### The Crosshairs

In the previous post in this series we discussed the concealed Star of David within the Magic Cube of **42**, also known as the Merkabah or Bird's Nest. We also discussed the 3 bars that straddle them, all in relation to parallel representations and groupings within the *Alef-bet*. Today, we are adding the vertical, or point-to-point, bars in the 3 *Magen Davids*. These form crosshairs with the horizontal bars. Not surprisingly, those 3 new bars sum to **126** or (**3 x 42**) in their ordinal values with the middle one being **42**. Its exactly the same with the horizontal bars, making the middle crosshairs equal to **42** and **42**.

When we substitute in the Hebrew letters for their ordinal values we get (???), (???), and (???), totaling **15 – 150 – 1500** respectively for the **3** tiers, all **3** multiples of the Name *Yah* (?). The lowest of the **3** tiers has the same value of the highest word value of the Torah (**1500**). This works out to an average of **555** for the **3** of them, just like their counterparts, the horizontal component of the crosshairs. So just like the horizontal bars, the vertical bars within the 3 *Magen Davids* total **1665**, giving us a total for the crosshairs of **3330**. For anyone that has not been following this series from its inception, you can find the [entire work here](#).

Likewise, the sum of each Star of David tier is **666**, **1110**, and **1554** respectively for a total of **3330**.

---

All the dimensions in the mysterious *Magen Davids* and their crosshairs are multiples of the letter *Alef* (???), **111**, including the progression of **15 – 150 – 1500**, or **15 x (1 – 10 – 100)**, which totals **111**, just like the top horizontal bar (???) of numerical value **111**. Given that *Alef* (?) is One(1), we can say that the **3** mysterious *Magen Davids* and their crosshairs are all derivative of One(1), and are all expansions of One(1).

This **3330** is of course, **66.6** jubilee years, and it marks the prophesied stretch of time from the Exodus from Egypt and the reception of the Torah at Mt Sinai in **2448** HC to **5778** HC or alternatively until **5780** HC.

It is, without a doubt, **3330** years since the reception of the Torah at Mt Sinai and the reception of the previously unknown Magic Cube of **42**, the **3<sup>3</sup>** Magic Cube of the **27** Hebrew Letters, also known as the *Merkabah* or Bird's Nest.

Altogether the **3** *Magen Davids* with their respective crosshairs bounded by **6** sides total **6660**. These **3** *Magen Davids* with their crosshairs touch **36** numerical points, **18** on the crosshairs and **18** on the Stars. Now, here is the kicker: The sum of the integers from 1 – **36** is **666**. In terms of the ordinal value of those **36** numbers, they sum to **504**, or (**12 x 42**), which is also

---

**.756756%** of **666**. This also means that **504** is **.666%** of **756**, numbers we have seen repeatedly concerning this Magical Cube.

It states in the Zohar that the Israelites were at the **49<sup>th</sup>** gate of negativity when the Creator woke them up and plucked them out of Egypt, and as the Kabbalists noted years ago, **(49 x 50) = 2450**, akin to the year **2448 HC** or **2450 HC**, depending how you are counting. Therefore, there were **49** jubilee years until the Exodus from Egypt and the reception of the Torah at Mt. Sinai. The **50**-years in a jubilee cycle are based on the **50** Gates of *Binah* and are what we are in the middle of, counting this seven-fold Omer period until Shavuot, the celebration of that reception.

***“The words of the LORD are pure words, as silver tried in a crucible on the earth, refined seven-fold times.” (Psalms 12:7)***

The Zohar also said that had the Israelites not awaken, that would have been the end of them and of all existence, because the **50<sup>th</sup>** gate of negativity is a gate too far to return from.

## **The Target**

It would seem pretty obvious that we too are once again at the **49<sup>th</sup>** gate of negativity. We may not be slaves to the Egyptians, but we are very much slaves. Fortunately, the Creator gave us a roadmap in the Torah. Our forefathers before us did not revolt, there was no revolution fought to free us. With G-d's help, they awoke. And with the work of the Creator, He then plucked them out of Egypt and from the **49<sup>th</sup>** gate of negativity to the **49<sup>th</sup>** Gate of positivity/Understanding, as they crossed the endless sea. Unfortunately, they were too scared to go through the **50<sup>th</sup>** Gate.

When the Israelites stood with the vengeful Egyptians at their backs and a mighty sea, an abyss, in front of them, G-d replied to them, “Why are you crying out to me.” The Zohar explains that is was because they already had the technology in their hands, His technology, all they needed was the faith in it.

As in Egypt, the Titans have a tight grip and a yoke around the necks of the people and the Israelites, yet the chosen ones are still waking them up. If enough of us awaken in time, we too can be plucked out. Read the signs. Remember, **1776 CE** was **1665** plus **111**, and the sum total of the **27** letters in the Bird's Nest is **4995** or **(45 x 111)**.

## **Time and Metallurgy**

One day is One rotation of Earth. One year is One revolution of Earth around the Sun.

We have spoken often about the repeated concept of **1000**, or *Alef* (???) which is *Binah*, built into the Torah, and that **1000** days can be interpreted as **1000** years, etc. We have seen how the **1000** digits of Pi are of special significance and how **1000** is built into the Shema and **72**

---

Triplets, and how it is the numerical difference between the **42**-Letter Name and the Torah's first verse, making the concept of **1000**, kabbalistically representing *Binah*, built into all **4** Essential Elements of Creation. What we have not mentioned before was that given a sidereal year of **365.256** days, **1000** days is **2.73780...** years, **2.73** revolutions around the Sun. As previously explained, the entire solar system is based on the number **273**, and the Magic Cube of **42** is based on the number **378** as the sum of the **27** ordinal values.

The sum of the **3** precious metals (Gold, Silver, and Copper) found at the center of the **72** Triplets and in the Tabernacle is 368.3988, which is exactly **3.1428** more than **365.256**. One year plus Pi. When we add the **4<sup>th</sup>** metallic element of the Torah, Iron, whose atomic number is **26**, we get  $(63.546 + 1078868 + 196.966 + 55.845) = \mathbf{424.244}$ , *Moshiach Ben David* and more.
