## Purim, 5778, and Moshiach

In the Midrash Mishlei 9:2 it is said that in the future time [of *Moshiach*] all the festivals will be annulled except Purim.

They say the Name of G-d (**YHVH**) has been omitted from the *Megilat Esther*, but like the Torah whose sum of *Yud's (Y)*, *Vavs(V)*, and *Heys(H)* total **90,100**, as in the sum of all the positive integers from 1 to **424**, the numerical value of *Mashiach Ben David*, so too do the letter in the Tetragrammaton (**YHVH**) unite within the Book of Ester.

We know all about the connections of the Torah, the Names of G-d, and the prophecies of the *tzaddikim* to year **5778** and the coming of *Moshiach* and the *geula* (final redemption) and we know all about the connection of the primordial mathematical constant that control spiraling growth in the universe, Phi (1.61803399) to **5778**, and that the sum of the letters, verses and words in the Torah is exactly **5<sup>8</sup>** so how astonishing is it the *Megilat Ester* (The Book of Ester) has the same connections.

The sum of the *Yud's (Y)*, *Vavs(V)*, and *Heys(H)* in the *Megilat Esther* is = **(1178 + 1277 + 1116) = 3571 = exactly 5778/Phi** (1.61803399...). So I guess there really was a reason for concealing the Name of G-d (**YHVH**) from the corruption of negative influences. Uncorrupted, the *Megilat Esther*, like the Torah, is imbued with the technology to bring us together at the right time to bring about *Moshiach*.

And while the sum of the letters, verses and words in the Torah is exactly **5<sup>8</sup>**, the sum of the letters, verses and words in the *Megilat Esther* is **3.33558<sup>8</sup>**, with the numerical value of *Mashiach* being **358**. And this is only the beginning...

That **3571 = exactly 5778/Phi** is good because that means that all the YHV's in the scroll of Esther = **Phi<sup>17</sup>** and **17** is the value of *Tov*, good, the last word in the scroll "*Charvonah Tzacur L'tov.*"

And there is a special place in the **10** chapters of the scroll where the **10** sons of Haman are listed and they are separated by **10 "V'Et's" (VET)** each of value **407**, whose square root is **20.17424**, the year **2017 CE**, coupled with , the numerical value of *Mashiach Ben David* (**424**).
