
Shavuot

In 2 days it will be Shavuot and we'll stay up all night to receive the Light of Immortality, the Light of Torah and Mashiach, and how much we receive will depend on where our heads are at, how much work we did to prepare our souls over Pesach and during the 49 days of the counting the Omer prior to Shavuot on the 50th day.

During those 50 days we count and try to purify $50+49+48\dots$ levels or a total of 1225 levels, which is 35 squared.

Last week, we finished reading the 3rd Book of the Torah, Vayikra, whose last two portions, usually read together, have **57-78** verses, as in the year **5778** prophesied by the tzaddikim for the arrival of the light of Moshiach in its entirety. The final two Books of the Torah have **70** verses, which is not only analogous to the **70** years from the birth of the nation of Israel in **5708** to **5778**, but to the **70** years that Adam gave to David (midpoint of his life $70/2 = 35$ in 2889 HC), whose life marked the midpoint from Adam to **5778**.

Now the 4th Book of the Torah, Numbers (Bamidbar), that we just started reading this week begins by telling us that the year is 2450, which just happens to be **2 x 1225**, and the **70** remaining chapters in the Torah (after the **57-78** point is also **2 x 35**).

So why 70? We've answered that previously in terms of the sefira of Da'at and the 7 x 10 sub-sefirot of Zeir Anpin and Malchut, but it was in the **70th** verse in the Torah that G-d punished the snake and told him that he'll eat dust for all the days in his life, meaning that his life was finite. And perhaps its end will be found at **70** years. It was after **70** years of Abraham's life that G-d made his Covenant with him in **2018** (HC), which is analogs to **2018** CE or **5778** HC again. The verse that G-d punished the snake for his part in separating man from the tree-of-life reality was verse Bereshit **3:14**, and as we've explained in other articles and in The Genesis Prayer, when we divide the number 9 by the small gematria of the 42-letter Name of G-d we get:

$$9/123049.. = 73.1415777$$

which is 70 + 3.14... or 70 + Pi

And thus we can see how the 42-Letter Name (Ana B'koach) is integrally connected to this verse, as it is to the first verse of the Torah, and according to the tzaddikim to the geula and Moshiach in **5777-5778**.

Now it just so happens that **73.1415778 = 2 x 36.5708** and while **5708** is the year Israel became a nation, 36 is one more than 35, which was the square root of the total counting of the Omer ($1..50=1225$).

Now while the sum of the integers through **73** is the exact gematria of the Torah's first verse (2701), the sum of the integers through **36** is **666**, as in the **66.6** jubilee years from **2448**, when the Israelites last stood in unity to receive the Torah and the year **5778**.

The hints given to us tell us that by being unified and by utilizing the 42-Letter Name of G-d we can not only count down the last 9 years to the geula but also to the last years of the life of the snake. So when G-d spoke to the snake in Bereshit 3:14, using the same language He uses to speak to Moses, He was considering the period afterward, when the snake (Nachash) of gematria 358 would be no more and Moshiach (also 358) would reign over our consciousness instead.

This weeks portion was also about the counting of the people, who numbered 603,550 and while that is 600,000 plus 3550 or **600,000** plu2 x 1775, which is the value of the 27 letters of the Hebrew Alphabet, the 600,000 Israelites that were at Sinai at the time of the reception of the Torah were descended from the **70** family members accompanying Jacob into Egypt and as the Arizal explains the **600,000** souls came from the **70** members, from the **12** sons from the **3** patriarchs from Adam and

$$600000/70/12/3 = 238.095 = \text{exactly } 1/42$$

And so the unification of the soul reverts back through the 42-Letter Name as it was in the very beginning.

But what makes this so much more necessary now is that **238.095 = exactly the atomic weight of Uranium 238** and as we are all well aware Iran is arming themselves this year with nuclear weapons, North Korea with more testing, and Pakistan with the Taliban only a few miles and a couple political or military blunders away from taking control of their arsenal.

We need to come together now and seek out Moshiach as One.

And please note that while the total numbers of letters in the Torah is compositely **600,000-408**, it is visibly **304,805** and **304805 x .666 = 203,000**.¹³ and while **203** is the gematria of the word Boreh (to create) it's also the first 3 letters in the Torah of **BER**eshit, but for us on Shavuot, what it means is that we can tap into creation through the 7th line of the Ana B'koach, where we find the **Shin, Vav and Tav** of **ShBVAVT**, and where the gematria of the two triplets gives us $500 \times 406 = 203,000$, and the remaining letters add up to **78**, as in the initials of *Etz Chaim*, the Tree-of-life in the year **5778**.

Please use your time on Shavuot to bring about unity and awe of Hashem and please use the videos attached to help you connect to the 42-letter Name.

Please note, these are just the words sung, not the actual mediations, which we hope we can all do together one of these days soon, many of which can be found in [The Genesis Prayer](#) and some others throughout this site.
