# The Two Hands of G-d

**Author :** Meiliken

**Date :** 28-12-2017

The first time the word hand (??) is written in the Torah is when the progenitor of King David and thus Mashiach is born. The 11th of the **28** times referenced the Hand on G-d's Throne, then the passage continues saying that G-d will be at war with Amalek for all generations ( ????? ???? ), which decodes with gematria to "From **408**." It is not a coincidence that the Zohar repeatedly speaks of the **408** years of troubles leading up to the time of *Moshiach*, or that the Torah is exactly **408** component letters shy of a complete **600,000**, the log of which is **5.778**. The Zohar tells us that the word hand (??) is actually the Name Hand(??), coinciding with the Name David (???), also of numerical value **14**. The two Hands are always combined within the Tertagrammaton (????), which is mercy, through the two *Heisi*(??) that are each composed of the letters *Dalet* and *Yud* (??). "From these Two Hands, the heaven and earth were created, and all that is with them."

????????????

There are **10** primordial or component letters that existed in the world of Tohu, even before the primordial *Aleph* (?) that is *Binah*. They are : ? : ? : ? : ? : ? : ? : ? : ? : ? : ? . Of them, the **1st** and **4th** spell the Name Hand (??) of numerical value **14**. There are innumerable secrets to these **10** letters and following the guidance of Abraham's *Sefer Yetzirah*, we line them up **5** on one side, **5** on the other and cleave them in half. The initial light revealed by this cleaving in two is that their numerical total, **1557** divided by **2** is **778.5**, an allusion to the frame of **5778** years that existed long before time existed. That initial light also shines from the sum of the **5** letters (: ? : ? : ? : ?), whose sum is **77**; and whose sum of their square roots is **10** times the square root of **3** or **10 $\sqrt{3}$** ; and whose sum of their squares is **2701**, the numerical value of the **28** letters of the Torah's first verse. The sum of the squares of the other 5 component letters is 784,000 or **28<sup>2</sup> x 1000**. That **28<sup>2</sup>** is (**1000 – 216**) is another indication that the two (**2**) hands are full of mercy without the judgements, which is *gevura* (**216**).

????????????, ?????? ??????????, ??? ?????????????, ?????? ?????????.

**In the beginning God created the heaven and the earth.**

Two (**2**) Hands, **5** fingers on each hand, that created Heaven and Earth. It is not for nothing that of all Patriarchal names, only David's (???) is comprised wholly of the primordial **10** letters. More to follow....
