
The 70 Nations Are Going Down; The Battle Has Begun

In a brief continuation from [Fish, Fowl, and Nuclear Radiation, Symptoms, Not Signs](#), we'd like to add a couple insights from this week's short 67 verse Torah portion, Tazria, and the corresponding teachings of the Arizal enlightenment.

Binah, the *sefira* (dimension) of understanding, one of the upper 3, has the numerical value **67**, which is the first clue that this portion contains some important hidden "understanding" for us. Let's first note that the portion begins with and is all about the

uncleanliness (spiritual impurity) that resulted from the snake's intimate relations with Eve, which created the separation of Jew and Gentile souls and the admixture of good and evil in Eve's womb. That said, we once again are faced with the battle of good vs evil in the power of the Cohen (*HCHN*) vs the plague (*h'negah*, *HNGA*).

As we said in our ultimate article about the events playing out this year around the world, the symptoms all point to problems in the critical *sefira* of *Yesod of Zeir Anpin*.

On the side of good we have the Cohen(*HCHN*), of standard numerical value **80**, the same as *Yesod* (*YSVD*) gematria, and of complete *gematria sofit* value of **777**, as in **5777 (2017 CE)**.

On the side of evil we have the plague (*NGY*) of numerical value 123 and ordinal value 33 for a complete value of **156**, the same as Joseph whose energy is associated with *Yesod*.

Now, according to the Arizal this battle is played out by the dark angel Samael, who we showed to be connected to the current events, and who is in charge of the supernal princes of the **70** nations, and by Michael, who is guardian of Israel and who presides over the **70** sages of the Great Assembly, corresponding to the **70** souls of Jacob.

The good news is that the word for the Cohen(*HCHN*) is found **57** times in this portion, up to and including the **107th** times this word is used in the Torah, and as we've written about extensively, the sum of all the positive integers through **107** is **5778**. And note that HaCohen is the only word in the Torah tied to the word *Moshiach*, the Messiah.

The word for plague (*negah*, *NGA*) is found **13** times in this portion, and **13** is the numerical value of love, *ahava*. Together the occurrences in this portion of the Cohen(*HCHN*) and plague (*negah*, *NGA*) are found **70** times, connecting this battle to the epic one that has already begun. If we look at the word for plague in this portion with all its prefixes, such "the plague (*HNGA*)" and "and the plague (*VHNGA*), there are **31** more, making **44** in total, as in *Dam*, blood, the first of the 10 Plagues in Egypt.

However, **44** occurrence of "plagues" and **57** of "the Cohen" total **101** together, as in the numerical value of the archangel Michael, the angelic personification of *chesed*, all that is good. What is this plague? The Torah was referring to a condition that

existed only while the Tabernacle and Holy Temple existed. Today it might refer to any number of afflictions. The only thing we know is that Fukushima Daiichi continually spewing toxic radiation into the atmosphere can't be good, and that the fish and bird kills are both symptoms of what ails us and signs that our environment is not healthy.

The Arizal explains that [70 years](#) is the maximum number of

years of suffering that an individual can be decreed. If we extrapolate that to a Nation we see that the Babylonian exile of the Jewish nation lasted exactly [70 years](#) and that the year **5778 (2017-18 ce)** will be the **70th year** of the Israeli nation, formed in **5708 (1948 CE)**.

The upheaval throughout the Mid-East and the dethroning of their rulers is because the **70** supernal princes are falling one by one. As above, so goes below.

The spiritual concept of time is a more spatial one and therefore 7 days, 7 years and 70 years are all cut from the same cloth, so when this portion also speaks about the baby boy transcending the **7** days and being circumcised on the **8th**, the *tzaddikim* understood this to mean the **7 years** of the birth pangs of the Moshiach and the fulfillment of his *brit* (Covenant) in the **8th year**.

7 years from 2011, when the nations started falling, is **2018**, and ironically, it was in **2018**

HC that G-d made His Covenant with Abraham, **70 years** after he was born.
