## When Will We Reach Keter for the 3rd Time? Simple Gematria Provides the Answer.

**Author :** Meiliken

**Date :** 27-02-2011

*Keter* is the summit of true reality, the point where all the veils and illusions have been drawn back and the light of Hashem shines unfiltered. It's where we and He are One. The first time man stood in the light of *keter* (the crowning *sefirot*/dimension), the highest level of

existence, spiritual and otherwise, attainable was before the original sin in the Garden of Eden.

The second time was 2448 years later when the Ten Commandments were given. But on the **39th** day the golden calf was created and we fell for the 2nd time, all the way back to square one.

There are **42** letters in the spelling of the names of the *sefirot*, corresponding with the **42** paths of the Tree-of-life, which [R' Chaim Vital](#) of blessed memory connects with the **42-letter Name**. The name *Keter* (**CTR**) comprises the uppermost **3** letters of the **42**, meaning that because the Israelites couldn't wait 1 more day--actually just the last 6 hours of that day--for Moses to return as promised, they paused at the gates of *Keter* (**CTR**) and as we know it all game crashing down, everything shattering along with the 2 tablets.

And the third time?

Since the ancient kabbalistic science of gematria reads the energy levels in the letters, which allows us so see the words and names for what they really represent at their source, let's look at the spelling of *Keter* (**CTR**), whose simple gematria is **C (20) + T (400) + R (200) = 620**, as in the **620** letter in the 10 Commandments.

So **3 Keters** (**CTR**) would be **3 x 620** or **1860**.

The Tikunei Zohar explains that the light in the ineffable Name of G-d, the **YHVH** get expanded

through squaring, which coincides with R' Chaim Vital's comment that all Torah light is spread through squaring. As the Zohar illustrates, **Y (10) + H(5) + V(6) + H(5)** gets squared like this:  
 $10^2 + 5^2 + 6^2 + 5^2 = 186$ .

And as we can see, **3 Keters = 10 x (YHVH)** squared, or simply

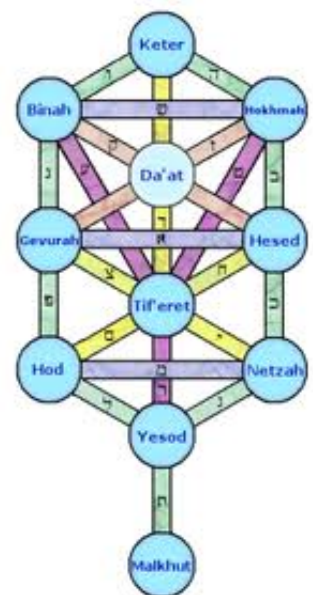

**1860 = 10 x 186**. Thus the equation illustrates that the light of the **YHVH** spread fully throughout the **10 sefirot** (dimensions) will be achievable with the **3rd Keter**.

The first two times we reached *Keter*, were thus untenable as they were incomplete and the unbalanced light was too powerful.

But when will that be?

We need to turn to the much revealing complete gematria for that. The complete gematria combines the standard numerical value of a word or phrase with its ordinal value (the placement of the letters within the *alef-bet*). And as it happens the ordinal value of *Keter* (**CTR**) is **C(11) + T(22) + R(20) = 53**.

Before we put it all together lets examine that a little closer. After

all, it is a very important name. the ordinal value of *Caf*(**C**) is **11**, signifying the **11 sefirot** when *Da'at* (the reservoir of knowledge) is included (as it must be) , and the letters *Taf*(**T**) and *Resh*(**R**) together = **42**, as in the **42** letters in the names of the **11 sefirot**.

When all **3** letters (**CTR**) are added together, they total **53**, as in the value of the word *Gan*, representing the first instance of our *Keter*, *Gan Eden* (the Garden of Eden). Nevertheless, the

---

3 *Keters* would then be  $3 \times 53 = 159$ .

And **159** is the small gematria value of the Upper **42** Letters of the Name of G-d, which is the **YHVH** expanded **3** times by spelling out the individual letters.

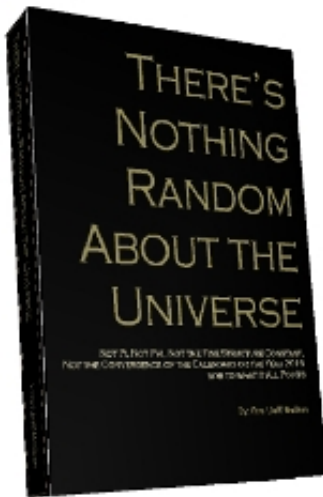

Now, adding the standard value (**1860**) to the ordinal value (**159**) for the **3** *Keters* gives us **1860 + 159 = 2019**.

And as it so happens the year **2019**, coincides with [Rav Ashlag's](#)

**predictions and all the prophecies** about the date for the *geula* (final redemption) and thus the opening of the third Tree-of-life window in **5778 (2018)** and it's sealing in **2019**. (See [Nothing is Random](#) for more details and scientific evidence).

With the *kolel* of 1, the year **2019** could easily be **2018**, but as

understood within [Nothing is Random](#) there is a definitive separation in the time-spatial continuum that is occur marked by the separation between the dates **2018** and **2019**. Indeed, the [Tikunei Zohar](#) makes the point of telling us that the word *Makom* (place/space), as in the place where Jacob rested his head and had the famous dream of the angels rising and descending, has the numerical value **186** directly because of the squaring of the letters in the **YHVH**.

Ezekiel 3:12

“????????? ???????-???????, ??????????????”

“Blessed be the glory of YHVH from His place”

‘Place’ is ?????. His place is also Keter, and in spirituality distance is time, so His place as it connects with our world becomes a time frame as well.

**2018** is the so-called end of days, and **2019** is the beginning.

---

Let's recap a bit.

$$10 \times YHVH^2 + \text{the 3 expansions of YHVH} = 2019$$

$$= \text{Keter} \times 3$$

When the Light of the **YHVH** spreads completely throughout the **42** Pathways of the Sefirot, we will be at the **3rd Keter**.

How do we know that **2019** is actually **2019 ce** and not **2019 HC**? After all, the Covenant of Abraham, the great and glorious time was promised, occurred in **2018 CE**.

Because when we spell out the name *Keter* (**CTR**) as **Caf-Tav-Resh (CP-TV-RYSh)**, its ordinal value is **107** and the sum of the integers **(1+2+3+..107) = 5778 (2018 CE)**.

Moreover the complete *gematria sofit* value plus the *kolel* of the spelled out *Keter (CP-TV-RYSh)* is **1860 once again, or 3 x 620 (CTR)**. It's Perfect!

Would you expect anything less perfect, at the level of keter, the dimension of pure perfection?

So then, why **3** letters in *Keter*, and why **3** *Keters*?

Because as the [Zohar](#) and the Kabbalists explain, the Tree-of-life is a **3** column structure (system). The ill-fated Gan Eden *Keter* headed up the right column. The short lived 10 Commandments *Keter* headed up the left column. And the only one which could really last, will be the balanced central column one that will soon form and be sealed in place in **2019 CE**, B'H.

The 3rd window will open soon and the question will be not whether the Light is ready to receive us, but whether we're ready for the Light.
