
The Nations: What delayed the Messiah? And Who made the prophecies of 5760 and of 2012?

Author : Meiliken

Date : 08-12-2008

When will the Messiah (Moshiach) come? And What did the Golden Calf incident have to do with the delay? And what ever happened to that prophecy of His arrival in 5760?

???? ??? ?? ??? ??? ????? ?? ??? ????? ??? ?? ?????

Exodus (*Shmot*) 32:1 ... *When the nation saw that Moshe delayed to come down from the mountain, the people assembled about Aaron and said to him...*

H'Am, the nation, is referred to by the Zohar as the *erev rav*, the force of so-called converts who derive their power from Amalek and have always sought to undermine the power of the Jews (Israelites) to bring *Mashiach*, the Messiah. The numerical value of *H'Am* (???) is **115**, and **115** jubilee (50-year intervals) is 5750, the year that Israel celebrated its **42**nd year, which was **28** years before the prophesied date for the *Geula*, the arrival of *Mashiach* and the End of Days. Those familiar with *The Genesis Prayer* and this blog know that **28** is intimately connected with the year **5778**, the construction of the Torah, and that the first **28** letters of the Torah is the link between the **42**-Letter Name, the Torah, and Creation.

Before we look deeper into the process lets examine the word *H'Am* (???), comprised of a final *Mem* of value **40**, and **2** letters, representative of the *Mem-bet*, or **42**, the Name of G-d that *chazal* has told us will bring about the *geula*, the final redemption and thus the end of our collective **42** -step journey.

Moreover, the *Ayin*, of value **70**, hints to the age of Israel in the prophesied date of **5778**, while the other 2 letters, *hey* (5) and *mem* (40) add up to **45**, the numerical value of Adam (**EDM**), which as we've explained in other post, is known to represent **Adam-David-Mashiach**.

Moreover, the numerical value of the spelled out letters **EDM** from **Adam-David-Mashiach** is **111 + 434 + 80 = 625**, which is not only the numerical value of *H'Keter*, "the crown and highest possible level (*sefira*), but the number **625** is also the exact square root of the total number of words, verses and letters in the Torah combined (**390,625**), which in itself graphically depicts, *H'Keter*, (**625**) crowning Heaven (*Shama'im*, **390**).

Nevertheless, the numerical values for the phrase "Adam, David and Mashiach" plus 1 for the *kolel* add up to **45 + 14 + 364 + 1 = 424**, the numerical value of *Mashiach Ben David*.

And we know from the Zohar that the *ayin* (?) of numerical value **70** in *H'Am* (???) is not without purpose because there are **70** nations in total from which holy sparks must be raised in order to bring about *H'Mashiach*, corresponding to the last **70** years from Israel receiving statehood in **5708** to the year **5778**, and to the **70** years of King David's life. As you can and should read in *The Divine Calendar*, this also relates to the destruction of the First Holy Temple in **422** BCE and to that of the the Second Temple in **70** CE. And most significantly, the word seventy (**70**) has the numerical value of **422** and the sum of the Names (or 3 aspects, points in time) of Adam, David and *H'Mahsiach* is **45 + 14 + 363 = 422**.

Why do we refer to these 3 aspects of the messiah as 3 points in time?

In the divine calendar of **5778** years from Adam to *Moshiach*, the midpoint is marked by the exact midpoint in King David's life, **2889** HC.

The *gematria atbash* reveals yet another clue about the *H'Am* (???) and the eventual connection to **5778** in that when we use this reverse alphabet cipher the word *H'AM* becomes (Z'TzY) which has a numerical value of **107**, which corresponds to the sum of all the integers (spiritually, the sum of the collective memory) from 1 to **107**, which is exactly **5778**. And probably not so coincidentally, if we add both the regular and the atbash gematria of *H'AM* we get **115 + 107 = 222**, which is also the same as the spelled out *gematria milui* value of the **3** letters in *H'AM* less the *kolel* for the **3** letters, or **15 + 130 + 80 - 3 = 222**. Moreover, **6000 - 222 = 5778**.

Why 6000?

In this verse, the Torah uses the word ??? "boshesh; delayed" which can also be read, "beshesh; at the sixth." Nearly all the assorted messianic prophesies point to the sixth millennium, and there's no argument with that, especially as **2 + 2 + 2 = 6** and we know that the nations couldn't wait **6** more hours for Moses to return with the first set of Holy tablets from Mt Sinai.

Thanks to the *Sefer Chesed Le'Avraham* by Rav Avraham Azulai, zs'kl, there was much speculation that *H'Mashiach* would arrive in **5760 (2000 CE)**. And he did in a sense, as the value of the word *chai* (**18**) in the phrase *Mashiach chai* (the Messiah lives) indicates that he will live **18** years from **5760** until **5778**, but that will all be revealed in time.

Rav Avraham Azulai, zs'kl, used the calculation of the size of a *mikve*, **40 seah**, which is equivalent to **5760** eggs to determine the date **5760**. Now, the *erev rav* have always thrived by spreading doubt, and doubt in Hebrew has the numerical value of **240**, the same as *Amalek* (AMLK), which not insignificantly contains the word for nation (AM) and adds LK, of numerical value **130**, the same as Sinai, where the doubt was sewn **6** hours before Moses' arrival and the golden calf was constructed.

If we reverse we the initial letters in the phrase *40 Seah*, or *Mem Seah*, we get *Samech Meah* or *60 Meah*, which is **60 hundred**, which is **6000** as in the **6000 years of the 6th millenium**. which corresponds to the *Shesh* in ??? "boshesh.

But what does doubt have to do with 5760?

The value **5760** can be derived from the equation **240 x 24 = 5760** and also from **6000 - 240 = 5760**. Since **24** is the value of *cad*, a vessel, and **240** is the value of *Amelak* and doubt, we see that **5760** HC is the year of *Amelak*, which has always been spiritually and historically the scourge of the Jews (Israelites).

From the word *H'Am* (???), when the letters *hey* and *mem* are spelled out we get **15 + 80 = 95**, the numerical value of "The King" and *ayin* spelled out is **130**, that of Sinai, thus indicating that the King was at Sinai, but as we've seen the doubt spread by the *erev rav* impeded them from receiving Him. The message in all this is that we cannot let the *erev rav* from impeding us from receiving Him this time. We were giving **18** years, **6 + 6 + 6** years to overcome the *erev rav* and the doubts within ourselves in order to receive *H'Mashiach* in **5778**. That is **66.6** jubilee years from **2448** HC, the last chance we got, when for the lack of **6** hours patience and certainty we had to wait another **3330** years for the next and final opportunity.

What about the prophesied year 2012 CE?

Since there are **18** years from the year **2000 to 2018**, **2012 is 2/3 or .666** of the way in the final journey. And while the Mayan calendar resets in the year **2012 CE** for another cycle it doesn't actually end, but many of the nations have latched onto that as a date for the end of days. Now, while we're in the period of *Gog V M'gog*, not accidentally of numerical value **70**, which began in **5760 (2000 CE)**, and while we're experiencing ever more difficult times, they won't end in **2012** and the Messianic age won't begin in **2012**. But what will occur, is a deeper sense of doubt and disillusion as yet another supposed date for the Messiah comes and goes. Don't get fooled by Amalek; there's no Biblical context, no Bible code for the year **2012**; it's one more

illusion, and *mashiach* consciousness is all about seeing past the illusions of what we call reality.

How do we know we'll get 2 opportunities?

The word *H'AM* is repeated twice in this verse, meaning we will have to confront the nations (*erev rav/Amalek*) twice, or once more in order to reach *Mashiach* consciousness.

And the **bet** (?), meaning **2 or second**, of ??? "boshesh (delayed) indicates that the delay of the **6** hours led to the delay into the **sixth millennium** and **2nd** opportunity for us to unite as one as we were in Adam, the embodiment of *Mashiach* before the original sin.

Doubt that? Multiply the values of each of the letters in ??? "boshesh (delayed) and take the square root to find its essence and what do you get? $300 \times 300 \times 2 = 180,000$ and its square root is **424.2640**. Since **424** is the numerical value of *Mashiach Ben David*, and **26** is that of the Tetragrammaton (YHVH), and **40** is both the Biblical number for "coming of age" and also the number of years that those at Mt Sinai had to wait to enter the promised land because of the golden calf incident, It's pretty obvious what was missed and what got delayed.

Why did they turn to Aaron?

"the people assembled about Aaron..."

Amalek surrounded Aaron because Aaron is the link to *Moshiach*. The only name in the Torah linked to *Mashiach* is Aaron. And the exact words "about Aaron" (AL EHRN) have the numerical value, when the *kolel* is added for the two words, of $100 + 256 + 2 = 358$, which is that of *Mashiach*.

The gold was put into his hands, to give life to the golden calf, which has the numerical value of **108**, thus 1 more than **107**, and thus covering up the revelations of **5778** until now. And from the nations, *Mashiach* will emerge. There was much technology that went into the plot to undermine Aaron and the Israelites, and one part of that was that *gold, hand* and also *David* all have the numerical value of **14**, linking them all to the negative action of the gold being put into Aaron's hand.

Think not? Then explain why the **12** words of the verse add up to 2865 and when we add the *kolel* for the **12** words twice for each period we'd have to wait, or alternatively the value **14**, the value of David (gold and/or hand) plus **10** for the **10** Commandments we were supposed to have received that day, we get **2889** HC, **the midpoint in David's life and the midpoint from Adam to Moshiach.**

And what will happen in 5778, 2018 CE?

If we turn to Exodus (Shmot) **20:18** for a clue, we find that in referring to *H'Am*, the people (nation, *erev rav*) it says, "The people kept their distance while Moses entered the mist where the Divine was [revealed]."

And so they shall keep their distance. Distance in kabbalistic spirituality means "dissimilarity" of form, thus the chaff will be separated from the wheat. The peoples (nations) couldn't see into the mist because the mist represents a reality beyond their comprehension; it's the tree-of-life reality. When Moses (*Mashiach*) emerges in **5778 (2018 CE)** the divine will be revealed to all who have awakened to the Messiah consciousness, and only to those. B"H everyone will awaken.
