judgment, and from death, and shall not come to harm on that day, for the Other Side may have no power over him... Rabbi Shimon said, if people would know how exalted the concept of the ketoret is before the Holy One, blessed be He, they would take every single word in it and raise it as a **crown** on their head like a **golden crown**...If he concentrates on it every day, he has a portion both in this world and in the World to Come. Death is banished from him and from the world, and he will be protected from prosecution in this world, from the ordeal of Gehenom and from judgment in this world."*

Regarding the incense, or *Ketoret* (????), that has the power to end plagues, [we wrote about this in 2015](#) and it is time to update it with new revelations.

Of all the processes and tools G-d gave to us regarding the Holy Temple and the *Mishkan* (Tabernacle), nothing is more powerful as a protection against the forces of evil than the **11**-incense. In *Vayak'hel*, the *Zohar* Vol. 12:466 tells us that “*whoever smelled the smoke coming from the pillar rising from the smoke raiser, would cleanse his heart totally to worship his Master, and the filth of the Evil Inclination would pass from him...nothing in the world breaks the Other Side except incense... It can revoke sorcery, and evil things at home.*”

The Hidden Incense

We find the word for the **11** incense *Ketoret* (????) hidden **twice** in the **42**-

Letter Name matrix. In Exodus 30:8, after G-d states that Aaron should light the incense **twice** a day, the *ketoret* offering is described as “Thus, for all generations there will be incense before G-d at all times,” indicating it was meant to outlast the presence of the *Mishkan* and Holy Temples.

The first time we find *Ketoret* (????) in the **42**-Letter Name starts with the letters (???) of the 2nd line (??????) in the matrix and continues upward with the letter *Tav* (?) of the first row of the matrix. In this case, the letters in *Ketoret* (????) overlap the name of evil and darkness, *satan* (???), like an antidote, just as the *Zohar* describes. For anyone that has not been following this series from its inception, you can find the [entire work here](#).

Similarly, the second time we find the **11** incense *Ketoret* (????) hidden inside the **42**-Letter Name matrix begins with the *koof*(?) of the 5th line of the matrix and continues upward with the letters (???) of the 4th line. The 5th line of the **42**-Letter Name matrix also contains the first part (??) of the hidden *satan* (???) in the matrix.

Embedding *satan* is like creating an antidote or serum from the venom of the snake that bit you, or from the antibodies from someone who survived an infection. You cannot just defeat your enemy you must recognize him first.

קרנשטן

The smoke from the **11**-incense is known in the Torah as *Ashen* (???) of numerical value **420** (or **10** times **42**), and it too is found sequentially within that same 2nd line (?????) intertwined with the letters in *Ketoret* (????).

↑
בטרצתג
חקבטנע

Surrounding the embedded word for the **11** incense, *Ketoret* (????), are the letter pair (??), which have the numerical value **11**, and they too are repeated twice.

בטרצתג

חקבטנע

Just like the word *Ketoret* (????) and numerical value **11** (??), the word *Ashen* (???), or smoke, is also repeated twice in the **42**-Letter Name.

As explained by Rav Kook, of blessed memory, the *ketoret* linked the material and spiritual realms. As opposed to ordinary smoke, the *ashen* rose straight up, connecting our physical realm with the heavenly, much as the **42**-Letter Name does.

The final column of the **6** column **42**-Letter Name matrix also contains the word for smoke *ashen* (???), within the same first 5 rows that concealed the **2** *Ketoret* (????), the **2** letter pairs (??) equaling **11**, and the **2** *satan* (???) that the incense counteracts. Moreover, the two letters (??) of the **5** final ones of those lines that were not utilized in the word *ashen* (???) have the numerical value of **903**, which is the sum of all the integers from 1 to **42**.

The embedded technology of the smoke from the incense continues rising upward through the first and uppermost line of the **42**-Letter Name, the line associated with the dimension of *Chesed within Zeir Anpin*. This final processing point before our prayers are elevated has the gematria of **506**, and as delineated in [The Genesis Prayer](#), this is also the same numerical value as “Unconditional love,” and it is also the complete gematria value of “*Moshiach Ben David*.” The value **506** also matches up with the **506** times that the **14** triplets that comprise the **42**-Letter Name are found within the Torah, and as recently explained **506** is the numerical value of the term “Corona virus (???? ?????).”

The value **506** also equals the sum of the squares of the integers from 1 to **11**. Thus, we find that just as our prayers, which the **42**-Letter Name has processed through *Zeir Anpin*, are about to rise to the level of *Binah*, they are strengthened through the power of the **11**-incense and are exponentially magnified. This first line is the nexus to *Binah* through *Da’at*, the **11th** *sefira*.

$$1^2 + 2^2 + 3^2 + 4^2 + 5^2 + 6^2 + 7^2 + 8^2 + 9^2 + 10^2 + 11^2 = 506$$

יגלפזק

Just beneath the central letter pair (??) of the **5th** line of the matrix that equals **11**, we find the letter pair *Lamed-Pe* (??) of numerical value **110**, or (**10 x 11**). We have previously discussed how these **2** letters (??) represent the primordial forces (movements) of the vortex and the spiral and represent the *Shofar* with its innate power to confuse the *satan*.

יגלפזק

שקוצית

In the final 7 letters of the 42-Letter Name matrix we find the value 506 two more times. In the same way that we saw the word *ketoret* stretched across two rows, we find that value 506 beginning with letter *koof*(?) on the 6th row continuing with the consecutive (???) of the 7th row. Then in the final or 7th row of the 42-Name Matrix we find that the final 4 letters in the matrix also equal 506, or $(1^2 + 2^2 + 3^2 + 4^2 + 5^2 + 6^2 + 7^2 + 8^2 + 9^2 + 10^2 + 11^2)$.

שקוצית

The total value of the final row, 906, equals the numerical value of "Aaron(????)," the High Priest. It was Aaron who would offer the *Ketoret* (????), or 11 incense, twice a day.

Moreover, cinnamon was one of the 11 spices, and in Hebrew it is spelled cinnamon (???????) giving it has the same gematria value as both Aaron and as the last line of the 42-Letter Name (??? ???).

שקוצית

The altar upon which the incense was placed in the *Mishkan* is called in Hebrew the *Mizbeach* (????) of numerical value 57, the same as the 1st triplet of the 3rd line of the 42-Letter Name matrix (???). Notice how the Triplet (???) is situated just below the words for *ketoret* and smoke (*ashen*) within the matrix.

קרעשטן

נגדיכש

The word *ketoret* means connecting, and the entire 42-Letter Name matrix is designed for us to connect to and elevate to the realm of *Binah* in a safe and pure way.

Aaron's name is the one associated in the Torah with *Moshiach*. We know from

the *tzaddikim* that the deep understanding and use of the **42-Letter Name** will help bring about *Moshiach* in our lifetime, therefore understanding that the *ketoret*, according to the Zohar Vol. 12:470, “creates unity, above and below, so that everything becomes one,” we can further understand why it was indelibly embedded in the **42-Letter Name**, one of the 4 Essential Elements (Forces) of Creation.

It was Rav Brandwein, may his memory be for a blessing, that said, “It is through the understanding of the **42-Letter Name** that we will get the deep understanding to bring about the *geulah* (final redemption).”

Let There Be Light

It started with Creation.

Only 3 verses into the Torah, it states: “God said, “There shall be Light, and the Light came into existence “????????? ??????????, ?????? ?????; ?????????-?????” Rav Brandwein also explained that the final letters in the Torah point to the future. Nothing that, the **4** final letters of “Let there be Light and there was Light (????)” equal **420**, so with the *kolel*, they also equal **424**, the value of *Moshiach Ben David*. Therefore, the future outcome of injecting Light into our world, is both the path of the **42-Letter Name** through all **10** dimensions, and the arrival of *Moshiach Ben David*.

With the final letters of “God said” equaling **240**, all **6** final letters with the *kolel* equal **666**, or the spreading of Light through the *Alef* (**111**) in all **6** directions and dimensions of *Zeir Anpin*.

The two times G-d spoke the word Light (????) have a numerical value of 414, and with the *kolel* for the **6** letters they too equal **420**. The initial 4 letters of “Let there be Light and there was Light (????)” equal **18**, as in Chai, life, and of note is that the square root of **18** is **4.24** 2640... The form of (????) obviously mimics the form of the Tetragrammaton(????) and *Ehyeh* (????). When we spell out the letters in the acronym and Name (????) they add up to $(20 + 111 + 22 + 111) = 264$, as in is a self-referencing 4.24**2640**...

Moreover, the powerful acronym and Name (????) represents two divine elements of Light and two divine elements of being. The two elements of being are composed of the Names YHWH (????) and the **22nd** of the **72** Names (???). This Name (????) is the essence of Creation. These **4** words were the first words spoken by G-d in our Creation. This was before any separation in our realm.

The ordinal value of the **13** letters in “Let there be Light and there was Light” found in Genesis **1:3** is **110**, the value of *Nes* (??), miracle and the back of the letter *Alef* (???). Is there a connection here to the **6th** row of the **42-Letter Name**?

יגלפזק

יגלפזק

יגלפזק

The first letter pair (??) stands for **13** in Hebrew. The second pair(??), as we just discussed, has a value of **110**, while the final pair (??) stands for **107** in Hebrew, as in the sum of the integers from 1 – **107** that equals **5778**.

Each of the repeated phrase in the verse, “Let there be light (????? ????),“ have the gematria of **232**, the same as the **4** aspects of the Tetragrammaton(????), separated by a Vav(?) or conduit. Two verses later, when the first day concludes, we see in Genesis 1:5 that “One day ???? ???? “ has the ordinal value of **42** and the numerical value of **111**, the same as *Alef* (???), giving it a complete value of **153**, and just so the Creator’s signature would not be missed, we find the numerical string **111** used for the **1st** time in Pi at digit #**153**.

The Hidden Cube

As a bridge between our world and the hyperspace dimension of *Binah*, the power of the **42**-Letter Name is virtually unlimited. It is a channel for the Light. We also know it as the **14** (??) Triplets. As we saw in the previous section in this series the **11** Triplets of Creation operate on the level of *Binah*. We have also seen numerous links and intertwining of these two sets of Triplets, these 2 Essential Elements of Creation. One more link is found at the center of the **42**-Name matrix, like crosshairs.

קרעשטן

נגדיכש

בטרצתג

חקבטנע

The numerical value of the central line of the **42**-Letter matrix has a value of **704**. When we combine it with the value of **14**, representing the **14** Triplets, as in the letter pair (??) immediately above it, and with the value of **11**, representing the **11** Triplets, as in the letter pair (??) immediately below it, we get $(704 + 14 + 11) = 729$. The value **729** is special, not just

because it is the value of the 2nd line (??????) of the **42**-Letter Name matrix, which literally means “Tear out *satan*,” but because **729** forms a cube of **9**³ and also a square of **27**². The value **27** is representative of the **27** letters, or force-imprints, in the Hebrew *alef-bet*. It is also **3** cubed (**3**³), a cube formed by the **27** letters.

As an aside, the sum of the square and also cube **27** and cube **729** is **756**, the base measure of the Pyramid. Another square/cube is **64**, which is **4**³ and **8**², and its sum is **72**. The reason these work out this way is that both numbers are powers of **6**, reflecting *Zeir Anpin* and the **6** directions/dimensions. For example, **64** is **2**⁶ and **729** is **3**⁶.

This bringing together of these two Essential Elements in a **3**-dimension cube is significant. As for the other two Essential Elements the **1000** letters of the *Shema* form a cube of **10**³ and the **216** letters of the **72** Names form a cube of **6**³. Together the **3** cubes (**729** + **1000** + **216**) equal **1945** or **1948** with the *kolel*, the date Abraham was born and that Israel became a nation. Even more important is that this cubic structure provides a further clue to the proper integrated arrangement of the **4** Essential Elements (Forces). For anyone that has not been following this series from its inception, you can find the [entire work here](#).

Stay safe, stay healthy, stay strong.

May us all be blessed with good health
