
The Covenant of Peace; A Date is Revealed

Author : Meiliken

In the Torah portion Pinchas, we find a broken letter *vav*(*V*) in the phrase “The Covenant of Peace,” the reward given to Pinchas by G-d for selflessly stopping the plague with his spear. Last week we revealed a new, yet ancient, and very telling gematria cipher, and when applied to “The Covenant of Peace,” a date is revealed, the same date given to us by Rav Yehuda HaLevi Ashlag and the *tzaddikim* for the *geula* (final redemption).

First, we must note that the Hebrew letters are like holograms in that even a part of them contains the entire image (letter). Thus the broken *vav* (*V*), shaped like Pinchas’ spear, is numerically equal to two *Vavs*(*V, V*). That said, “The Covenant of Peace,” *Et Briti Shalom* (*ET BRYTY ShLVM*) has a total new gematria value **2017** when the *kolel* for the 12 letters is included. The year **2017 CE** is the beginning of the year **5778 HC** that Rav Ashlag and others have given for the revelation of the Tree-of-life reality.

Moreover, if we only consider a singular *vav* in the word Peace (Shalom), in other words, if we consider it as a broken peace, the new gematria reveals the year **2010**, leaving us the **8** years of the *Brit* (covenant) of *Moshiach* (the Messiah, also know as the Prince of Peace) to complete the tumultuous “birthpages of Moshiach,” as the sages and prophets have described it in **5778**. In the next few days, we’ll also reveal how a revered representation of that same spear in Washington D.C. reveals this same date, but by a different and no less telling method. And also how the **42** letters of the Tree-of-life’s **10** sefirot (dimensions) also give us the date **2017**.

Shabbat Shalom
