
What We Need is a Leader!

We need a leader. What does a leader do?

Provide direction. What direction are we going now? Anyone know?

That's why we need a leader.

There have been several great Patriarchs and numerous great *tzaddikim* (righteous souls) but only **3 leaders** in Biblical history that the kabbalists have connected to the Messiah and the final redemption: Yosef (Joseph), Moshe (Moses) and King David.

The front pages of today's papers show Israeli soldiers dragging Israelis from their homes. Three days after **173** people were killed in **MumBai** and devout Jews were massacred in their home. Is this direction? What message is being sent to the world? To the spiritual world?

Can anyone think that giving up the entrance to the Cave and the Home of the Patriarchs (*Machpelah*) will bring peace to Israel, to the world. What spiritual message is that sending?

Can anyone think that giving most of Israel to the Palestine's will solve the problems of the disgruntled masses throughout Arabia or their monarchies who need scapegoats? What about Iran; do they really care if Palestine is a state?

Can anyone think that giving away Israeli land and homes will bring peace to Israel, the world? How egocentric is that thought? It's saying that all the world's problems and anger are based on whether you possess a plot of land or not. Do you really think there would be peace in the world, in the mid-east, if Israel gave away everything and ceased to exist? Of course not.

People fight all over the world over every little thing whether there are Jews present or not. And they fought fierce devastating battles all over the world for the **5708** Biblical years before Israel had any land at all. Giving up the land is NOT the answer.

Peace will never come from giving up land. It will come from giving up ego.

Peace will never come from Jews fighting (arguing with) Jews. It will come from unity.

Why is peace so hard to come by? Because it is so hard to forgo our egos and unify.

We all have our opinions, but until we all realize that they are irrelevant. If you're angry right now with that statement, that is ego, and that is exactly what we all need to cut out of ourselves.

Because that means that we value our individual opinions more than peace, more than *Mashiach* (Messiah) consciousness.

That's why we need a leader. We need someone to rally around and whose opinions we follow without trying to bring him down by opposing him with our own.

That Israel was granted statehood and land in **1948 CE**, **70** years before the prophesied date of the *Mashiach* and the *Geula*, the final redemption in **2018 (5778)** was no fluke. It was divinely arranged. As can be read and should be read in *The Divine Calendar*, Abraham was born in **1948 HC** and G-d made his Covenant with Abraham in **2018 HC**, and the midpoint of King David's **70** year life was in **2889 HC**, the midpoint from Adam to Messiah in **5778**.

We, our generation, have been given the right (not a foregone conclusion) to enter Zion. Moses prayer **515** times, every hour from Rosh Hashannah to Hoshanna Rabba for that right. G-d asked him to stop because on the **516th** time his wish would have been granted. But that wasn't the timing G-d wanted. **66.6** jubilee years ago in **2448 HC**, we proved we weren't ready during

Moses **40** day absence. What does that say about our ability to succeed without a leader. He was gone for only **40** days.

Here is a secret about Rosh Hashannah and also about that absence and what was missing: Rosh Hashannah (RESh HShNH), the head of the year (you can see the blog on *the letters and cosmos* as to why it is the head of the year) can be split up into (REShH ShNH), making the numerical value **506** and the second word as *Shanah*, year. The value **506** is synonymous with *Ahavatchinam*, "Unconditional Love" and is not only the value of the first line of the **42**-Letter Name (*Ana B'koach*), but a value repeated **3** times in it's last **7** letters. The hidden measure is Rosh Hashannah is the moment in the cosmic calendar that we can tap into "Unconditional Love." The other message for those that want to know, is that that cosmic energy is available to us whenever we do the the *Ana B'koach* with the conviction we bring to Rosh Hashannah. Incidentally, most kabbalists agree that the **42**-Letter Name was what the high priest recited in the Holy of Holies.

Now, the other secret here is in the **40** days. In order for the Messiah to be present, the comsos must be properly aligned, which mean all **3** primordial letters (energy archetypes) must be present, and as per the *Sefer Yetzirah*, Abraham's Book of Formation, these are the **3** Mothers: *Alef*, *Mem*, *Shin* (EMSh). In the year **2448**, on Rosh Hashannah, **RESh HShNH**, the *Alef* (E) and *Shin* (Sh), only the *Mem* was missing. Moshe himself, embodied and carried the spiritual energy of the primordial letter *Mem*, spelled (MM), and *mem* has the numerical value of **40**, so if the Israelites had waited **40** days, and Moshe would have appeared as scheduled the *Mem* would have been complete and the **3** Mothers (EMSh) would have been cosmically aligned. The first *Mem* would have gone to *Rosh REShM*, making a numerical value of **541**, Israel, and incidentally that would have lined up the **7** Doubles (BGDCPRT) as well, but that's for another blog).

And the second *Mem* would have gone to HShNH, making **MHNSH** or (**MHSh N**), or (**HShM**, N), or (**MShH,N**). The secrets here are multiple, as the numerical value of these 4 letters is **395**, that of H'Shama'im, (Heaven) and the letters MShH spell Moshe (Moses), and permute into *Hashem* (HShM) and also the **5th** of the **72** Names (triplets), the one for healing, **MHSh**. Moreover, the letter *Nun* (N) has the numerical value of **50**, representing the **50** Gates of *Binah* (understanding) that the we will reach when Mashiach arrives and that Moses was at and only 1 hour short on that **50th** day from the 1st of *Elul* (*Rosh Chodesh Elul*) to Hoshannah Rabba. And if you recall, it was on the 1st of *Elul* that Moses ascended for the 2nd set of Tablets. And one more secret embedded here is that the **3** non-primordial letters spell H'NR, "The Candle." It was the Light in the darkness that we missed then. All it took that time was one more candle.

In another vein, the kabbalistic secret is that the numerical values for Yosef (Joseph), Moshe (Moses) and David add up to **156 + 345 + 14 = 515**. It will take **1** more leader to reach **516**. Another kabbalah secret, or Bible code is you will, is that the final letters of Torah phrases point to the future, and we must add **1** more to the final letters of Yosef (Joseph), Moshe (Moses) and David (**PHD**) to get the value of King (*Melech*), of numerical value 90. In the same way, if we replace David with the appellation King David, it still takes exactly **1** more to get 611, the numerical value of **Torah**.

Anyway you look at it we need **1** more, an *alef*, the leader to get where we want to go. The *alef* stands for **Adam** (**EDM**), in the **Adam-David-Mashiach**, but we're not expecting Adam to come back; rather, we're expected to reunite back as one soul as we were in Adam. One (**1**) stands for one (**1**) soul united. And we can't unite unless we have one (**1**) leader to get behind. And that leader won't appear unless we set aside our egos, personal agendas and desires and make a space (*makom*) for the Messiah (*H'Mashiach*) to enter.

Collectively the **3** leaders lived exactly **300** years, **6** jubilee years, which means we've been more or less direction-less for 5478 years, and **3330** since the giving of the Torah. Patriarchs, Prophets, Rabbis, and even some important Kings have filled in many of the gaps, and Torah has sustained us throughout, but now, more than ever, we a leader for the final push to the end of darkness, which incidentally has the numerical value of **333**.

300 is the gematria for various Names of G-d (YHVH, Elohim, etc) in multiple way but we don't need proof of Yosef's, Moshe's or David's divine empowerment; what we need is a leader for the next **9** years, a period that promises to be full of turmoil and darkness. We don't have a lot of time. Let's all make the effort to make the space for the Messiah.

The final letters of Adam-David-Mashiach (**MDCh**) sum to, alternatively, **52**, signifying *Malchut*, our world, physicality, and **612**, using *sofit*/final letter gematria), which is the numerical value of *Brit*, Covenant. The Covenant is meant to be fulfilled. And we know when. Who it gets fulfilled for depends on our actions in the physical world, not how much we pray. It can be for everyone, but only if we're united. To unite, we must individually make the choice and vow that this is what we really want. Then we must set our egos aside and let the Messiah in.

If we continue thinking only about ourselves, we will get what we desire, total chaos, darkness. When you add light (Or) to darkness, you get $207 + 333 = 540$. Add **1** and you get **541**, Israel. But add "the Light" (H'Or) to darkness, and you get $212 + 333 = 545$. Add **1** and you get **546**, the Tree-of-Life.

Once we decide that that is what we really want we will get it. We will get our leader.

Make space in your hearts, yes, but even more important, make space in your lives for the One (**1**).

And once we give up the ego and the personal agendas, they won't want the land. The entire world listened to Joseph. Four times as many people from other nations followed Moses than there were Israelites with him. And because of David we had the Holy Temple, and as the Zohar describes, him, David was *Rosh Goyim*, head of all the nations. They won't desire the land anymore; they will desire the Light, the Messiah.

B"H we find the strength within us to make room for *H'Mashiach*.
