It's now known where to seek Mashiach--actually it confirms it.

The phrase Deuteronomy (34:6) " וְיָשָׁן בְּעֵמֶק בְּעוֹר בֶּתְרָא וְלֹא יָדָע אִישׁ אֶת מָקוֹמוֹ עַד הַיּוֹם הַזֶּה " And he was buried in the valley in the land of Moab over against Beth-peor; and no man knew of his burial site unto this day " contains the answers.

Actually it's in Deuteronomy (34:6) " וְיָשָׁן בְּעֵמֶק בְּעוֹר בֶּתְרָא וְלֹא יָדָע אִישׁ אֶת מָקוֹמוֹ עַד הַיּוֹם הַזֶּה " And he was buried in the valley in the land of Moab over against *Beth-peor*;

The value of the 6 words of this phrase **sofit** is 2011 and  $2011 + 6 = 2017$ , the year of *Mashiach* Like the **42** places/journeys the sequence of the letters includes the *Mem-Bet* of *Moab* and of *B'Ertz Moab* and of *Mul Beth*. In the middle is *Resh-Zaddi*, as in the middle of the *Mem-bet* and at the end of "In the beginning G-d created the heavens and the earth" There are **21** letters in this verse and the *resh-zaddi* are found at the **21st** letter of the **42**.

The *\*5\** letters that precede the *resh-zaddi*, sum to **18** (*chai*, he lives).

All the 19 letters, including the *\*kolel\** (19) except the *\*resh-zaddi\** sum to 912, plus one for the overall *\*kolel\**, and we have 913, *Bereshit*.

The *\*Lamed-vav\** are also craddled between the *Mem-bet* in *Mul Beth*, leaving 410 (*yud-tav*), the value for holy. Moreover 410 and 36 is 446, death.

The next 3 letters sum to 156, Joseph. And subtracting these 3 letters from the last two words, we have left the letters *Bet, Resh, Yud, Tav\** (*BRIT*). And where we find these letter in sequence in the *Mem-Bet* is in the 4th line, centered on the *Resh-Zaddi*.

The last word, *Peor*, has the value of 356, plus the *bet* of *beth* = **358**, Mashiach.

We know from chazal that the final letters point to the future and the 6 final letters of Deuteronomy (34:6) " וְיָשָׁן בְּעֵמֶק בְּעוֹר בֶּתְרָא וְלֹא יָדָע אִישׁ אֶת מָקוֹמוֹ עַד הַיּוֹם הַזֶּה " And he was buried in the valley in the land of *Moab* over against *Beth-peor*, " spell out "*Bet-resh-yud-Tav Zaddi-Lamed*" *Brit* (covenant) *Zal* (Shadow) or "Shadow of the Covenant"

And isn't it interesting that at the center of the *Shem Mem-bet*, the **42**-letter Name, at the central axis point as illustrated in *The Genesis Prayer*, is where we find the *Resh-zaddi*, and that if we rearrange (permute) these 6 final letters we get *Zaddi, Yud, Resh, Tav, Bet, Lamed* or "the center of the universe," or "the axis of the universe."

Deuteronomy (34:6) "and no man knew of his burial site *\*unto this day\** "
