Many of you will be celebrating an event and lifetime that occurred on Dec **25th** 2000 years ago. Many of you won't. Many of us celebrated the **25th** of Kislev and did our part to bring the light of Moshiach, the messiah, into the world. **All of us, though, are the Sons of Adam.** When the Earth completes **5778** revolutions around the Sun from

the birth of Adam, matching its surface temperature of **5778 K** degrees the gates to the Tree-of-Life reality will open. Some of you have asked kabbalistically why the numbers **5778** and the **107** are connected. It's indisputable in our base **10** mathematics and our **10** dimensional greater universe that the sum of all the positive integers through **107 = 5778**, and that that pattern of summing the integers is important to the structure and composition of the Torah, but what's the underlying spiritual premise?

Yes, we know the spiritual law that nothing is ever lost and that all energy builds on itself and thus one number gets added to another, but what's the connection to our lives?

We are *all* the Sons of Adam. That specific term in Hebrew is *Benei Adam* (**BNY EDM**).

Counting from Adam, when the Earth completes its **5778th** revolution around the Sun, the Sons of Adam (**BNY EDM**), of numerical value **107**, will be able to open the gates the Tree-of-life reality, the world beyond Illusion. All the energy of all the generations will be there. It'll be the year **5778 HC (2018 CE)** and if you do the math, exactly **54** generations will have passed.

That works out to **91** years (equivalent to the unified Name of G-d, **YEHDVNHY**) each for the **26** (**YHVH**) generations to Moses, implying the lineage from Adam to Moses was one with G-d.

Then there were **120** years each for every one since, which may be why the Torah told us Moses lived **120 years** and the [Zohar](#) told us Moses lived in every generation since.

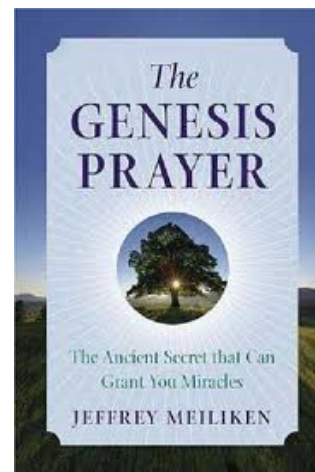

Remember, these are Moses' generations, bases on his lifespan, not ours. We can't blame G-d that we didn't eat healthy enough, live healthy enough, or take good enough care of our environment.

The Sons of Israel are those whose souls descended from Jacob and who the Torah numbers as **600,000**. The "Sons of Israel" in Hebrew is *Benai Israel* (**BNY YShREL**) of numerical value

603, or **611** with the *kolel* for the 8 letters. **611** is the gematria of "Torah" for those who possess the souls of sons of Israel are the followers of the Torah.

There is a 3rd group, the Erev Rav, who will try and interrupt the opening of the gates in **5778**, but more of them in another article.

As for the Sons of Adam (**BNY EDM**), you may have noticed that

their journey, like all Torah journeys is defined by their first and last letters (MB), or **42**, as in the [42-Letter Name of G-d](#). Moreover, what's left is NYED, which does not stand for New York Dept of Education, but does permute to EDNY, Adonai, who is the One who guides their journey. Now you know the secret of **107 (MB and EDNY)**.

And since spiritually every number is inclusive of all that came before it, the Letter Yud is equivalent to 1+2+3..10, or **55**, likewise the letter Hey (**15**), Vav (**21**), and H (**15**), again with the *kolel* for G-d is One (**1**). Thus **YHVH = (55 +15 +21 +15) + 1 = 107**.

As Earth completes its **5778** revolution journey, doing its part in spite of us, and as the Sun burns bright at exactly **5778 K** doing its part to sustain us, in spite of ourselves, ask yourself what you are doing to help your soul complete its **42** part, **5778 year** journey in time to receive the Tree-of-life reality in **5778 (2018 ce)**.

Are we doing our part?
