
The House of David; The Tide has Turned

From this weeks' portion, *Tetzaveh*, **Exodus 28:2 "And you shall make holy garments for your brother, Aaron, for splendor and beauty."**

The Torah instructs the High Priest to wear **8** garments, **4** of white linen and **4** containing gold. The Hebrew words for "for splendor is 'L'*kavod*' of numerical value **62** and for "for beauty is *tiferet* of numerical value **1111**. Without the prefixes (*L*) and subtracting the *kolel* for the **2** words, splendor and beauty together = **1111**.

Thus through the singular construct **1111** and the **4** ones(1), the Torah is hinting at a unification. Similarly, the two *Lameds* (*L*) with the *kolel* of **2** = **62**, so through the two references to the number **62**, this verse and thus the set of **8** holy garments are linked back to the **10** Utterances with their numerous connections to the number **62** and *keter* (**620**), as we've previously discussed in depth. And by the way, $620/8 = 77.5$, a numerographic representation of **5778** backwards.

Please note further that the letter *alef* of numerical value **1**, when spelled out is **111** and thus **10 x alef (111) = 1110**, add the *kolel* (**1**) and we have **1111**.

And we know from Rabbi Chaim Ben Attar of blessed memory as discussed in his *Ohr HaChaim* that this unification is of the Tetragrammaton *YHVH* and *Adonai*, (*EDNY*), each of which have **4** letters to match the **4** and **4** sets of clothes. He quotes from the *Tikunei Zohar*: "The four golden garments are an allusion to the four letters in the name *Havayah* [*YHVH*], whereas the four white linen garments are an allusion to the four letters in G-d's name *Ado-nai*. [*EDNY*]" Since the *YHVH* is *Zeir Anpin* (the bundled 6 dimensions of Heaven), and *Tiferet* also represents *Zeir Anpin* there's no mistaking which attribute pertains to which set of clothes. Together, as discussed in previous blogs, *YHVH* and *EDNY* combine to form *YEHDVNHY* of numerical value **91**, the same as *amen*.

If we take the spelled out value of the 12 letters in *Adonai* (*ELP-DLT-NVN-YVD*) along with their *kolel* we get 683 and if then them add *the aspect of the YHVH at the level of Zeir Anpin (Mah)*, which is (*YVD HE VEV HE*) of value **45**, we get **728**, which appropriately is **8 x 91**.

But what's significant for us is that the **8** garments represent the all-important unification that causes our prayers to ascend when *amen* is said is reply to a blessing. This is what helped the High Priest to obtain atonement for the people. And Aaron, the only person in the Torah whose name was linked with the word *Moshiach*, was the first to wear these **8** garments and was "The One" the Torah specifically said they should be made for. And we should also note that the breastplate that the magical Aaron wore, and that contained all the **42**-Letter name of G-d inside and all the answers in the universe in Hebrew is *Choshen*, of numerical value **358**, the same as *Moshiach*.

There is deep understanding here.

Moreover, we know from *The Divine Calendar* that nearly all the significant Biblical dates end in **8** and all include the number **8**, including **2018 CE** and **5778 HC**. We also know that the midpoint in King David's life, **2889 HC** is also the midpoint in the divine calendar from Adam to

Moshiach (the messiah) in **5778**. We can now understand why: within the **8**'s is the holy unification.

This holy unification, according to the *Zohar*, is hinted at in the first word (*V'ahat*) of this weeks portion *Tetzaveh*. Rabbi Shimon of blessed memory and the the *Zohar* further discuss that the unification is the union of *Zeir Anpin and Malchut* that occurred while the 2 Holy Temples stood and that must occur again in the end of days.

The verse above, Exodus **28:2** refers to 4 garments made of gold and the word for "gold" in Hebrew has the same numerical value as the name David, **14**, or **28/2**. And when we spell out the name David (*DVD*) we get the **8** letters *DLT VV DLT*, which adds up to $434 + 12 + 434 = \mathbf{880}$, and with the *kolel*, it totals **888**.

Likewise, the first two 7-letter columns of the **42** Letter name of G-d matrix add up to **888**. The first column is **471** and the second one is **417** and thus $\mathbf{417 + 471 = 888}$. The second column though, **417**, can be added with its *kolel* for the **7** letters to get $\mathbf{417 + 7 = 424}$, the numerical value of *Mashiach Ben David*.

There were Two Holy Temples and the two Houses/Temples, *Be'it (BYT)* and *Be'it (BYT)* each have the gematria value of **412** and $\mathbf{2 \times 412 = 824}$ and when we add the *kolel* for the 6 letters and the 2 words we get $\mathbf{824 + 8 = 832}$, as in **832 BCE (3338 HC)**, when the First Holy Temple was destroyed. The number **832** also represents the time frame that both temples stood, **410** and **422** years respectively, which means that the 2 Holy Temples stood for almost exactly **1/4** (24.99%) of the **3330** years (**66.6** jubilees years between the giving of the **10** Utterances (Commandments) and the Torah at Mt Sinai and the year the *tzaddikim* have said *H'Moshiach* (the Messiah) will arrive in **5778**.

In **3338**, the Holy Temple was destroyed, setting up the 2nd exile, the **70** years of force rule in Babylonia, but all things in the ancient calendar have their counterpart in the modern one and in **3/3/38** the first oil well was discovered in Saudi Arabia, setting up **70** years of Arab fortune at the expense of Israel and the Jews. Those **70** years ended in **2008**, when the price of oil sank **72%** and the Saudi investments in Citibank sank even more, along with much more Arab investment and influence around the world.

Something spiritual snapped in **2008**, the supernal ministers had changed and by January 2009, Israel was once again able to fight and defend itself with the strength and protection from above with a massively successful incursion against Hamas and with a lopsided victory not seen in years. Instead of videos of Israelis committing what the world called atrocities against the Palestinians, what came out of Gaza were stories of Rachel Amenu warning and saving Israeli soldiers.

The year **1938** brought more than just good fortune and free wealth to the Arab and Persian kingdoms, it brought Kristalnacht as well, the kick-off campaign of the Nazi's that quickly escalated into the holocaust. That date was **11/09/38** and the square root of **110938** is **333.0** as in the **3330** years from **2448**, we received the Torah at Sinai to **5778** when we are supposed to receive *H'Mashiach*. But as the rest of the world writes it with the day first month second, that date was **9/11**. And whether this is coincidence or not, the midpoint in David's life and in the divine calendar less the spelled out numerical value of David is $\mathbf{2889 - 888 = 2001}$, as in **9/11/2001**

With the shift in the supernal ministries came a new president of the US, the **44th**, as in $\mathbf{4 + 4 = 8}$ and $\mathbf{44 = 88/2}$. And while that is nothing more than a sign for the moment, the shift also brought the forced-by-circumstances confession of Bernie Madoff And even though many of us found ourselves wiped out by him, the truth is they already were, just not on paper yet. With the shifting of the supernal ministers, the internal hemorrhaging finally stopped; Instead of \$50

Billion, it could have been \$100 billion stolen.

This is not to say that the markets in general won't continue to decline and that chaos won't continue to spread throughout all sectors of the world and life, because they will, but certain elements of the world society will B"H no longer enjoy the protection from above that they once did, and others who repeatedly fell victim to them, B"H will no longer be so vulnerable.

The tide has turned. The Sea (*H'YM*) when spelled out has the numerical value of **666** and the **66.6** jubilee years are almost up.

With the major shift already occurring after the first **70**-year period of the final **80**, let's see what the last **10** years will bring. The last time around, Ezra brought home the Jews to Israel, reestablished Torah study and prayer, and rebuilt the Holy Temple, which stood for another **422** years, with **422** being the numerical value for the word "seventy"

The 2nd part of the spelled out word *Be'it* is *YVD TV* = **426-2 (kolel) = 424**

So if we add the letters in House of David (*Beit M'David*) spelled out we get **838 + 80 + 880 = 1798 + 18** (letters) and **2** (words) = **1818**, which as we've discussed in a previous blog was what Rav Abraham Azulai of blessed memory pointed out in *Chesed L'Avraham* to be the 3rd iteration of the spelled-out letter *Alef*. This was the same book in which he fingered the year **5760** for the beginning of the final **18** year period.

And let's not forget the part America play in G-d's plans as **2 x 888 = 1776**, America's birth date. And **888/44**, as in our **44th** President = **2018.18**

Give Obama credit. He stepped up to the plate. Things are not going as he planned, nor as his supporters planned. And they won't. The ministers have changed; the playing field has shifted along with them.

Everyone plays a part. With the change in the tide, our part will get easier. But if we choose to ignore our role...

We must step up too.

G-d speaks to Moses and in the first two words of this portion, He says to him, *V'atah Tetzaveh*, (*VETH TZVH*), "And You must Command". And while the gematria value of *Tetzaveh* is **501**, the same as Barack Hussein Obama, and the value of the second word (*v'atah*) is the same as *Be'it*, (house or Temple, **412**), the value of both words is **913**, the same as *Bereshit*, "In the Beginning).

It is a new beginning. It's up to us to build the *right* house.
